HEALTH
NOURISHMENT

For all those with joint cartilage and bones problems, who are in need of support action. For adults with worn cartilage and joint pain. For all those who have joint pain during and after performing physical activities. For active and recreational athletes.

For those who are already aware of the pain during physical activity, but the pain doesn't limit them. For those who put excessive strain on the joints and spine (sports, work ...) regardless of age.

For men and women over the age of 25 who exercise a lot. For athletes and recreationists. For older people, for easier performance of daily tasks.
