

ALMA

DEVELOPMENT, MANUFACTURING &
LICENSING OF MEDICAL DEVICES
AND COSMECEUTICALS

PRODUCTS |
CATALOGUE

Alma is an Italian company dedicated to the **development, manufacturing, registration, and licensing of medical devices, cosmeceuticals and food supplements.**

Sinerga
SKIN EVOLUTION

Part of SINERGA Group, since 1978 a leading supplier of cosmetic ingredients and contract manufacturer for the dermo-pharmaceutical international industry, ALMA answers the market need for **ready-to-market solutions.**

⬡ Medical Devices MDR certified

⬡ Patented ingredients

⬡ Claims supported by clinical data, in vivo & in vitro tests

ALMA

ALMA experts **manage the entire process and product realization**, from design and collection of technical, clinical and toxicological data, up to final marking, following a full project management for the development of:

- Medical devices
- Cosmeceuticals
- Food supplements

Assessed & ready to market

Full regulatory support: an internal department managing all aspects linked to regulation, including:

⬡ Patents.

⬡ The entire CE marking process in accordance with the current regulation.

⬡ Provision of documents for export.

⬡ Verification of Labelling compliance with EU directives.

FORMULATION PHILOSOPHY

All the ingredients contained in Alma products have been carefully selected for their efficacy and safety, following a **green physolophy** to favor **natural and sustainable solutions**.

Thanks to Sinerga wide expertise in the ingredients' field, we also enriched them with our **technology and proprietary and patented ingredients** to confer more precise efficacy, as well as additional uniqueness.

THERAPEUTICAL AREAS

A multi-annual expertise in answering the market needs with product solutions belonging to the following categories:

Page 6	DERMATOLOGY:	acne, atopic dermatitis, seborrheic dermatitis, itching, dry skins, psoriasis, rosacea, scars, traumas & chronic pain, anti-chafing.
Page 20	SKINCARE:	anti-aging (hyperpigmentation & dull complexion, collagen booster & skin longevity).
Page 24	SUNCARE	sunscreens, aftersun care
Page 26	HAIR CARE:	hair loss & thinning, scalp irritation & microbiome
Page 28	ORAL CARE:	canker sores, cold sores, gingivitis, mouth lesions
Page 34	BABY CARE:	infant eczema, diaper rashes, cradle cap, teething
Page 38	HANDS&FEET:	fissures, cracks & chaps, mycosis (athlete's foot, onychomycosis), nail alterations (onychodystrophy)
Page 42	WOMEN'S HEALTH:	vulvovaginal dryness, itching, pH alterations, menopause discomforts, probiotic cream, urinary tract infections, intimate wellness & anti-aging
Page 48	PROCTOLOGY:	hemorrhoids, irritation & itching
Page 50	EVERYDAY ESSENTIALS:	immune system, memory & cognitive function, physical & mental fatigue, respiratory tract (cough & sore throat), sleep & jet-lag

ACNE

Acne is one of the most common cutaneous diseases, affecting up to 85% of teenagers and 15% of adults.

It's a **multi-factorial** pathology whose main causes involve:

- **hyper seborrhea:** excessive sebum production, especially due to the hormonal changes;
- **hyperkeratosis:** abnormal proliferation of keratinocytes, leading to obstruction of the pilosebaceous duct;
- **bacteria proliferation:** especially of *Propionibacterium acnes*;
- **inflammatory conditions:** with redness and irritation, and in the last phase the explosion of follicular wall;
- **oxidative stress:** amplifies the inflammatory response.

Common sites for acne are the face, chest, shoulders and back, that is the sites of oil glands.

ACNE

ACNE-SOLVE

MDR

Clinically tested

30 ml bottles / 30 ml tubes

MD Class IIa

Topical treatment of mild to moderate acne, even with an inflammatory component. It creates a protective film on skin, preventing bacterial infections and aggressions from external agents, while also reducing redness and numbers of acne lesions.

Available in 4 versions:

- Airless pump bottle 30ml
- Pump bottle 30ml
- PE tube 30ml
- Aluminium tube 30ml

CLAIMS

- Sebum reduction
- Erythema, dryness and desquamation decrease
- Reduction of comedones, pustules and papules
- Restoration of skin barrier
- Outbreak prevention and control
- For prolonged application
- 97.2% natural ingredients

KEY INGREDIENTS

Star Anise Extract, Hyaluronic acid, Trealix (Trehalose, Hydrolyzed Vegetable Proteins), Red Alga Gel.

PURE SKIN GEL

Clinically tested

50 ml tube

Cosmeceutical

Purifying sebo-regulating day treatment for combination and acne-prone skins. It effectively counteracts skin blemishes and prevents their formation, performing a sebo-normalizing, purifying, lenitive and hydrating activity.

CLAIMS

- With **Azeloglicina®** - patented ingredient
- Sebum normalizing action
- Anti-blemish
- Multifunctional

PATENTED INGREDIENTS

Azeloglicina® (Potassium Azeloyl Diglycinate)

KEY INGREDIENTS

Star Anise Extract, Hyaluronic acid, Panthenol, Bisabolol.

ANTI-BLEMISH GEL

15 ml tube

Cosmeceutical

Applied on acneic blemishes, it speeds up their disappearance. Its anti-microbial, exfoliating and soothing ingredients to foster the healing of the blemish, enhancing skin renewal process and inhibiting the bacteria and duct obstruction.

CLAIMS

- With **Verochic** - patented ingredient
- Fosters blemishes' healing
- Exfoliating, soothing, anti-microbial
- Creates a protective film
- Prevents further inflammation

PATENTED INGREDIENTS

Verochic (shikimic acid)

KEY INGREDIENTS

Star Anise extract, glycolic acid, Gluconolactone, Red Alga gel, Natifeel (Ceratonia siliqua gum), panthenol.

ACNE-SOLVE PURIFYING CLEANSER

Clinically tested

200 ml bottle

Cosmeceutical

Hypoallergenic gel with sebum normalizing, anti-redness and exfoliating properties specially designed for acne prone, impure skin. Based on a mild cleansing system, it removes excess sebum and reduces the number of comedones in just 7 days, increasing skin hydration. It also restores skin pH to physiological values.

