

# INVENTYS

**Exclusive Synthesis & CDMO Services Provider**

**Dependable member of 20+ Global Supply Chains serving  
Crop Protection, Pharmaceutical, and other Speciality  
applications**

# Sustainability

Sustainability for us means achieving commercial success on the basis of solid business models in a way that is compatible with meeting the need of employees and society and protecting the environment and natural resources.

## Green Chemistry

Innovation and Green Chemistry are core elements of the INVENTYS pathway. It starts in R&D with concepts of maximizing the atom economy. The researcher's design processes that the final molecule contains the maximum proportion of the starting materials. They try to minimize the use of blocking or protecting groups.

# Why Inventys

**Inventys** has consistently demonstrated excellence in process development, scale-up and manufacturing of Specialty Chemicals for Crop Protection chemicals, Healthcare, electronics and other applications. The focus on advanced technologies ensures innovative, cost effective and safe processes. Majority of our revenue is derived from Exclusive Synthesis & CDMO assignments.

## Innovative

- Flow Chemistry
- Process Synthesis
- Process Engineering

## Sustainable

- Ethical
- Green Chemistry
- Environment
- Responsible behaviour

## Consistent

- Quality
- On Time Performance

## Compliant

- IPR Protection
- Business Processes
- Trustworthy

## Competent

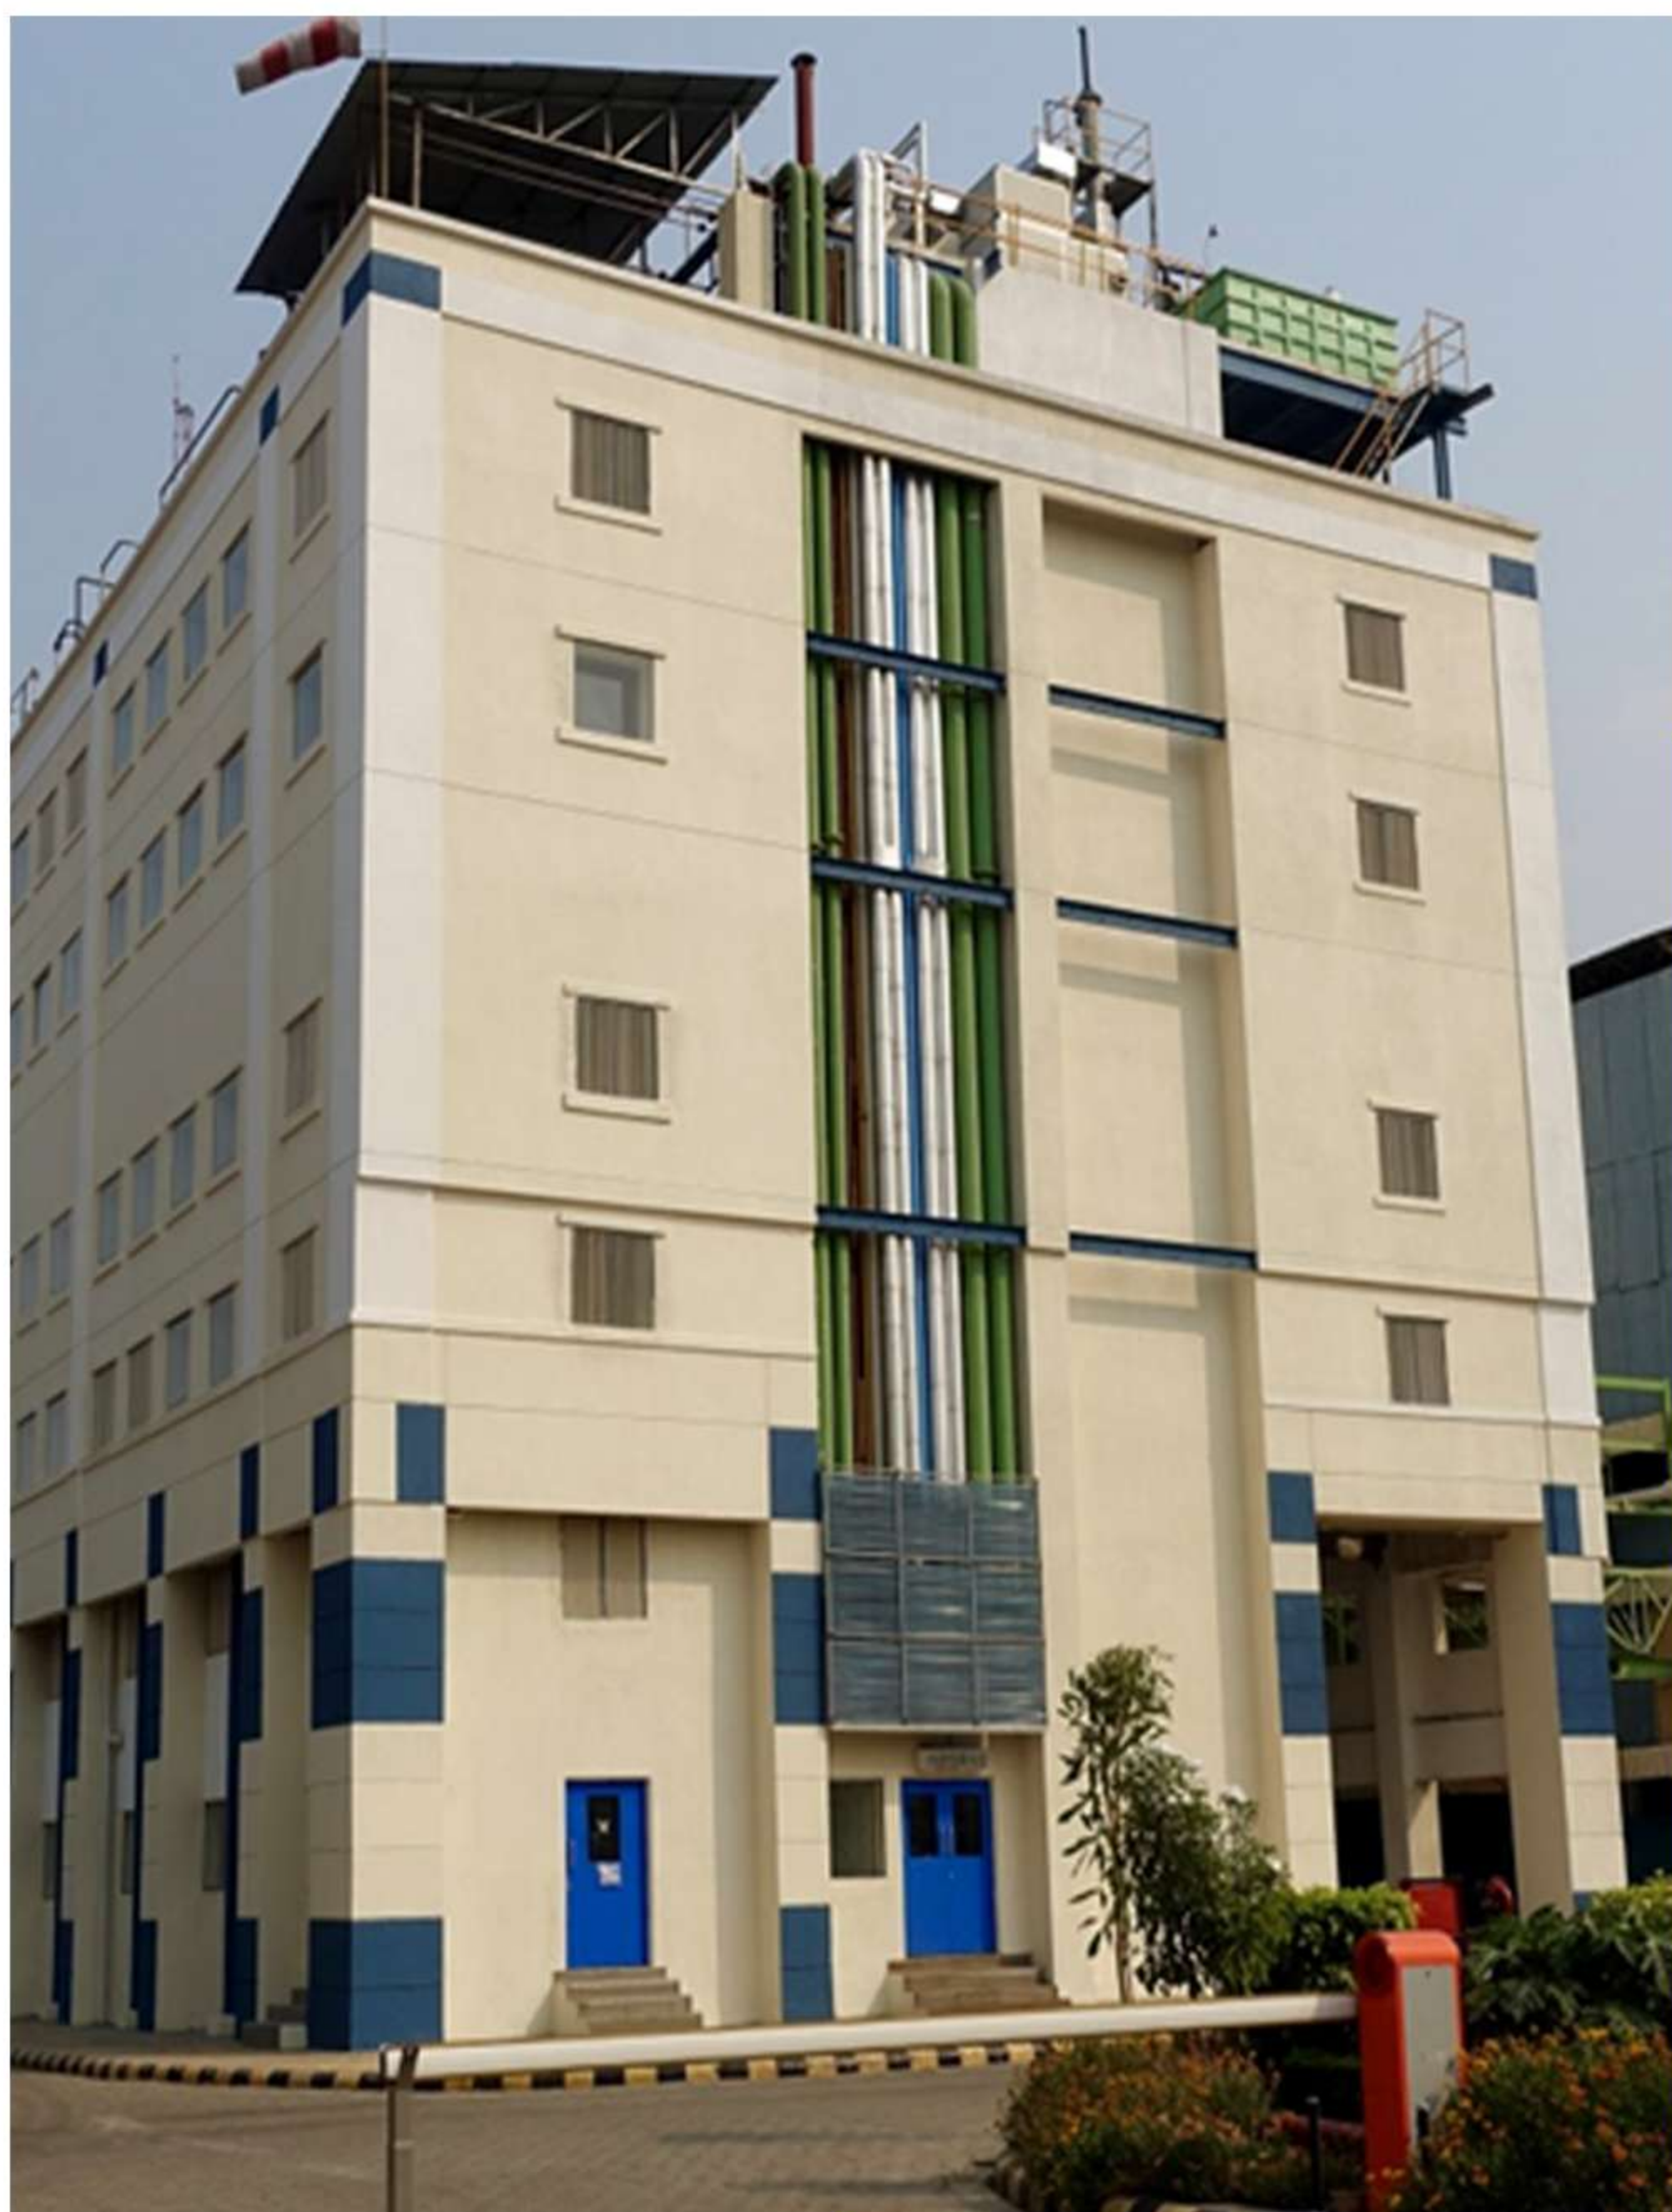

- People

## Efficient

- Piloting / Scale-up  
Trial Production
- Project Management

# About us

- ▶ Reliable Stable Partner in Multiple Global Supply Chains.
- ▶ Research Driven Exclusive Synthesis & CDMO Company.
- ▶ Backward Integrated to bulk intermediates.
- ▶ Capable in handling complex chemistries and hazardous materials.

# Circularity @ Inventys

- ▶ >50% of energy usage from NON-DEPLETABLE resources
- ▶ ~30% of the revenue from ZERO EFFLUENT green chemistry
- ▶ Responsible Behavior
  - ▶ Environmental
  - ▶ Society
  - ▶ Customers
  - ▶ Employees

## Integrated Manufacturing Site 1 with 5 multi-purpose plants

- ▶ WHO GMP
- ▶ ISO 9001, ISO 14001, ISO 45000
- ▶ State of the art automated manufacturing

