with our customers

## Our know-how

#### Clinical batches

- ★ ICH stability: registration and tracking of clinical batches
- ★ Phase II and III cGMP clinical batches (variable batch size)

#### Industrial transfer

- ★ Scale up and validation of manufacturing processes
- ★ cGMP batches: pre-industrial and industrial scale

#### Analytical development

- ★ ICH stability: pre-stability, development, clinical batches
- ★ Analytical services: development, validation and quality control

#### Production of commercial batches

Process formulation and implementation for drugs and medical devices

## Our technologies

### Our single or multidose technologies can be adapted to many applications:

Ophthalmological drugs, asthma and rhinology treatments, diagnostic testing, vaccines, analgesics, products for headaches, colds, coughs, and digestive disorders. We help our customers choose the perfect dosage form based on their needs. Each aspect of contract pharmaceutical manufacturing is handled by our teams in France, the USA, Brazil, and China.

Technology	Filling	Annual capacity	 FR	 US	 BR	 CH
<b>STERILE LIQUIDS</b>						
 Blow-Fill-Seal	0.25 to 10mL	5 billion	✓	✓		✓
