These Ampoules can be combined with any of the following Breaking Mechanisms

- **SNAP BREAK**
- **SCORING RING**
- **ONE POINT CUT (OPC)**

We also provide various additional features such as

- **Identification Band with upto 3 color rings**
- **Ceramic Printed Ampoules**
- **Inner surface treatment**

## REGULATORY SUPPORT

We understand that primary packaging, in particular for parenteral drugs, needs to comply with applicable standards and regulations, so SNG provides pharma and biotec companies with required documentations such as LOA, DMF and others for their dossier preparations. We provide samples and continuous monitoring support to our partners throughout their product life-cycle.

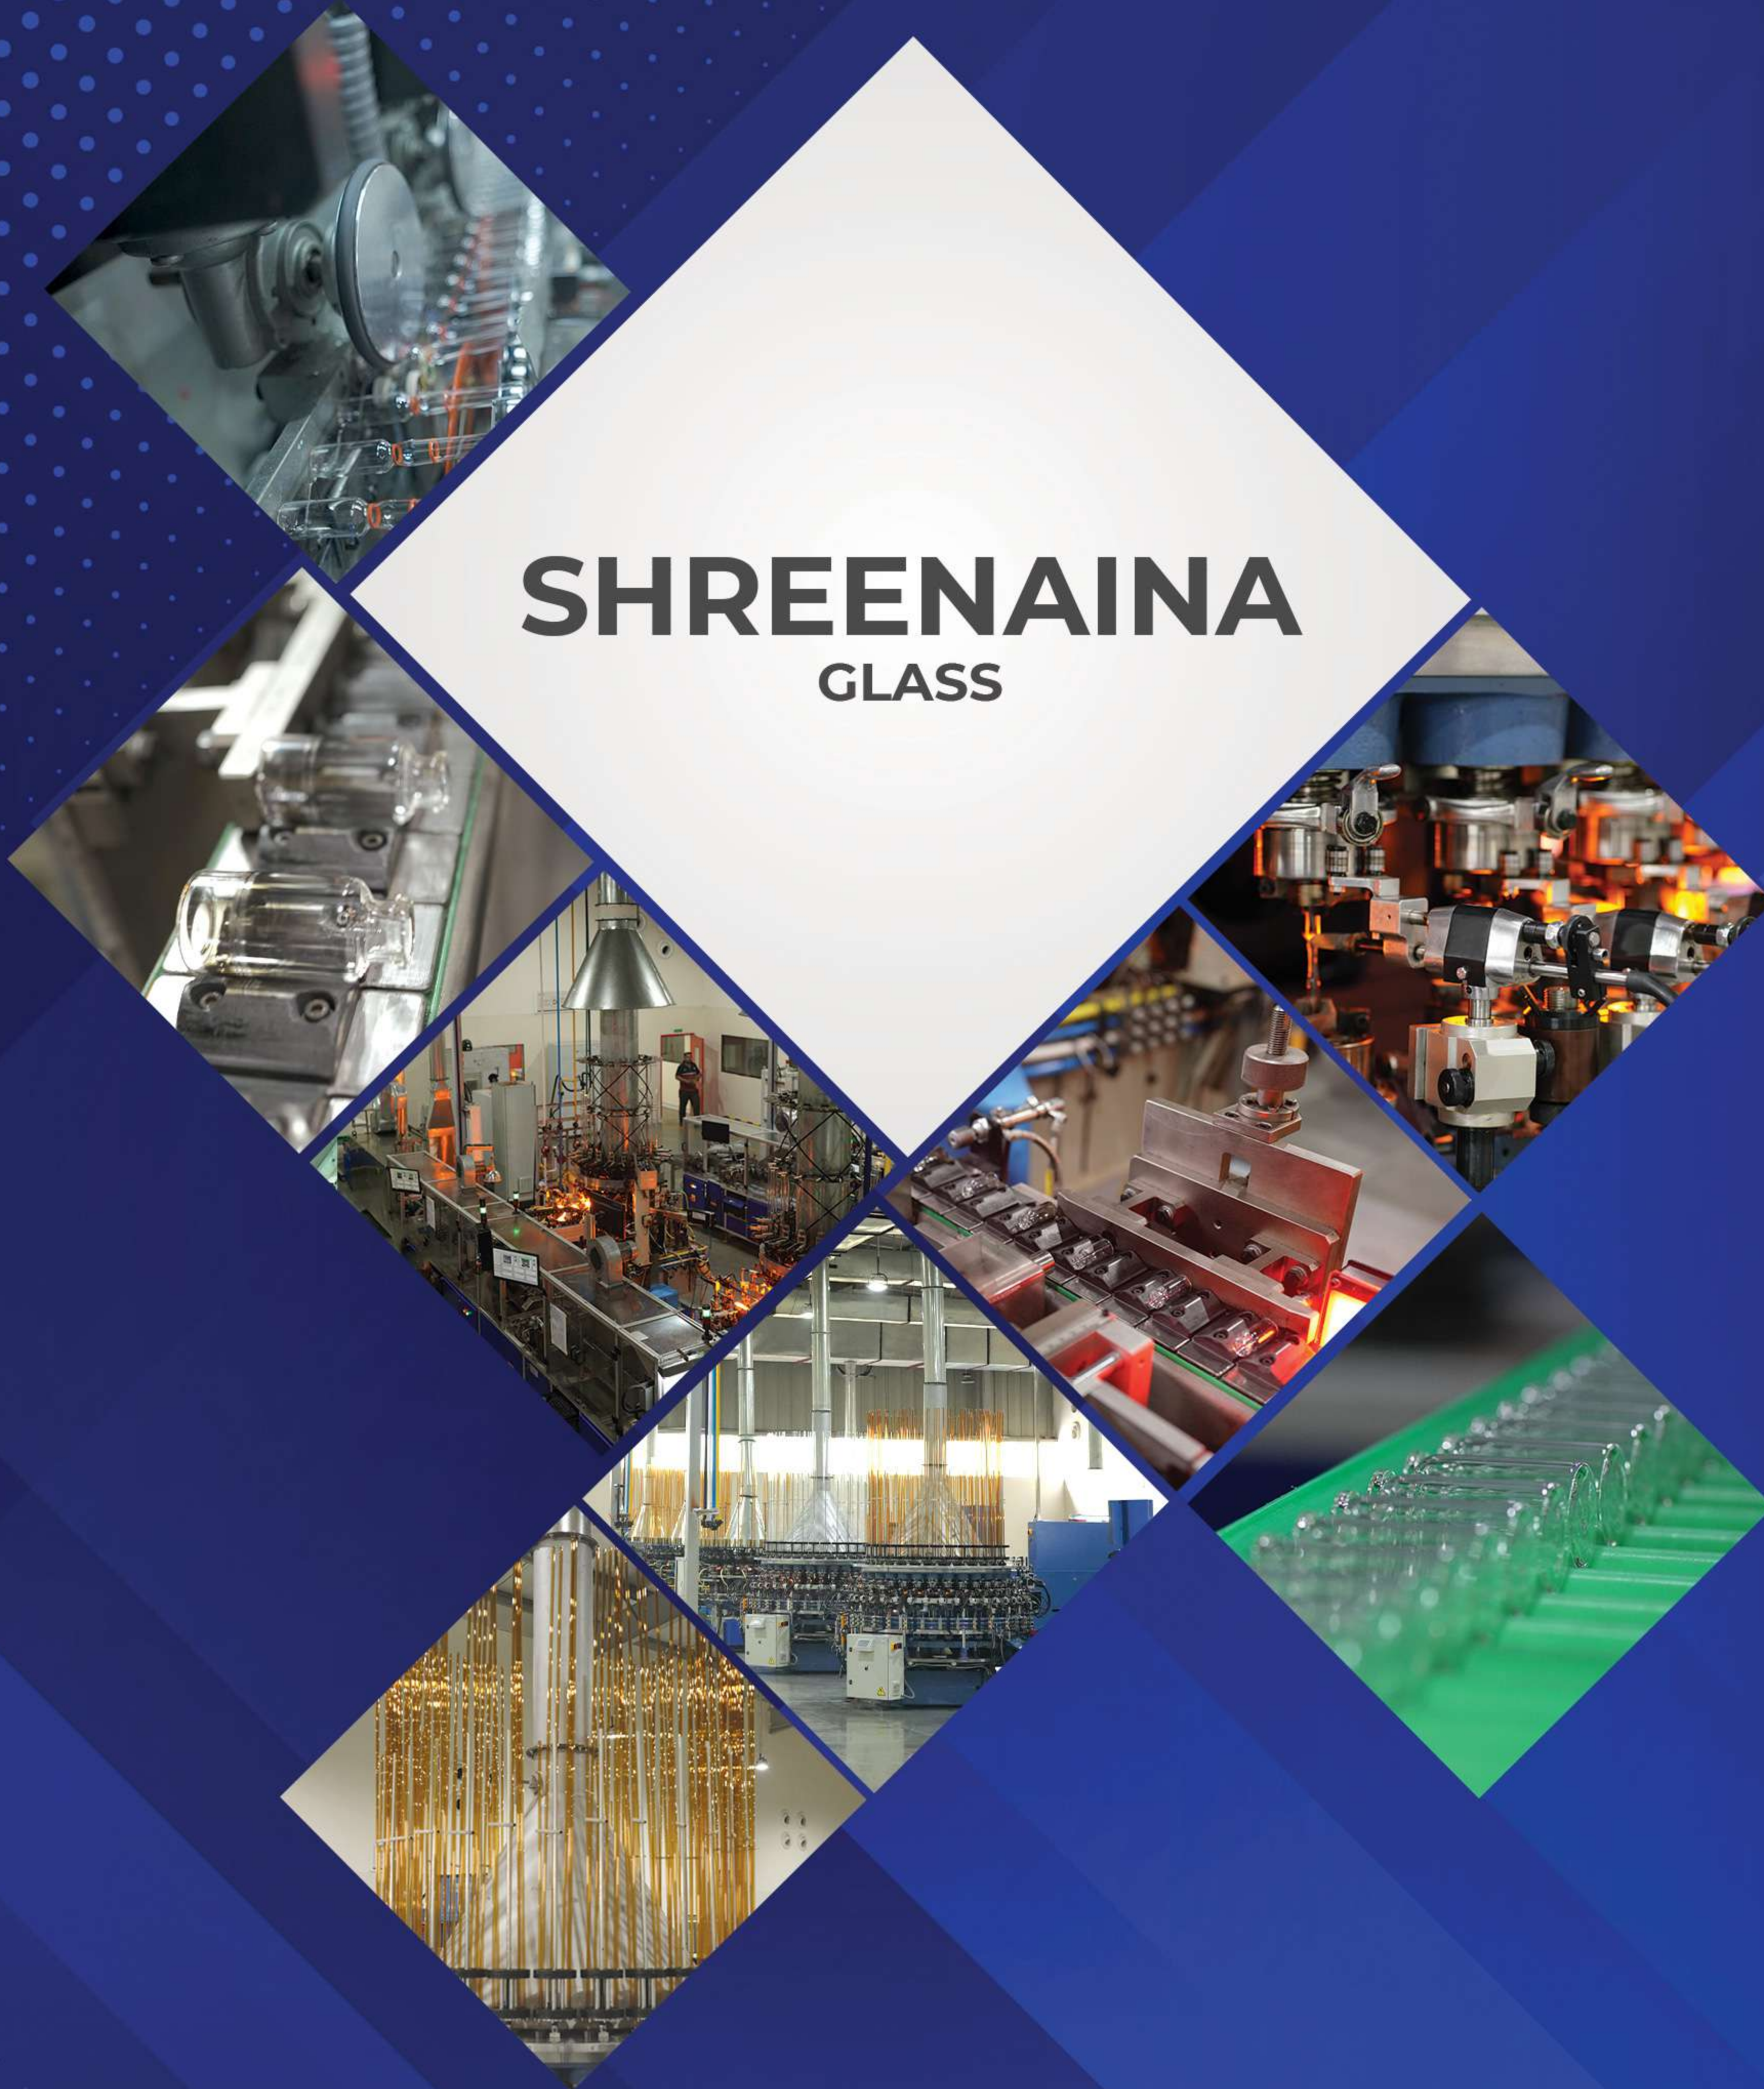

## QUALITY

It is our endeavour to ensure that there is no compromise on systems towards ensuring quality of the final product. Quality starts from our choice of glass tubing that we source from the world's largest and most reputed manufacturers. Our products are made from state-of-the-art equipment sourced from leading European manufacturers.

We ensure quality from incoming raw material to rigorous in-process checks to compliance of final products as per USP, EP, BP and other applicable standards.