CLAIMS

- With **Azeloglicina®** - patented ingredient
- Soothing & exfoliating
- **Efficacy in just 7 days**
- Reduces the number of comedones
- 97.4% natural ingredients

PATENTED INGREDIENTS

Azeloglicina® (Potassium Azeloyl Diglycinate)

KEY INGREDIENTS

Star Anise Extract, Hyaluronic acid, Tiolisina® (Sulphurated amino acids), Trealix (Trehalose, Hydrolyzed Vegetable proteins), Aloe vera, Panthenol.

DERMATITIS

Dermatitis is a common condition that can occur in many forms, although it usually involves redness, inflammation, dryness and scales.

ATOPIC DERMATITIS

Inflammatory chronic condition characterized by dull complexion, thin, irritated and reddened skin, often desquamated and dry to the touch.

SEBORRHEIC DERMATITIS

An **acute inflammation** of the skin caused by **hyper seborrhea** and **hyper keratosis**, leading to redness, scales and desquamation; it occurs especially in the sebaceous areas, such as sides of the nose, ear canal, eyebrows, hairline, scalp, central part of the back and the thorax.

DRY SKIN & ITCHING

Dry skin problems are due to a **reduced or absent integrity of the surface hydrolipidic film**, determined by both an excessive loss of water from the stratum corneum and an impaired production of the lipid component. Especially dry and sensitive skins can also experience **irritation, pruritus** and **itchy sensations**, causing the reflex to scratch that leads to the worsening of the condition.

ATOPIC DERMATITIS

DERMO-REMEDY

MDR

Clinically tested

50 ml/200 ml tube

MD Class IIa

Topical treatment for atopic dermatitis and xerosis, able to soothe itching, burning, erythema and skin rashes. It reconstitutes the protective skin barrier structure and restores the hydrolipidic film, preventing skin barrier disorders.

CLAIMS

- With **Trisolve P** and **Leniphenol** - patented ingredients
- Skin barrier hydration enhancer
- TEWL reduction
- Metal tested
- Dermatologically tested for sensitive skins
- Soothing efficacy
- Relief from itching, burning, erythema and skin rashes
- 97.0% natural ingredients
- Available for kids, adults and elderly

PATENTED INGREDIENTS

Tri-Solve P (Trehalose, Ceramide, Hydrogenated Lecithin), Leniphenol (Pinus Radiata Bark Extract)

KEY INGREDIENTS

Hyaluronic acid, Vitamin E, Shea Butter, Jojoba oil, Bisabolol, Sweet almond oil, Avenolat.

Available in 2 versions:

- Dermo-remedy 50 ml: **an intensive treatment** for **targeted applications** (face / specific areas)
- Dermo-remedy 200 ml: application on **extended areas** and/or as **maintenance treatment**.

DERMO-REMEDY MILD CLEANSING GEL

Clinically tested

250 ml tube

Cosmeceutical

Hypoallergenic cleansing gel for the daily hygiene of hyper-reactive, atopic-prone, dry and sensitive skins. Its eudermic formulation removes impurities without compromising the cutaneous homeostasis, providing a soothing and relipidising activity to **improve atopic skin conditions in just 7 days.**

It is enriched with a patented compound of Ceramides and Trehalose that effectively protects and strengthens the skin barrier.

CLAIMS

- With **Trisolve P** - patented filming technology
- Pediatric approval for newborns
- Effective in 7 days
- Skin barrier enhancer
- Mild cleansing - hypoallergenic
- Soothing and relipidizing efficacy
- Metal tested
- Dermatologically tested on sensitive skin

PATENTED INGREDIENTS

Tri-Solve P (Trehalose, Ceramide, Hydrogenated Lecithin)

KEY INGREDIENTS

Vitamin E, mild surfactants, Alpha-Bisabolol

SEB-REMEDY

MD Class IIa

Tiolisina® (Sulphurated amino acids), Papain, Lactic acid, Bisabolol, Ginger root extract, Allantoin, Avocado oil, Piroctone Olamina.

Cosmeceutical

Tiolisina® (Sulphurated amino acids), Allantoin, Mild surfactants.

DRY SKIN & ITCHING

DERMO-KALM

MDR

Clinically tested

30 ml/200 ml tube

MD Class IIa

Anti-itching repairing cream

formulated to provide an immediate and long-lasting soothing relief for itchy, dry and irritated skin; it repairs cutaneous lesions, easing the symptoms of inflammatory conditions and the desire to scratch.

CLAIMS

- With **Trisolve P** and **Leniphenol**-patented ingredients
- Restores skin & hydration
- Relief from itching, burning and redness
- TEWL reduction
- Metal tested
- Dermatologically tested for sensitive skins
- 97.0% natural ingredients

PATENTED INGREDIENTS

Tri-Solve P (Trehalose, Ceramide, Hydrogenated Lecithin), Leniphenol (Pinus Radiata Bark Extract)

KEY INGREDIENTS

Hyaluronic acid, Vitamin E, Shea Butter, Jojoba oil, Bisabolol, Sweet almond oil, Avenolat.

Available in 2 versions:

- Dermo-kalm 30 ml: an **intensive treatment** for **targeted applications** (face / specific areas)
- Dermo-kalm 200 ml: application on **extended areas** and / or as **maintenance treatment**.

DERMO-REMEDY HYPER-NOURISHING

500 ml pump bottle

Cosmeceutical

Fluid emulsion formulated with lenitive and calming properties for the daily relief of dry, very dry and sensitive skin. It is enriched with a patented compound of Ceramides and Threalose that effectively protects and strengthens the skin barrier by restoring the physiological hidrolipidic film.

CLAIMS

- With **Trisolve P** - patented filmforming technology
- Moisturizing and protective action
- Skin barrier enhancer
- Daily use

PATENTED INGREDIENTS

Trisolve P (Trehalose, Ceramide NS, Hydrogenated Lecithin)

KEY INGREDIENTS

Panthenol, Shea butter, Macadamia oil, Sunflower seeds oil, Refined linen oil.

PSORIASIS

Psoriasis is a **chronic inflammatory** skin condition characterized by an accelerated turnover of skin cells, leading to the appearance of **dry, thickened and scaly patches**.

It is often associated with redness, itching, tightness and a general discomfort, and can affect different areas of the body with varying severity.

Its symptoms can be effectively managed through a combination of: **gentle** cleansing, regular **hydration, barrier-repair** and **soothing** active compounds to help reduce dryness and inflammation, improve skin hydration and water levels, and support the overall skin comfort

PSORIASIS

PSORIA-REMEDY

MDR

Clinically tested

50 ml tube

MD Class IIa

Intensive treatment of psoriasis and desquamating skin conditions. It leaves the skin barrier restored and protected from aggressions by external agents. Enriched with Leniphenol - patented ingredient - it plays a soothing, calming and antioxidant action against redness, erythema and itching sensation, while its advanced exfoliating system removes excessive scales.

