<b>CONTACT</b>	<b>64</b>

**Exim Pharma** is a dynamically growing Polish company that provides comprehensive services in the field of development, registration and production of dietary supplements, foodstuff, nutrients.

Preparations are made on the basis of our own recipes or the recipes provided by the Client.

We provide the highest quality products – both the development cycle and the production process are subject to strict control.

We are a Polish company building its success in Poland and abroad. We want to meet the needs of our Clients by offering them products that are distinguished by high quality, innovation, safety and effectiveness.

#### **European production standards:**

In accordance with the Regulation of the European Parliament and Council No. 852 on the Hygiene of Foodstuffs of April 29, 2004 and the Act on Food and Nutrition Safety of August 2, 2006, our production is based on the implemented ISO 22000:2005, HACCP system and Good Manufacturing Practice GMP.

#### **Exim Pharma Sp. z o.o. has been evaluated and certified by**

1. SGS United Kingdom Ltd as meeting the requirements of the following in ISO 22000:2018
2. SGS United Kingdom Ltd as meeting the requirements of the following in GMP (Good Manufacturing Practices)
3. URS United Registrar of Systems Ltd the requirements of the following in ISO 14001:2015
4. Ekogwarancja PTRE Sp. z o.o. as meeting the requirements of BIO processing in accordance of Regulation (EC) No 2018/848
5. State District Sanitary Inspector as meeting the requirements of Free Sale Certificate
6. Muslim League in Poland as meeting the requirements for production in the HALAL system.

Each stage of preparation, production and storage is subject to the supervision of the Main Sanitary Inspectorate. We have a modern machine park that allows us to produce a large variety of forms and products. In production, we only use certified, standardised raw materials from Polish and European suppliers and the highest quality machines from renowned European manufacturers.

Due to the expansion of our company, our annual production capacity is approximately **1 miliard hard capsules, 1 miliard tablets**, 100 million gelatin soft capsules, 35 million soft vegetable capsules based on tapioca, 100 million liquid-filled hard capsules

Converting to ready-made packages: approximately 5 million bottles in liquid forms, 15 million packages with capsules and tablets, 5 million packages in blisters, 1 million packages with powders.

In production, we use certified, standardised raw materials from Polish and European suppliers and the highest quality machines from renowned European manufacturers.

Over the past years, our production team has specialized in the production of various product forms with **Clean Label** technology i.e.without artificial additives, dyes and preservatives.

**YOUR PARTNER  
IN CONTRACT  
MANUFACTURING**

**Contract manufacturing** is a solution that is very popular in the pharmaceutical industry. The main advantages of outsourcing include saving time and money. Creating a comprehensive technological base necessary to produce a new preparation requires huge financial investment, expertise and qualified staff. By ordering the production of supplements or medical products for Exim Pharma, you can introduce a new product or brand to the market with minimal financial investment. You benefit from our know-how and the latest production technologies. We invite you to familiarize yourself with our offer if you plan to enter the pharmaceutical market or extend your offer with new products.

We know how important role an extensive product offer plays in the acquisition of retail customers. We provide solutions that will help your brand reach a wide audience. Depending on your needs and expectations, preparations can be produced as hard, soft or liquid capsules, tablets, syrups, drops and powders. In order to ensure your satisfaction and the highest quality of our products, we carefully control each batch in accordance with national and European standards. In addition to the process of dietary supplement production, we also provide assistance in developing the composition of the product, its appearance and form, and our marketing team can design modern, eye-catching packaging. We also support our Clients in the process of notification and registration of a new product. By using Exim Pharma's experience, you can be successful in both the domestic and foreign markets.