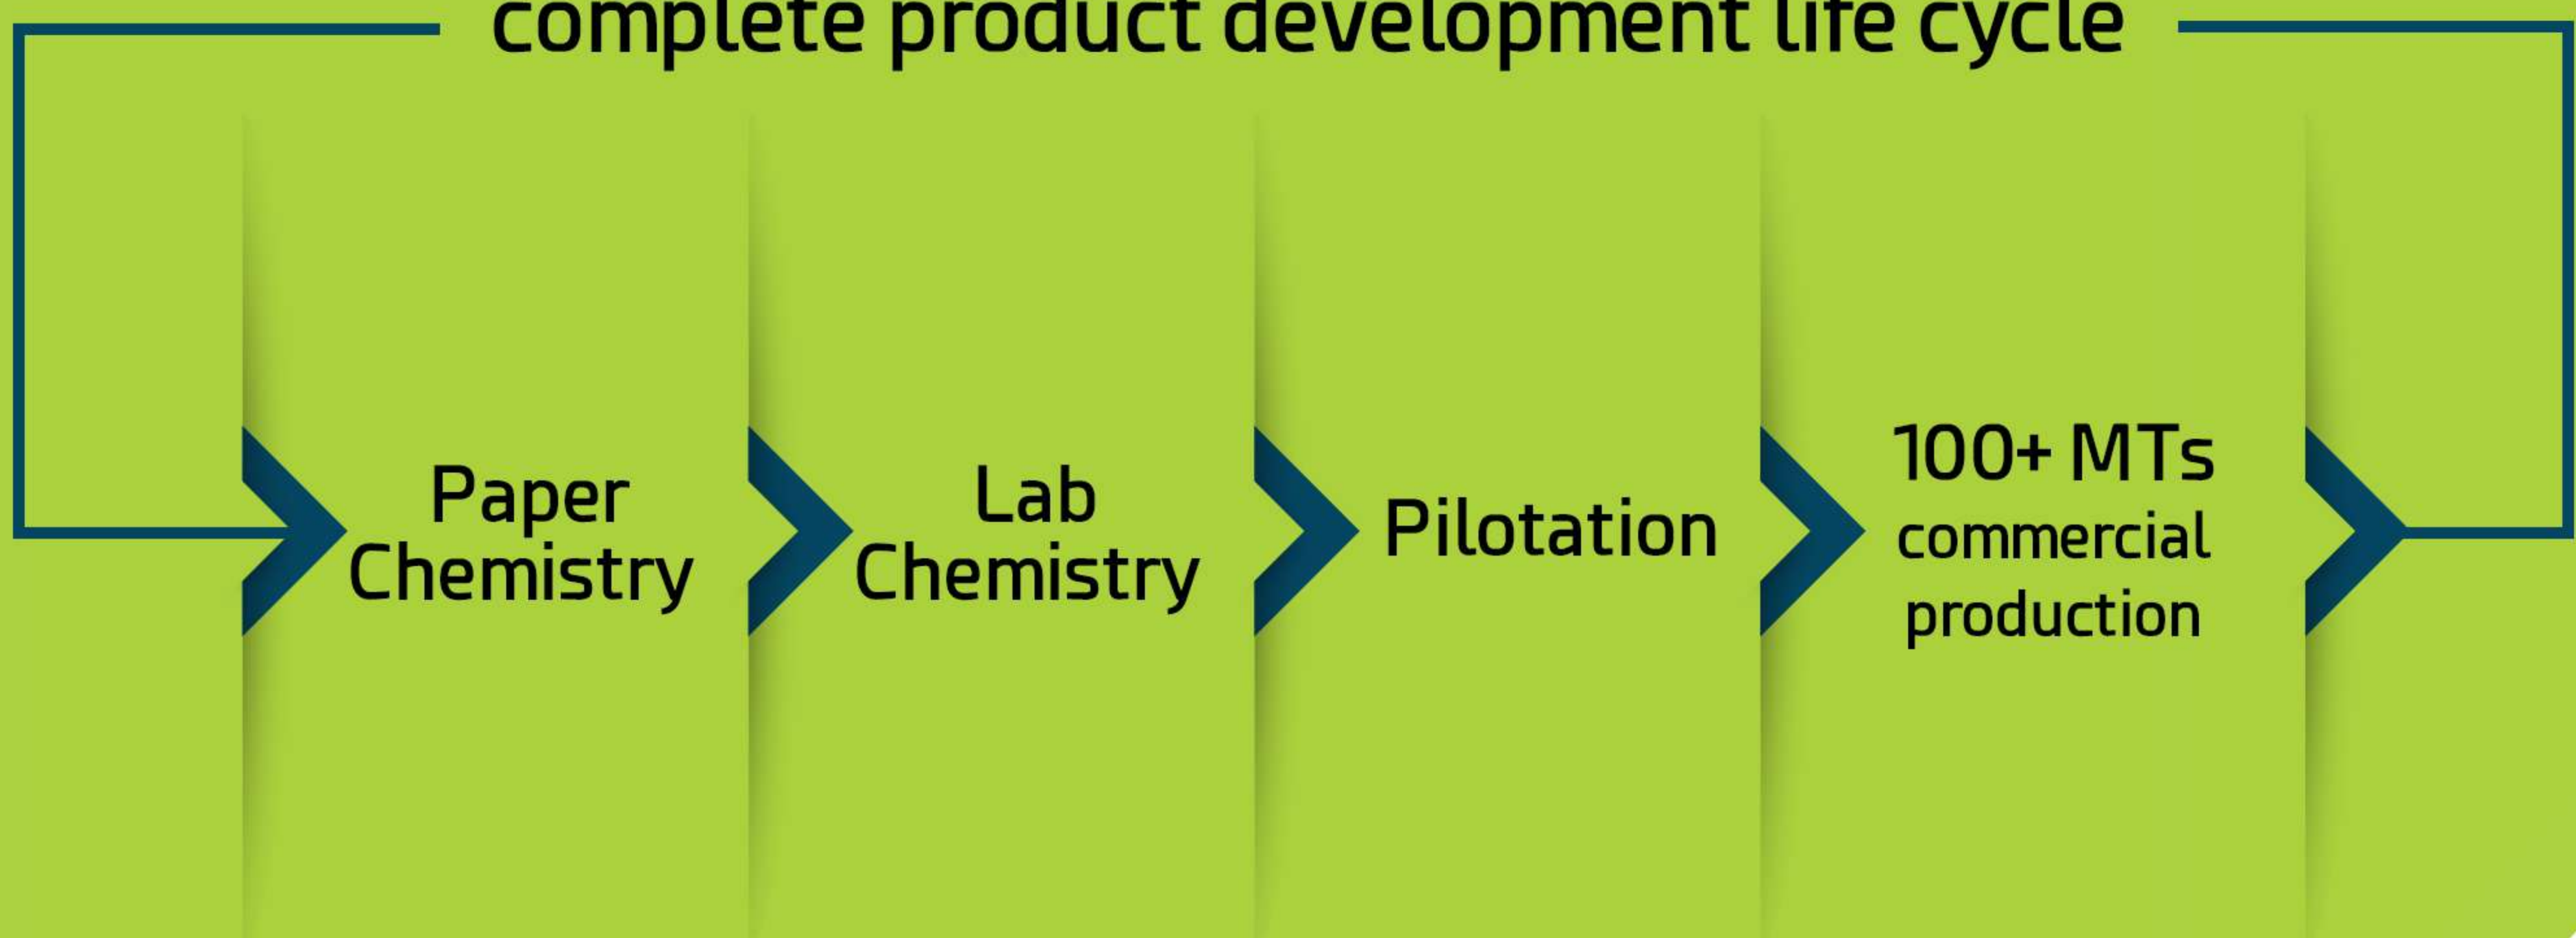

**New sites 2 & 3  
(ready 2024)  
>2,000,000 Litres  
reaction capacity  
(300+ reactors)**

▶▶▶ 90%+ revenue earned from advanced markets such as Japan, Western Europe, and US