CLAIMS

- With **Leniphenol** - patented ingredient
- Reduces desquamation
- Reduces erythema, redness and itching
- Advanced exfoliating system
- Skin barrier restoration
- Metal tested
- Dermatologically tested for sensitive skins
- 92% natural ingredients

PATENTED INGREDIENTS

Leniphenol (Pinus Radiata Bark Extract)

KEY INGREDIENTS

Tiolisina® (Sulphurated amino acids), Papain, Lactic acid, Bisabolol, Ginger root extract, Allantoin, Avocado oil, Piroctone Olamina.

PSORIA-REMEDY HAIR&BODY WASH

150 ml tube

Cosmeceutical

Cleansing gel specifically studied as adjuvant treatment for psoriasis associated with irritation, dandruff and itchiness.

Its mild surfactants of vegetable origin assure a gentle cleansing, restoring and balancing the cutaneous barrier.

CLAIMS

- With **Verochic** - patented ingredient
- Soothing effect
- Keratosis-regulator
- Antimicrobial

PATENTED INGREDIENTS

Verochic (Shikimic acid)

KEY INGREDIENTS

Tiolisina® (Sulphurated amino acids), Allantoin, Mild surfactants.

ROSACEA

Rosacea is a chronic **inflammatory skin disease** affecting the central part of the face, i.e. the cheeks, chin, nose and the central part of the forehead. **Vascular hyperreactivity** appears to be the primary phenomenon, exacerbated by inflammation.

Symptoms of rosacea include skin dryness, skin sensitivity, stinging and burning.

It's important to treat this condition at an early stage by applying **topical product with anti-inflammatory, lenitive and vasoactive properties** in order to improve capillary wall permeability while ensuring **good hydration**.

Avoiding any potential aggravating factors that could exacerbate the disease is vital: skin shall be **protected from sunlight, external agents** and sudden changes in temperature.

ROSAZEL

Treatment against rosacea and couperose disorders. A ultra-soothing cream gel, based on Hyaluronic Acid and Azeloglicina® which act synergistically to soothe and hydrate overactive skin. Rosazel is able to perform a filmogenic effect assuring protection from external aggression for an immediate skin relief while creating a barrier to prevent future flare-ups. Organic sunscreens ensure a protection against UVA and UVB.

Clinically tested

30ml tube

MD Class IIa

CLAIMS

- With **Azeloglicina®** - patented ingredient
- Effective against erythema, redness and skin flare ups
- Rapid relief from itching, flushing, burning and stinging
- Skin hydration improvement
- **Effective in 28 days**
- Protection from external agents
- 91.3% natural ingredients

PATENTED INGREDIENTS

Azeloglicina® (potassium azeloyl diglycinate)

KEY INGREDIENTS

Hyaluronic Acid, Vitamin E, UVA and UVB filters

TAPPO BIANCO

ROSAZEL Micellar cleanser

Delicate micellar water designed to complement rosacea treatment, it gently cleanses skin and removes all traces of make-up, impurities and dirt. Its soothing agent preserves the physiological skin barrier, even in sensitive and hyper-reactive skins, preventing dehydration and minimizing further inflammation. Enriched with Azeloglicina, it concurs to provide relief and soothe discomforts, reducing redness and dyschromia.

250ml bottle

Cosmeceutical

CLAIMS

- With **Azeloglicina®** - patented ingredient
- Mild cleansing
- Preserves skin hydrolipidic film
- Reduces skin discomforts
- Soothing & moisturizing
- For sensitive skins

PATENTED INGREDIENTS

Azeloglicina® (potassium azeloyl diglycinate)

KEY INGREDIENTS

Hamamelis water

TRAUMAS & CHRONIC PAIN

Heat and cold sensations (*thermotherapy and cryotherapy*) are renowned **to help relieve aching pains that result from traumas, muscle or joint damage.** The effect of active ingredients able to reduce the symptomatology and foster relief in the area is enhanced by the topical heat or cold sensation that immediately reduce the associated discomforts.

Both treatments can be beneficial in counteracting pain:

- **Cold effect**
when used **immediately** after the injury, it gives **fast relief** and causes vasoconstriction, **preventing** bleeding to spread further and therefore **edema.**

Heat effect

- improves blood circulation (**vasodilatation**) in order to relax tissues and soothe the pain, therefore it is used for **long-lasting and more chronic pains.**

ANTI-CHAFING

Skin chafing is a common yet often overlooked **skin irritation caused by friction from skin rubbing against other skin or clothes, often worsened by sweat and moisture;** this concern affects not only overweight people, but several individuals during sports, prolonged walking, hot weather and everyday activities.

This mechanical-induced skin irritation is characterized by redness, burning sensation and an **altered skin barrier**, which together with sweat and excessive moisture makes it more prone to **microbial contamination and bad odors formation.**

The tissue disruption is worsened continuously as the chafing happens during daily activities, therefore requiring proper care and attention to prevent the condition from getting more serious.

TRAUMAS & CHRONIC PAIN

SOS EMULGEL COOL EFFECT

Clinically tested

75ml tube

Cosmeceutical

Emollient and soothing emulgel with cooling effect indicated to relieve and heal bruises and hematomas due to traumas of various kinds, restoring normal skin conditions. It gives instant relief thanks to its cooling effect and achieves a draining and anti-fatigue effect.

CLAIMS

- Immediate cold effect
- Long-lasting (up to 5 minutes)
- Soothes and fosters the healing of inflammatory process
- Eases the pain
- Reduces edema formation

KEY INGREDIENTS

Escin, Bromelin, Arnica, Acmella Oleracea, Menthol.

PAIN RELIEF WARM EFFECT

Clinically tested

75ml tube

Cosmeceutical

Soothing and calming emulgel with heating effect recommended to provide relief and foster healing in case of excessive strains or traumas like contractures and sprains, or chronic pain of muscular-joint kind. It improves blood flow increasing muscle oxygenation and its long-lasting heat sensation gives relief and reduces the pain.

