Sustainability services

Supply Chain services

Quality services

We deliver consistent, high-quality APIs across our global network through:

- cGMP-certified facilities adhering to the highest manufacturing standards
- Robust quality control processes
- ICHQ7 compliance for reliable pharmaceutical-grade ingredients
- Continuous investments, with regular inspections by various authorities

What you can get

- ✓ Multi-year quality agreements
- ✓ Commitment to change notifications and change management controls
- ✓ Analytical test methods and expert services as needed
- ✓ Access to audit reports and site auditing
- ✓ Nitrosamine risk assessments
- ✓ Individualized quality support

Regulatory services

We can help to streamline and accelerate regulatory filings and product approvals with:

- Comprehensive documentation, including up-to-date dossiers for global registrations—such as CEPs, US DMFs, Japanese DMFs, and China DMFs—along with access to the API section of marketing authorization approvals worldwide, and support for direct API registrations where required
- Standard and customizable statements tailored to meet specific market and customer needs
- Personalized assistance with regulatory submissions and documentation to ensure compliance with ICH, US FDA, EMA, and other regional standards
- Project-based collaboration to develop compliant drugs, including regulatory documentation gap assessments and regulatory strategy expertise

Supply chain services

We secure reliable access to high-quality APIs via:

- Worldwide network of strategically located production sites secures consistent API supply by combining in-house capabilities with long-term trusted partners
- Good Distribution Practices (GDP) adherence and robust auditing
- Expertise in cost reduction strategies and best practice sharing for enhanced operational efficiency
- Support with import/export documentation and regulations

Sustainability services

We go beyond pharma compliance with solutions that make sustainable progress possible, supporting customers with:

- Life Cycle Assessments (LCAs) expertise in accordance with ISO 14040/44 standards, quantifying the environmental impact of our solutions. We develop greenhouse gas (GHG) emission reduction roadmaps at site and ingredient levels, helping customers advance their decarbonization efforts
- Transparent information sharing, providing access to our primary data, sustainability targets, and certifications (EcoVadis, SBTi), enabling customers to assess dsm-firmenich as a supplier and make informed purchasing decisions
- Our Imp'Act Card™ program offers detailed, science-based metrics on the environmental footprint of our products at an ingredient level, including traceability, certifications, and social impact data (Sedex)
- Expertise and customized support for sustainability questionnaires, emission calculations, or joint development of sustainable solution