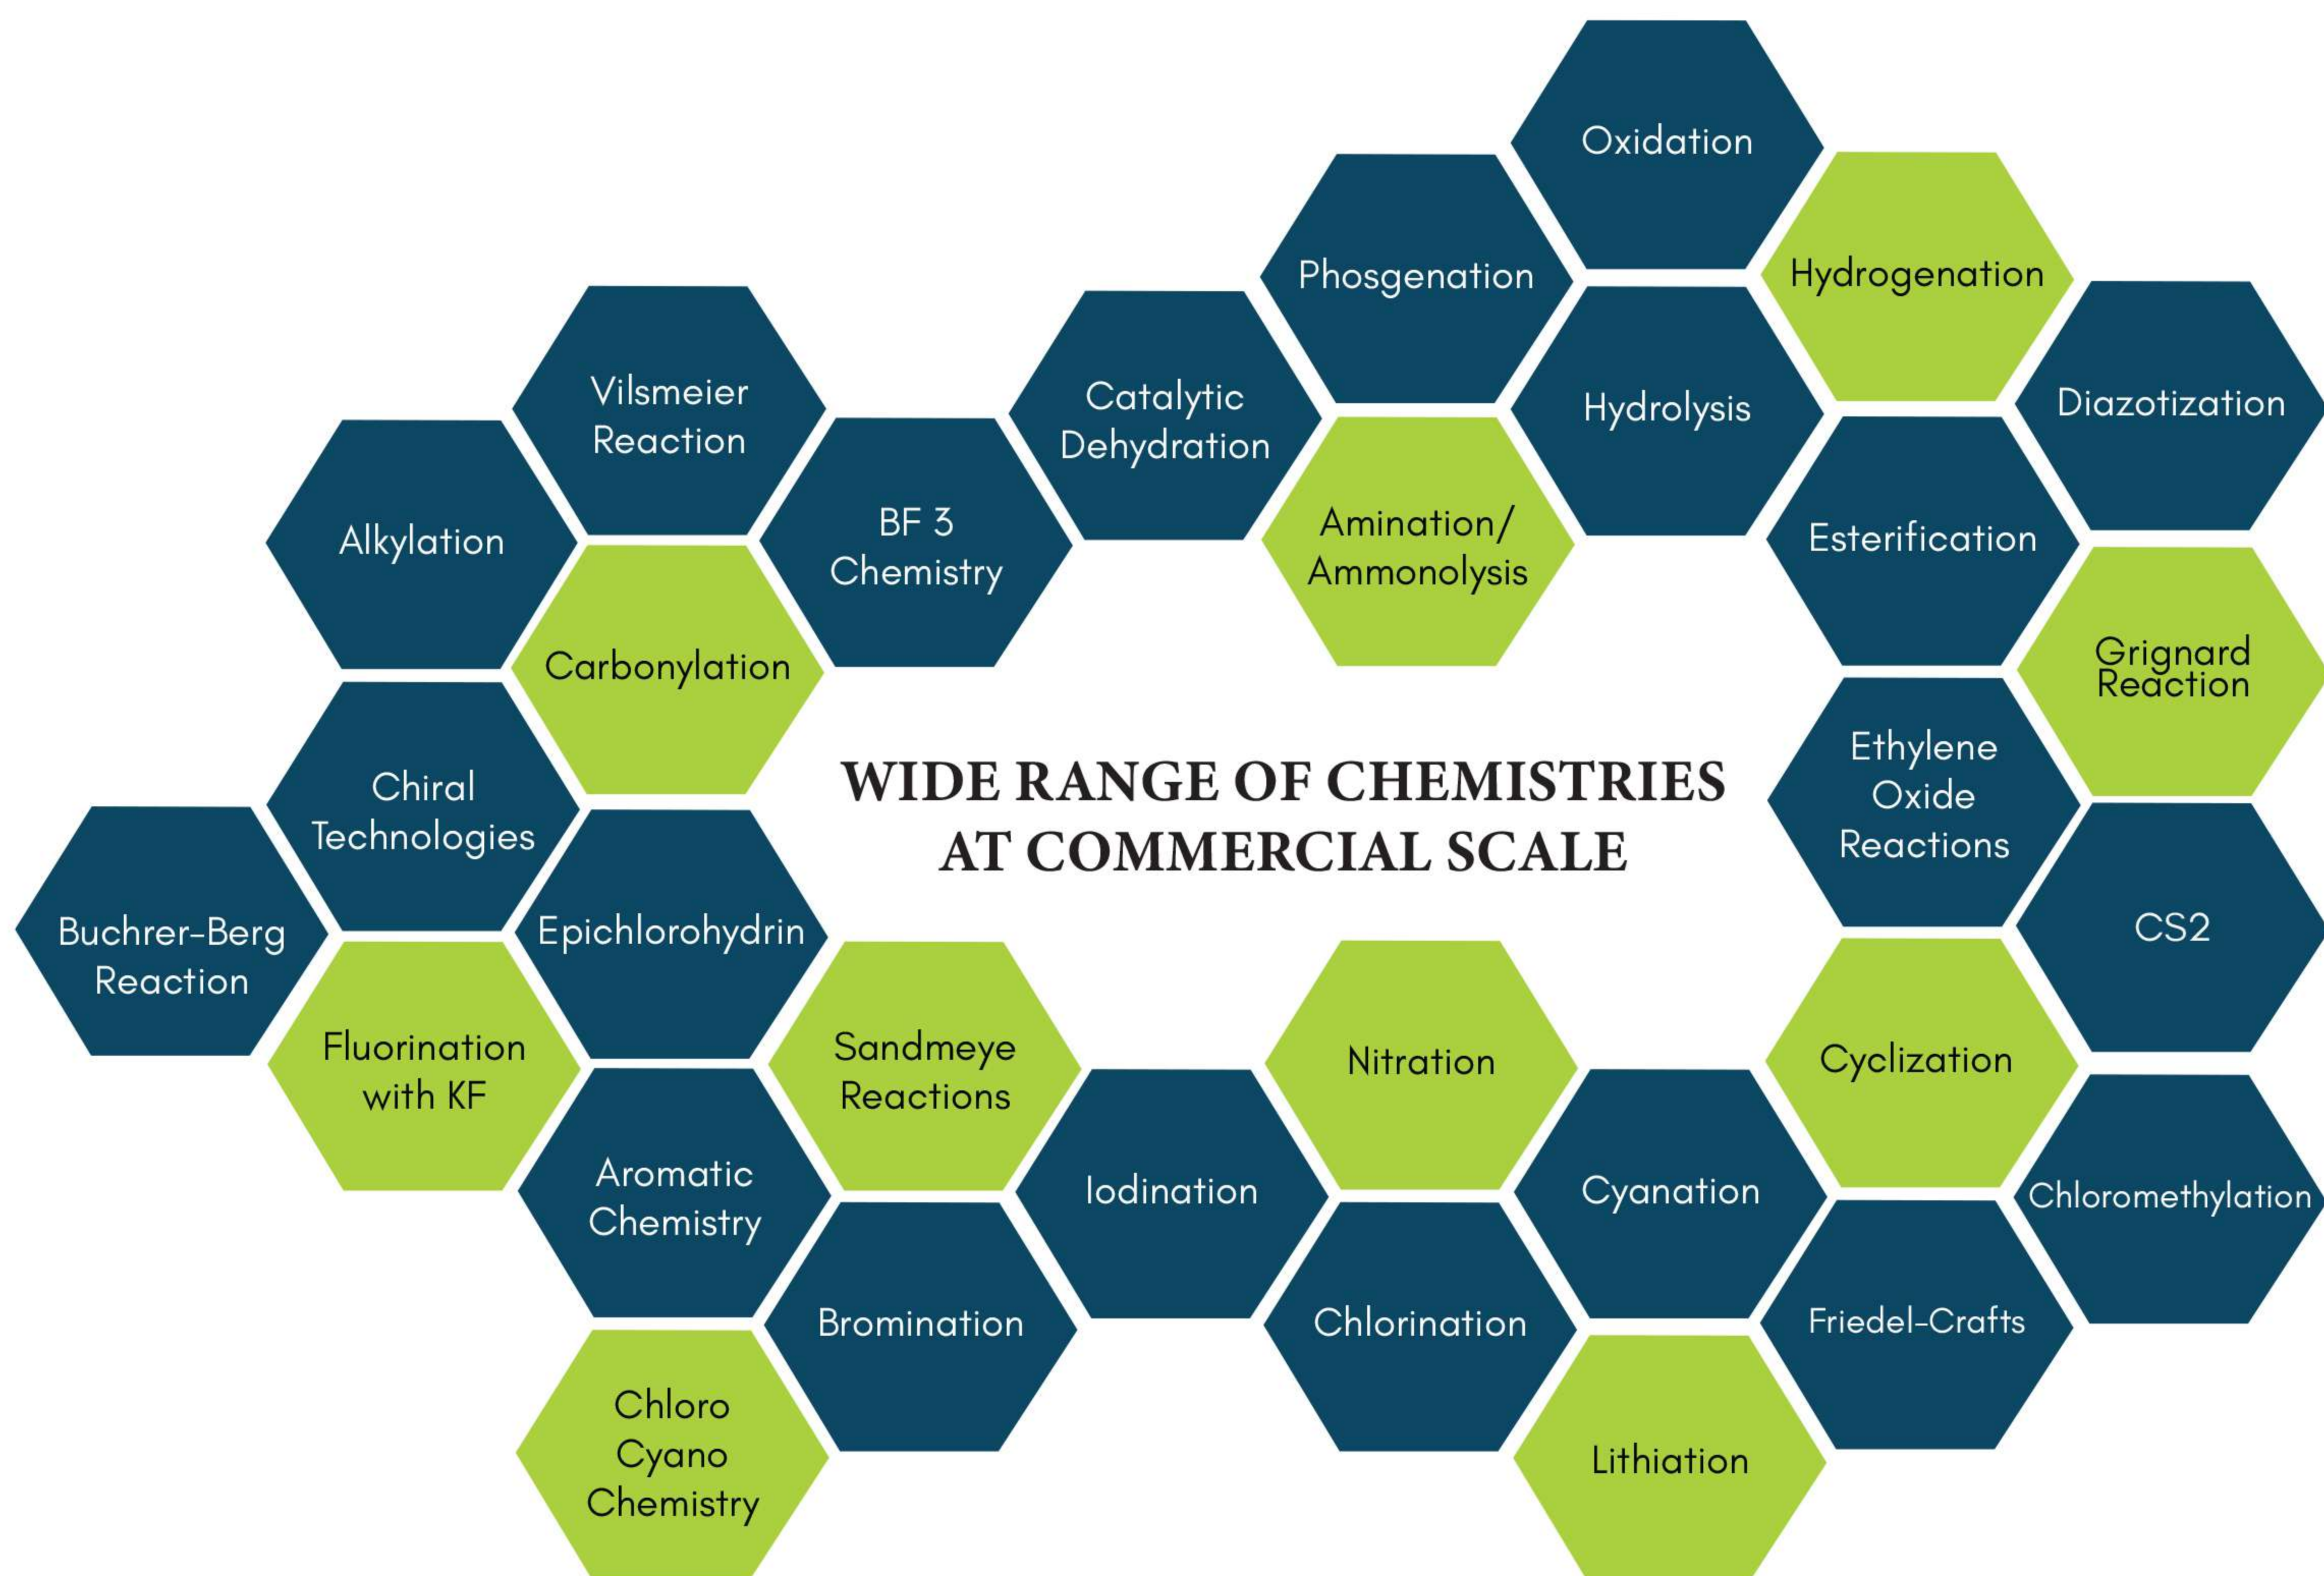

▶▶▶ Serving as reliable member of Global Supply Chains of more than 15 multinational corporations

Demonstrated expertise in complete product development life cycle