CLAIMS

- With X-Solve - patented ingredient
- Immediate warm effect
- Long-lasting (up to 5 minutes)
- Soothes and calms inflammation
- Relaxes stiff muscles
- Improves microcirculation

PATENTED INGREDIENTS

X-Solve (Ethyl Ximenynate, Lecithin)

KEY INGREDIENTS

Sensiwarm, X-Solve (Ethyl Ximenynate, Lecithin), Arnica, Devil's claw, Methyl Nicotinate

ANTI-CHAFING

ANTI-CHAFING GEL

30ml tube

Cosmeceutical

Silicone-based W/O formulation that creates a long-lasting water-proof film on skin to effectively protect it from irritation and disruption caused by chafing and rubbing. It is enriched with patented ingredients to prevent the formation of body odours and strengthen skin barrier, preventing its breakage.

CLAIMS

- With Tri-Solve P and Verochic - patented ingredients
- Efficacy confirmed by consumers' test
- Water-resistant protective film
- Anti-odor & anti-microbial
- Preserves skin barrier integrity
- Absorbent action
- 100% effective in preventing irritation from skin to skin, clothing, underwear frictions.
- Pleasant application for 100% of consumers

PATENTED INGREDIENTS

Tri-Solve P (Trehalose, Ceramides, Hydrogenated lecithin), Verochic (shikimic acid)

KEY INGREDIENTS

Silicones mix, Sweet almond oil, rice starch

SCAR TREATMENT

After a surgery intervention or when skin is cut deeply, an **optimal management of the wound** is important to prevent potential complications such as **hypertrophic scars, keloids and infection** fostering the tissue regeneration process for a rapid recovery.

This includes the necessity to **protect the area from sun exposure**, which may increase inflammation and cause reactive hyperpigmentation.

SCAR

SCAR PREVENTION gel

Clinically tested

30 ml / 15 ml tube

Cosmeceutical

Clear silicone gel to foster the regular healing of wounds, with proven efficacy not only in the prevention of hypertrophic scars and keloids but also in reducing the existing ones.

It helps soothes skin, reducing irritation while increasing skin suppleness and elasticity to favor the reepithelization process and make skin barrier more resilient. Water resistance.

CLAIMS

- With **Tri-Solve P** - patented filming technology
- Both prevents and treats
- Favors cicatrization
- Reduces itching, redness and thickness

PATENTED INGREDIENTS

Tri-Solve P (Trehalose, Ceramides, Hydrogenated lecithin)

KEY INGREDIENTS

Silicones mix, Aloe vera, Flavonoid Echinacoside, Elastocell.

SCAR PROTECTION 2in1 SPF 50+, 50+

Clinically tested

40ml tube + stick

Cosmeceutical

Protective and soothing cream to be applied on post-treatment or post-surgery scars, enhanced with **SPF 50+** to avoid reactive hyperpigmentation.

The special packaging with the stick SPF 50+ is ideal for precise application on scars, while the emulsion with SPF50+ for more extended areas.

CLAIMS

- With **Leniphenol** - patented ingredient
- Double protection for scars and highly sensitive skins
- Prevents reactive hyperpigmentation
- Water resistant
- Soothing & regenerating
- Reduces scar redness and visibility

PATENTED INGREDIENTS

Leniphenol (Pinus radiata bark extract)

KEY INGREDIENTS

Panthenol, 18 β glycyrrhetic phytosomal complex, vitamin E, chemical and physical filters (UVA and UVB).

ANTI-AGING

Skin aging is a complex biological process affected by both **intrinsic and extrinsic** factors, characterized by a progressive decline in skin structure and cellular processes that manifest as wrinkles, dehydration, undesired hyperpigmentation, reduced radiance and density. Although this physiological process cannot be stopped, **targeting the mechanisms that accelerate skin aging** is key to preserving skin health and delaying its visible signs.

HYPERPIGMENTATION & RADIANCE

Hyperpigmentation is one of the most common visible signs of skin aging and photoaging. Triggered by UV exposure, oxidative stress, hormonal fluctuations and inflammation, it can lead to **localized dark spots** or a more diffuse dyschromia and uneven complexion.

COLLAGEN BOOSTING IN&OUT

One of the key hallmarks of skin aging, the decline of the **collagen network** is responsible for reduced skin firmness, elasticity and density. Combining an **in&out approach** allows the complementary benefits of a **food supplement**, which supports collagen production from within, and a **topical cream**, which helps preserve and stimulate skin's extracellular matrix.

SKIN LONGEVITY

This concept follows a **preventative** approach that targets the biological processes involved in premature skin aging, particularly: **inflammaging**, which continuously alter cellular functioning causing their senescence, and **autophagy**, fundamental to support cellular homeostasis and preserve skin longevity over time.

HYPERPIGMENTATION

RADIANCE ENHANCING SERUM

Clinically tested

airless bottle 30 ml

Cosmeceutical

Effective anti-aging treatment as all-over serum to enhance brightness. It blends two activities: it counteracts skin discolorations signs caused by age, external aggressions and imperfections, and improves cellular metabolism, hydration, firmness and elasticity.

CLAIMS

- With **Azeloglicina®** - patented ingredient
- Skin enlightener
- Even Complexion
- Skin metabolism enhancer
- **95% of efficacy**
- **Effective in 7 days**
- With sunscreens

PATENTED INGREDIENTS

Azeloglicina® (Potassium Azeloyl Diglycinate)

KEY INGREDIENTS

Ascorbyl acid-2-Glucoside, Pisum Sativum Extract, Bright+. Proline, Alanine, Glycine

K.C.A.

Clinically tested

tube 30 ml

Cosmeceutical

Intensive depigmenting treatment for localized dark spots caused by both environmental and intrinsic aging. Thanks to the combination of Azeloglicina®, Kojic acid and Vitamin C, it prevents and corrects undesired pigmentation.

CLAIMS

- With **Azeloglicina®** - patented ingredient
- Whitening efficacy
- Pigment control
- **Effective already after 2 weeks**
- **Effective in 96% of cases**
- Suitable for daily routine

PATENTED INGREDIENTS

Azeloglicina® (Potassium Azeloyl Diglycinate)

KEY INGREDIENTS

Vitamin C, Kojic acid

COLLAGEN IN&OUT

AGE REVERSE

10x20ml bottles

Food supplement

Food supplement to **enhance skin physiological trophism and elasticity, while also protecting from oxidative stress.**

Based on **Marine hydrolyzed collagen**, Vitamin B2, Niacinamide and Biotin, it is a complete solution to foster healthy and plump skin. Lime flavour.

