

A unique medical leaflet - Thin Bible Paper Booklet

The new standard for medical packaging –

Provides outstanding usability, a very low carbon footprint and perhaps the most cost-effective logistics available

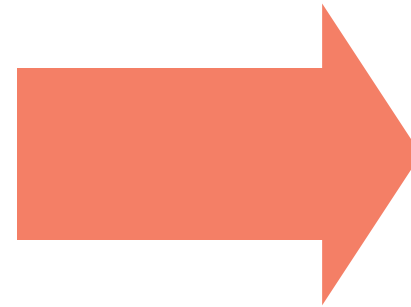

THINPRINTING

By St Michel Print

Summary

The standard leaflet for medical products

A unique medical leaflet – Thin Bible Paper Booklet

- Significant savings on leaflet/booklet costs (~20%).
- **An environmentally friendly (less paper, ~30 – 50%, and more efficient logistics).**
- 3-4 times more information (e.g. more languages).
- Outstanding usability (easy to open/close).

We are looking forward to providing Thin Bible Paper Booklets (annually over 10million/product) to even more medical and pharmaceutical companies.

A unique medical leaflet solution - Thin Bible Paper Booklet

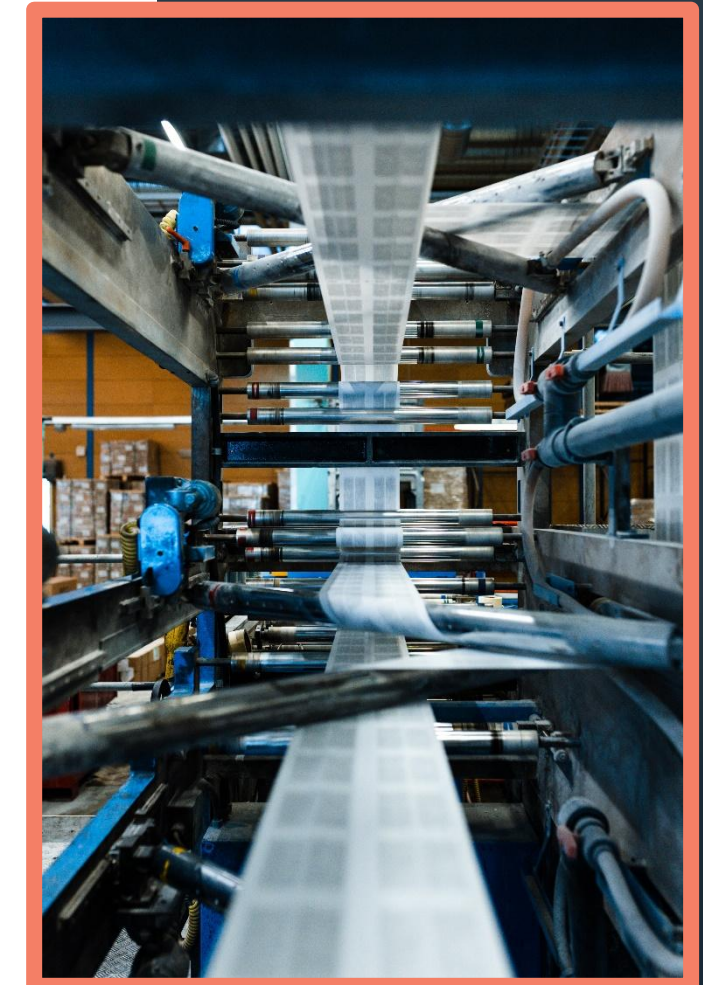

Our unique leaflet solution (Thin Bible Paper* Booklet, 29 g/m²) includes the same amount information as 4 standard folded leaflets (50 g/m²).

*We use only FSC certificated paper
