ABOUT US

Abfen Farma was established in 2005 in Ankara to operate in the production and sales of pharmaceuticals, medical devices, food supplements and dermo cosmetics.

Currently, we continue production in our facility in Baskent Organized Industrial Zone in Ankara Turkiye. Keeping innovative thinking at it's centre, Abfen Farma R&D and production teams strive to achieve product quality and the sales team works to provide up-to-date product and literature information to thousands of doctors and pharmacists. Using clinically proven ingredients and state-of-the-art technology are our priorities in formulating our products.

Quality management systems including but not limited to ISO 13485, ISO 22000, ISO 22716 are actively operated in our production facility which is capable of manufacturing different forms of products such as tablets, capsules, liquids and semi-liquids, effervescent and lozenges.

Abfen Farma products meet all international quality requirements. Both the ingredients and the finished products are guaranteed by strict internal and third party laboratories to ensure optimal quality, safety and traceability.

ABFEN NASORINSE PLUS (NASAL IRRIGATION KITS)

- Medical Device Class IIa (MDD/MDR).
- Ongoing clinical study.
- Large volume nasal irrigation kits with hyaluronic acid.
- Available in two forms for adult and pediatric use and spare sachets.
- Clinical evidence shows that large volume irrigation is the best choice for an effective mechanical cleaning of the nasal cavity including the sinuses.
- Nasal irrigation with hyaluronic acid is clinically proven to be superior to saline irrigation in patients with recurrent URTI.
- Hyaluronic acid plays a pivotal role in mucosal host defense by stimulating ciliary clearance.

ABFEN SINUS RINSE KIT (NASAL IRRIGATION KITS)

- Medical Device Class IIa (MDD/MDR).
- Ongoing clinical study.
- Hypertonic saline irrigations are effective in the prevention of seasonal allergic rhinitis symptoms.
- Xylitol irrigations result in greater improvement of symptoms of chronic rhinosinusitis as compared to saline only irrigation.
- Nasal irrigations with surfactant solutions are beneficial in improving symptoms of thickened nasal discharge and postnasal drainage in patients with chronic rhinosinusitis.

ABFEN NASORINSE SPRAY (NASAL SPRAY)

- Medical Device Class I (MDD), Class IIa (MDR).
- Ongoing clinical study.
- Hypertonic nasal spray.
- Formulated with hyaluronic acid, vitamin C and dexpanthenol.
- Fast and effective relief for congested/blocked nose.
- Helps improve mucociliary action and moisturises the nasal cavity.
- Promotes wound healing in damaged mucosa.
- Can be used for all ages.

NAZALNEM (NASAL SPRAY / DROPS / OINTMENT)

- Medical Device Class IIa (MDD/MDR).
- 1 clinical study completed, 1 ongoing.
- Formulated with dexpanthenol, vitamin A, vaseline, liquid paraffin.
- Improves symptoms of mucosal irritation, such as dryness of the skin and crusts.
- Acts as an effective moisturizer, improving stratum corneum hydration, reducing trans epidermal water loss and maintaining skin softness and elasticity.
- When applied on silastic splints after nasal septal surgery, significantly decreases crusting, obstruction, and foul smell.

OXSİBOR (EAR DROPS)

- Medical Device Class I (MDD), Class IIa (MDR).
- Ongoing clinical study.
- Formulated with hydrogen peroxide and boric acid in water.
- Safe, effective and fast cerumenolytic for earwax removal.
- Safe and effective way to clean the ear canal in otitis externa.

TERAPAS (SYRUP / LOZENGE)

- Formulated with cetraria islandica and sambucus nigra.
- Available in two forms as syrup and lozenges.
- Also has zinc and vitamin C in syrup form, propolis and xylitol in lozenge form.
- Herbal product recommended for dry, irritating cough, mild inflammations of the upper respiratory tract and irritation of the oral and pharyngeal mucosa, including hoarseness and sore throat, relief of early symptoms of common cold.
- Favorable raspberry flavour.

TERAPAS SOLO (LOZENGE)

- Formulated with commiphora molmol (myrrh), sisymbrium officinale and thymus vulgaris.
- Helps keep a clear voice, soothes and clears, relieves from throat irritation.
- Herbal product recommended for symptomatic treatment of aphonia, hoarseness and irritating coughs.
- Favorable menthol flavour.

MENURA (SYRUP / LOZENGE)

- Formulated thymus vulgaris and primula veris.
- Available in two forms as syrup and lozenges.
- Herbal product recommended for common cold with productive cough as both thymus vulgaris and primula veris are expectorants.
- Favorable lemon flavour.

AFTORAL (ORAL SPRAY)

- Formulated with botanical extracts (morus nigra, melissa officinalis, myrtus communis, glycyrrhiza glabra) and carbopol.
- Effective in reducing the healing duration and the severity of pain in recurrent aphthous ulcers.
- Provides a protective layer over the lesion which has an important role in healing process.