PLUS

- Enhances skin natural trophism and elasticity
- **With clinically tested collagen**
- Protects from oxidative stress
- Hydrolyzed collagen for a better bioavailability and absorption
- Suitable for low-sugar diets
- With Stevia, a green sweetener

KEY INGREDIENTS

Marine hydrolyzed collagen; Vitamin B2; Niacinamide; Biotin; Stevia glycosides and Carob flour.

with natural ingredients

gluten free

lactose free

FREE FROM
ADDED SUGARSALCOHOL
FREECOLORANT
FREE

COLLAGEN BOOST CREAM

Clinically tested

50 ml jar

Cosmeceutical

Clinically tested collagen booster with a re-densifying and lifting effect. Based on a vegan collagen obtained through bio-fermentation, it boosts new collagen synthesis while preventing its degradation, making it the ideal synergistic complement to the Age-reverse food supplement. It is as well able to redefine facial contours, reshaping the "triangle of youth" that with age tends to capsize.

CLAIMS

- Vegan & clinically proven formula
- **+25% collagen synthesis**
- Redefines the triangle of youth:
 - 23.5% double chin
 - 25% bichat bubble
 - +15% cheekbone

PROPRIETARY INGREDIENTS

Amino Collagen (collagen amino acids)

SKIN LONGEVITY

LONGEVITY BOOSTER

Clinically tested

30ml bottle

Cosmeceutical

Clinically tested day cream designed to counteract the damaging effects of inflammaging, helping preserve skin longevity.

Clinically proven results demonstrate its ability to enhance skin resilience, elasticity, hydration and glow, while deeply soothing and counteracting redness.

CLAIMS

- Targets the root causes of inflammaging
- Skin longevity enhancer
- **Clinically proven results:**
 - +17% hydration
 - 12% redness
 - +21% skin resilience & elasticity
 - +6% healthy glow
- Anti-oxidant
- Counteracts dullness and redness

PROPRIETARY INGREDIENTS

Carobsoothe (Ceratonia siliqua fruit extract)

OVERNIGHT LONGEVITY cream

Clinically tested

50ml jar

Cosmeceutical

Night cream designed to restore skin's optimal physiological conditions during its overnight renewal cycle. **Based on Trealix - proprietary ingredient, it promotes autophagy**, a fundamental process that supports skin health and proper functioning over time. This formula also boosts hydration, with both an immediate and long-lasting clinically proven efficacy.

CLAIMS

- Overnight skin longevity enhancer
- Activates skin's renewal process
- Autophagy boost
- **Clinically proven results:**
 - +65% hydration
 - +22.5% hydration 6 days after the last application
 - 12% TEWL
 - 5% TEWL 6 days after the last application

PROPRIETARY INGREDIENTS

Trealix (trehalose, hydrolyzed vegetable protein)

SUNCARE

UV exposure is one of the main extrinsic factors responsible for **premature skin aging**, contributing to oxidative stress, dehydration, hyperpigmentation and even more serious disorders.

Daily **photoprotection** is therefore essential to help preserve skin health and prevent the appearance of visible signs of photoaging, especially if complemented as well with a dedicated **after-sun care**, which help counterbalance sun-induced damages and promote optimal skin recovery.

This range of sunscreens and after-sun care is based on **Leniphenol**, a **patented** natural extract derived from bark and rich in polyphenols.

Leniphenol acts as a powerful **anti-oxidant, soothing and UV booster agent**, allowing to prevent sun-induced damages, support skin recovery and optimize filters concentration.

All sunscreens are available also with SPF 30

ECOSUN PROTECTION CREAMY&FLUID

40 ml tubes

Cosmeceutical

SPF50+ sunscreens (UVA, UVB and IR).

Enriched with **Leniphenol**, patented natural extract with anti-oxidant, soothing and UV filters boosting properties.

Its patented anti-oxidant and anti-aging ingredients prevent sun damages such as dehydration and premature aging, and its **next-generation filters** are safe for both human health and the environment.

Available in 2 versions:

- creamy texture, recommended for mature and dry skins
- fluid texture, recommended for oily and combination ones.

CLAIMS

- With **Leniphenol** - patented ingredient
- Water resistant
- Next generation filters – safe for humans and environment
- UVA, UVB IR filters
- Anti-age & hydrating

PATENTED INGREDIENTS

Leniphenol (Pinus radiata bark extract)

KEY INGREDIENTS

Next generation UV filters, Trealix (trehalose, hydrolyzed vegetable protein), C-Plus (echinacea extract, sericoside, vitamin C), Glycitterinic acid, Vitamin E

INVISIBLE BODY HYDRO-SPRAY SPF50

100 ml spray bottle

Cosmeceutical

Hydro-alcoholic invisible spray with a fast application and immediate absorption.

Enriched with **Leniphenol**, patented natural extract with anti-oxidant, soothing and UV filters boosting properties.

It effectively shields skin from **UVA and UVB** rays, while its patented ingredient provides a deep soothing and antioxidant activity. The rapid and extensive application efficiently covers the whole body, allowing a great versatility of applications.

CLAIMS

- With **Leniphenol** - patented ingredient
- Invisible emulgel
- Protection from UVB and UVA
- Dries quickly
- Fast application
- Without parfum, preservatives, PEGs, silicones

PATENTED INGREDIENTS

Leniphenol (Pinus radiata bark extract)

KEY INGREDIENTS

UV filters, Trealix (Trehalose, Hydrolyzed vegetable protein), Vitamin E

AFTER SUN LOTION

100 ml tube

Cosmeceutical

Fluid light-weight body emulsion specifically developed to help restore skin comfort after sun exposure. Powered by **Leniphenol**, this after-sun treatment helps repair the visible effects of UV-induced stress thanks to its soothing and anti-oxidant properties. It calms erythema and reduces skin discomfort by inhibiting the release of pro-inflammatory cytokines.

CLAIMS

- With **Leniphenol** and **Natirheo**-patented ingredients
- Repairs UV-induced skin damage
- Soothe sun-stressed skin
- Calms erythema and prevents inflammatory response
- Both reduces oxidative stress and powers skin endogeneous defences

PATENTED INGREDIENTS

Leniphenol (Pinus radiata bark extract), Natirheo (Ceratonia siliqua gum, sclerotium gum)

KEY INGREDIENTS

Red alga gel, Vitamin E

Available also Lip balm with SPF30

HAIR LOSS

Hair loss is diagnosed when there is an **abnormal** condition of **hair replacement**, meaning that there is a visible bigger amount of hair in the telogen (falling) phase compared to those in the anagen (growing) phase.

