

# Analytical Laboratory Services: Nitrosamine Analysis

Contact: Dr. Sena ÖZLEM GÜNDOĞDU  
senaozlemgundogdu@centurion.com.tr

- We provide high quality Nitrosamine testing services to the pharmaceutical industry.
- We detect nitrosamine impurities in your pharmaceutical products, helping you to ensure product and patient safety, as well as compliance with regulations.

## For Nitrosamine analysis:

- Our laboratory is equipped with the high quality LC-MS/MS and GC-MS/MS instruments.
- We develop robust and sensitive analytical methods to ensure confidence in the obtained results.
- We also develop customized nitrosamine analytical services in regards to drug related nitrosamines.

# Analytical Laboratory Services: Elemental Impurities Testing

Contact: Dr. Sena ÖZLEM GÜNDOĞDU  
senaozlemgundogdu@centurion.com.tr

Elements	
Ag	Ni
As	Os
Au	Pb
Ba	Pd
Cd	Pt
Co	Rh
Cr	Ru
Cu	Sb
Hg	Se
Ir	Sn
Li	Tl
Mo	V

## Accurately screening all 24 elements in a single analysis;

- Method development, validation and routine testing for elemental impurities in raw materials, excipients, APIs and finished products.
- With our expert personnel and well equipped, state-of-the-art laboratories, we can help you meet the requirements with ease.
- For elemental impurity analysis our laboratory is equipped with Ion Coupled Plasma Mass Spectrometer (ICP-MS).