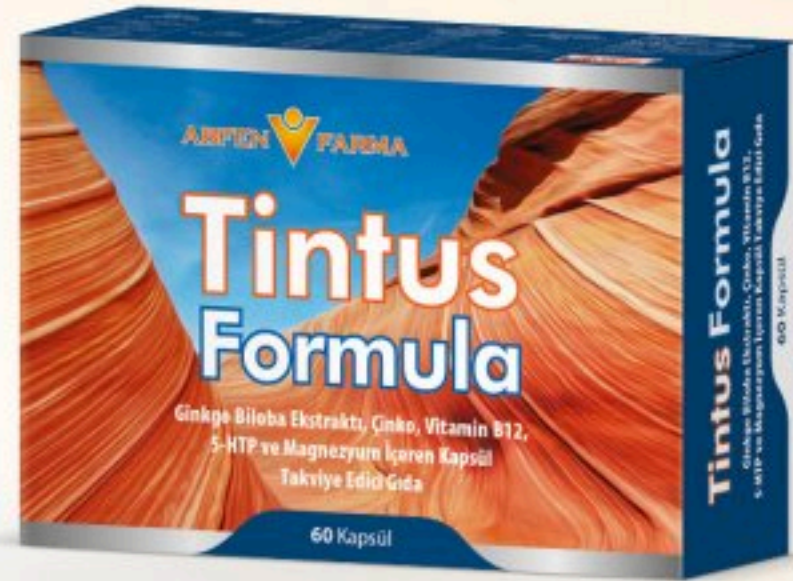

CURFEN

- Formulated with highly bioavailable curcuma longa extract.
- About 50 times more curcumin is absorbed directly into the blood vessels.
- Each tablet equals 1000 mg curcumin.
- Safe and effective in pain reduction and functional improvement for osteoarthritis and rheumatoid arthritis.
- Helps to get better outcomes in terms of anthropometric measurements and body composition in management of overweight patient.

TINTUS FORMULA

- Formulated with ginkgo biloba, vitamin B12, magnesium, zinc and 5-HTP.
- Perfect combination to be effective in treatment of tinnitus.
- Also helps improve the perception of tinnitus so that the patient can continue a normal working and leisure life.

OREKA FMN

- Formulated with soy izoflavones.
- Alternative treatment for menopausal symptoms for people who are unwilling to take hormone replacement therapy.
- Effectively improves vasomotor symptoms (VMS) such as hot flushes and sweating.
- Protective against osteoporosis.

OREKA POROCARE

- Vitamin and mineral complex.
- Supports bone health in both postmenopausal osteoporosis and senile osteoporosis.
- Developed on the basis of the very latest research to provide a rich source of calcium and co-factors including vitamin D.

OREKA FIRST

- Vitamin and mineral complex.
- Specially formulated to be the most optimal and comprehensive pregnancy supplement containing essential nutrients for pregnancy.

OREKA D3K2

- Vitamin D and vitamin K contributes to the preservation of normal bones.
- Vitamin D promotes normal function of the immune system, normal absorption/use of calcium and phosphorus, promotes normal blood calcium level, promotes preservation of normal muscle function.
- Taken orally in spray form.

ALENISTA (SUNSCREEN)

- Ultra-resistant formula specifically developed for sensitive skin.
- High protection, broad spectrum (UVA, UVB, blue light, SPF 50+) comfortable fluid formula.
- Non-greasy cream does not leave white marks and does not migrate.

ALENISTA (AFTER SUN SPRAY)

- Helps hydrate dry exposed skin.
- Replenishing and soothing formula.
- No parabens.
- Non-comedogenic.
- Specifically formulated for sensitive skin.

ALENISTA (BODY LOTION)

- Gently hydrates dry, rough skin.
- Helps restore the skin's barrier and replenish the skin's lipids.
- Skin is left feeling soothed and smooth.
- Suitable for adults and children.

ALENISTA (HAND CREAM)

- A barrier cream that leaves an invisible protective glove-like effect.
- Tested on sensitive skin.
- Minimal ingredients and fragrance.
- No parabens, non-comedogenic.

**ALENISTA (BAR SOAP)**

- Formulated with all natural oils.
- Perfect for cleaning the face and body.
- Removes the dryness and provides a soft leather effect on sensitive skin with gentle hydration.

ALENISTA (LIP BALM)

- Natural and vegan formulation.
- Lip balm for anyone who has extreme dryness/damaged skin.
- Barrier treatment to soothe and nourish the skin, preventing future chapping.

ALENISTA (BODY LOTION)

- Natural formula.
- Immediate and long-lasting hydration.
- Formulated with rich carrier oils and essential oils.
- Protects and strengthens skin barrier and can be used daily.