The most common forms is **androgenetic alopecia**: androgens shorten the anagen phase and promote follicular miniaturization, leading to gradual hair thinning.

Telogen effluvium, instead, is the loss of “handfuls” of hair often following emotional or physical stressors. The loss is sudden and severe but it is generally transitory.

Box with 30 coated tablets

TRICHO-BOOSTER

Food supplement

Food supplement to help **counteract acute shedding and maintain hair health and pigmentation**. Based on Biotin, Zinc, Copper and natural extracts with microcirculation enhancing and anti-oxidant properties, it supplies the essential nutrients to maintain the **physiological health of hair and nails**. It also contributes to maintain hair pigmentation, improving its aspect.

PLUS

- Supports hair & nails health
- Microcirculation enhancer
- Protects and enhances hair natural pigmentation
- Vegan
- Suitable for teenagers too

KEY INGREDIENTS

Biotin; Zinc; Copper; Lignans; Ajuga Reptans dry extract; Bamboo dry extract; Vitis Vinifera dry extract

with natural ingredients

lactose free

HAIR & SCALP

TRICHO-REMEDY

Clinically tested 30 vials of 3.5ml 100 ml

Cosmeceutical

Fortifying lotion to treat and prevent thricological diseases of inflammatory and hormonal origin, characterized by hair loss and thinning.

It increases hair growth rate and density and fosters microcirculation favoring the permeation of active ingredients.

Available in 2 formats:

- **30 single-dose vials** (3.5 ml)
- **Multidose** 100 ml bottle

CLAIMS

- With **Tricho-Solve** - patented anti-hair loss agent
- With **X-Solve** - patented microcirculation enhancer
- **Effective after just 30 days**
- Hair Density and hair growth enhancer
- Hair thinning reduction

PATENTED INGREDIENTS

Tricho-Solve (7-Idrossimatairesinolo), X-Solve (Ethyl Ximenynate, Lecithin)

KEY INGREDIENTS

Trealix (Trehalose, Vegetable proteins), Caffeine, Arginin, Panthenol, Vitamins A, C and E, Biotin.

TRICHO-SHAMPOO

150/200ml tube

Cosmeceutical

Specific shampoo to maximize the effects of anti-hair loss lotions, based on mild surfactants.

Thanks to Shikimic acid, it exfoliates scalp, removing sebum and dirty particles that accumulate and obstruct the bulb, making it harder for the hair to grow healthy. It is also enriched by X-Solve, anti-inflammatory active ingredient fostering microcirculation.

CLAIMS

- With **Verochic** and **X-Solve** - patented ingredient
- Keratolytic action
- Improves microcirculation to hair bulb
- Blocks inflammation process
- Fosters the absorption of after-shampoo treatments
- Mild surfactants respecting hydrolipidic layer

PATENTED INGREDIENTS

Verochic (Shikimic acid), X-Solve (Ethyl Ximenynate, Lecithin),

KEY INGREDIENTS

Mild surfactants, panthenol, ceramides.

SCALP REMEDY

Clinically tested 100 ml bottle

Cosmeceutical

Clinically tested hyper-fluid lotion designed for sensitive scalp to revitalize and soothe, providing immediate relief from discomforts.

It is able to regulate microbiota, reducing excessive pathogenic bacteria that lead to inflammation and linked diseases. It also performs an anti-oxidant activity and an anti-pollution effect, protecting hair&scalp health.

CLAIMS

- **Instant effect already after 1 application**
- Microbiome balance
- Regulates and keeps under control microbiome
- Calming & soothing
- Anti-pollution
- Anti-itching
- Anti-oxidant

PROPRIETARY INGREDIENTS

Up-Citrus Extract.

CANKER SORES

Canker sores, also called aphthous ulcers, are an **inflammatory condition** characterized by small, shallow **lesions** that develop on the soft tissues of the mouth, at the base of the gums, on the tongue, inside cheeks areas and lips.

Although not contagious, they are usually **painful** and can cause **great discomfort**.

Possible **triggers** for canker sores include:

- injuries on the mouth caused by dental work, overzealous brushing, sports mishaps or accidental cheek bites;
- aggressive oral care products;
- food sensitivities and wrong diets;
- emotional stress;
- certain conditions and diseases.

CANKER SORE

AFTABLOCK ORAL GEL

MDR

8 ml tube

MD Class IIa

Adjuvant treatment with targeted action for canker sores and ulcer lesions, with a patented antimicrobial agent. Available in 2 versions:

- **Aftablock oral gel:** polymeric gel with mint flavor.
- **Junior aftablock oral gel:** with strawberry flavor, it is recommended for children, especially in case of orthodontic appliance.

CLAIMS

- With **Verochic** - patented antimicrobial agent
- Intensive treatment
- High-protection/Shield effect
- Rapid healing
- Quickly reduces the pain
- Targeted action

PATENTED INGREDIENTS

Verochic (Shikimic acid)

KEY INGREDIENTS

Xylitol, Hyaluronic acid, Aloe vera gel, Red Alga Gel, Bisabolol, Calendula officinalis extract, Malva sylvestris extract.

AFTABLOCK ORAL SPRAY

MDR

20 ml spray bottle

MD Class IIa

Adjuvant treatment for canker sores and ulcer lesions, with a directional applicator to cover even hard-to-reach areas, such as the back of the mouth. Enriched with a **patented antimicrobial agent**, it protects from external aggressions and further irritation.

CLAIMS

- With **Verochic** - patented antimicrobial agent
- Hard-to-reach lesions
- Extensive protection
- Rapid healing
- Quickly reduces the pain
- High protection/shield effect

PATENTED INGREDIENTS

Verochic (Shikimic acid)

KEY INGREDIENTS

Xylitol, Hyaluronic acid, Aloe vera gel, Red Alga Gel, Bisabolol, Calendula officinalis extract, Malva sylvestris extract.

AFTABLOCK MOUTHWASH

MDR

125 ml bottle

MD Class IIa

Oral solution to be used as adjuvant treatment of multiple, recurrent and hard-to-reach canker sores and other irritations of the buccal mucosa. Enriched with a **patented antimicrobial agent**, it soothes and protects the entire oral cavity.

CLAIMS

- With **Verochic** - patented antimicrobial agent
- Canker sores prevention and treatment
- Protects and hydrates oral mucosa
- Helps counteract alitosis
- Sanitizing activity
- Quickly reduces the pain
- For adults and children

PATENTED INGREDIENTS

Verochic (Shikimic acid)

KEY INGREDIENTS

Xylitol, Hyaluronic acid, Aloe vera gel, Red Alga Gel, Bisabolol, Calendula officinalis extract, Malva sylvestris extract.

GINGIVITIS

Gingivitis, also called periodontal disease, is a **common gum disease** often caused by poor nutrition, smoking and drugs, older age and poor oral care habits that lead to plaque formation and consequently tartar.

Usual symptoms include **irritation, redness, swelling and bleeding of gingiva.**

Although not serious in its own, if not treated gingivitis can lead to a much more serious gum disease called periodontitis and tooth loss.

GINGIVITIS

GENGIBLOCK ORAL GEL

MDR

8 ml tube

MD Class IIa

Polymeric gel effective in the treatment of gingivitis and other irritations of the buccal mucosa. Thanks to its precise applicator, it is recommended as an intense, targeted treatment. Enriched with a **patented antimicrobial agent**, it creates a protective film that isolates from external aggressions and further irritation, relieving pain and fostering healing process.

CLAIMS

- With **Verochic** - patented antimicrobial agent
- Intensive treatment
- High-protection/Shield effect
- Rapid healing
- Quickly reduces the pain
- Targeted action

PATENTED INGREDIENTS

Verochic (Shikimic acid)

KEY INGREDIENTS

Xylitol, Hyaluronic acid, Aloe vera gel, Red Alga Gel, Bisabolol, Calendula officinalis extract, Malva sylvestris extract.

GENGIBLOCK ORAL SPRAY

MDR

20 ml spray bottle

MD Class IIa

Oral spray effective in the treatment of gingivitis and other irritations of the buccal mucosa. Thanks to its directional applicator, it is able to cover even hard-to-reach areas, such as the back of the mouth. Enriched with a **patented antimicrobial agent**, it creates a protective film that isolates from external aggressions and further irritation, relieving pain and fostering healing process.

CLAIMS

- With **Verochic** - patented antimicrobial agent
- Hard-to-reach lesions
- Extensive protection
- Rapid healing
- Quickly reduces the pain
- High protection/shield effect

PATENTED INGREDIENTS

Verochic (Shikimic acid)

KEY INGREDIENTS

Xylitol, Hyaluronic acid, Aloe vera gel, Red Alga Gel, Bisabolol, Calendula officinalis extract, Malva sylvestris extract.

GENGIBLOCK MOUTHWASH

MDR

125 ml bottle

MD Class IIa

Oral solution to be used as adjuvant treatment of gingivitis and other recurrent irritations of the buccal mucosa. Enriched with a **patented antimicrobial agent**, it creates a protective film that isolates from external aggressions and further irritation, relieving pain and fostering healing process.

CLAIMS

- With **Verochic** - patented antimicrobial agent
- Gingivitis prevention and treatment
- Protects and hydrates oral mucosa
- Helps counteract alitosis
- Sanitizing activity
- Quickly reduces the pain
- For adults and children

PATENTED INGREDIENTS

Verochic (Shikimic acid)

KEY INGREDIENTS

Xylitol, Hyaluronic acid, Aloe vera gel, Red Alga Gel, Bisabolol, Calendula officinalis extract, Malva sylvestris extract.

COLD SORES

Cold sores (or fever blisters) are **painful ulcerative lesions** on the oral or perioral mucosa caused by the **Herpes Simplex virus type 1 (HSV-1)**.

After the first infection, the virus does not disappear, but remain latent and can reactivate periodically with **recurrent outbreaks** triggered by stress, fever, sun exposure or immuno suppression.

While antiviral medications can reduce the duration of outbreaks, supportive topical gels with **hydrating and barrier-effect** properties represent a valid ally in the management of the manifestations, as they help protect the lesion from external agents, reduce discomfort and pain, as well as promote the natural healing of the mucosa.

COLD SORE

HERPES RELIEF ORAL GEL

MDR

8 ml tube

MD Class IIa

Muco-adhesive gel indicated for the symptomatic treatment of manifestations associated with cold sores/fever blisters.

Based on **Hyaluronic acid**, it takes advantage of the barrier effect to isolate the injured part from mechanical and chemical stress, reducing the pain, ensuring protection and encouraging natural healing.

The presence of a **patented ingredient with a selective antimicrobial activity** helps keep the microenvironment of the lesion under control while respecting the oral microbiota.

CLAIMS

- With **Verochic** - patented antimicrobial agent
- Barrier effect
- High protection / shield effect
- Rapid healing
- Quickly reduces the pain
- Filming effect protecting from irritation
- Targeted action
- Intensive treatment

PATENTED INGREDIENTS

Verochic (Shikimic acid)

KEY INGREDIENTS

Hyaluronic acid, Red alga gel, aloe vera.

BABY CARE

INFANT ECZEMA

Infant eczema usually appears as **patches of flaky**, red skin in very visible places, including cheeks, behind the ears and on the scalp. It can involve two conditions that usually appear between 2 to 4 months of age:

- **Atopic dermatitis:** chronic inflammatory condition involving serious dryness, redness and hyper-reaction.
- **Contact dermatitis:** a rash that outbreaks when skin comes into contact with an irritating substance, such as diaper or moisture.

BABY CARE

BABY SKIN RELIEF

MDR

Clinically tested

50 ml tube

MD Class IIa

Hypoallergenic treatment for infant eczema, atopic dermatitis in children.

Based on Hyaluronic acid and a patented compound of Ceramides and Trehalose, it plays a moisturizing and protective action aimed to restore the physiological hydrolipidic film and prevent skin barrier disorders.

CLAIMS

- With **Trisolve P** and **Leniphenol** - patented ingredients
- Skin barrier enhancer
- **Pediatric approval for newborns**
- Soothing action
- Prevents flare-ups
- Suitable for sensitive skin
- Metal tested
- 97% natural ingredients

PATENTED INGREDIENTS

Tri-Solve P (Trehalose, Ceramide, Hydrogenated Lecithin), Leniphenol (Pinus Radiata Bark Extract)

KEY INGREDIENTS

Hyaluronic acid, Vitamin E, Shea Butter, Jojoba oil, Bisabolol, Sweet almond oil, Avenolat.

BABY NAPPY

75 ml tube

Cosmeceutical

W/O emulsion ideal in case of diaper rashes,

it gives fast relief to the affected area. It provides comfort and soothing action to irritated skin, while moisturizing and restoring the hydrolipidic film, protecting from external aggressions. Zinc oxide, in a non-nano form, repels water from skin and creates a safe barrier for healing.

CLAIMS

- Diaper rash relief
- Soothes and calms irritation
- Restoration of the skin barrier
- Free from preservatives, silicones, PEG, nanoparticles
- 94% natural ingredients

KEY INGREDIENTS

Bisabolol, Panthenol, Sweet almond oil, squalane, Zinc Oxide, Hydrogenated Vegetable Oil, Olea europea fruit oil, Tocopherol

BABY SKIN MILD CLEANSING GEL

Clinically tested

250 ml tube

Cosmeceutical

Hypoallergenic cleanser for children, including newborns, with hyper-reactive, atopic-prone, dry and sensitive skin. Its eudermic formulation cleanses without compromising the cutaneous homeostasis, providing a soothing and relipidising activity to improve atopic skin conditions in just 7 days. It is enriched with a patented compound that effectively protects and strengthens the skin barrier.

CLAIMS

- With **Trisolve P** - patented filming technology
- Skin barrier enhancer
- Hypoallergenic formulation
- **Valued as suitable also for newborns under pediatric control**
- Soothing and relipidizing sensation
- **Improve atopic skin condition in just 7 days**

PATENTED INGREDIENTS

Tri-Solve P (Trehalose, Ceramide, Hydrogenated Lecithin)

KEY INGREDIENTS

Vitamin E, mild surfactants, Alpha-Bisabolol

BABY CARE

CRADLE CAP

Common not serious condition so called as it affects newborns' head.

Cradle cap is characterized by **crusty or oily thick scaly patches** that although not painful or itchy, are often **difficult to remove**, requiring sebum normalizing, emollient and keratolytic treatment.

TEETHING

It's a **natural event** occurring during the first months of a baby's life, beginning usually at around the 4th to 7th month; although not dangerous, it can **cause discomfort and pain** until the teeth are fully grown out of the gum. The symptoms aren't the same for every baby, but they may include **swollen, red and sensitive gums**, the **urge to chew** on hard things, **excess saliva** and even **low-level fever**.

BABY CARE

BABY SEB RELIEF

Clinically tested

50 ml tube

MD Class IIa

**Intensive treatment of desquamating skin conditions, including cradle cap.**

It plays a soothing action against redness and erythema, removes scales and acts as an astringent agent adjuvant to repair skin barrier integrity.

CLAIMS

- With **Leniphenol** - patented ingredient
- Scales reduction and prevention
- Astringent
- Advanced exfoliating system
- Skin barrier restoration
- Reduces erythema and redness
- 92.0% natural ingredients

PATENTED INGREDIENTS

Leniphenol (Pinus Radiata Bark Extract)

KEY INGREDIENTS

Tiolisina® (Sulphurated amino acids), Papain, Lactic acid, Bisabolol, Ginger root extract, Allantoin, Avocado oil, Piroctone Olamina.

BABY SEB RELIEF WASH

150 ml tube

Cosmeceutical

**Adjuvant treatment for the daily hygiene in case of desquamating skin conditions, including cradle cap.**

Its mild cleansing system gently remove impurities and excess sebum without compromising the skin barrier, while its exfoliating agent helps remove scales.

CLAIMS

- With **Verochic** - patented ingredient
- Sebum control
- Gentle exfoliating system
- Anti-microbial
- Mild cleansing
- Keratosis-regulator

PATENTED INGREDIENTS

Verochic (Shikimic acid)

KEY INGREDIENTS

Tiolisina® (Sulphurated amino acids), Allantoin, Mild surfactants.

BABY GUM RELIEF

15 ml tube

Cosmeceutical

**Bio-adhesive teething gel based on Hyaluronic Acid. It forms an invisible film that protects gums from the discomfort and pain caused by childhood teething.**

It calms pain sensation and redness, while providing a cooling effect and a sanitizing action.

The applicator with silicone bristles offers a gently massage on the gums.

CLAIMS

- Teething relief
- Reduces swollen gums, numb tooth pain.
- Free from sugar, parabens, alcohol
- It doesn't burn nor irritate
- 95% natural ingredients

KEY INGREDIENTS

Panthenol, Xilitol, Sodium Hyaluronate, Chamomilla extract, Dolcévia® (Stevioside), Acmeila Oleracea extract

FISSURES

A skin fissure is a **cutaneous condition** in which there is a linear-like cleavage of skin, sometimes defined as extending into the dermis. It is more common on **hands**, as they **are more exposed to triggering phenomena**, such as wheater conditions (especially cold and wind), frequent washes and small trauma.

In addition, also the **aging process** can increase the frequency and lasting of fissures, as it makes skin weaker, thinner and dryer, therefore more **prone to break**.

FISSURES

FAST-MED

MDR

Clinically tested

7 ml glass bottle

MD Class IIa

Liquid plaster effective in the treatment of fissures, cracks and chaps of hands and feet; enriched with a patented filming technology to keep under control the microenvironment of the wound, isolating it from mechanical and chemical stress.

CLAIMS

- With **Trisolve P** - patented filming technology
- Reduces crack's, number, depth and width
- Promotes healing process
- Invisible, easy to apply, fast drying
- Protection from external aggressions
- Water resistant
- Rapid pain relief
- Prevents wound reopening

PATENTED INGREDIENTS

Tri-Solve P (Trehalose, Ceramide, Hydrogenated Lecithin)

KEY INGREDIENTS

Acrylic polymers, Tamanu oil, Nitrocellulose.

FILMED

MDR

Clinically tested

7 ml glass bottle

MD Class IIa

Liquid plaster effective in the treatment of fissures, cracks and chaps. It creates an adhesive, thin and transparent film to protect and isolate the wounds from chemical and mechanical stress.

CLAIMS

- Reduces crack's, number, depth and width
- Promotes healing process
- Invisible, easy to apply, fast drying
- Protection from external aggressions
- Rapidly eases the pain
- Rapid pain relief
- Prevents wound reopening
- Water resistant

KEY INGREDIENTS

Acrylic polymers, Olive oil, Nitrocellulose.

SKIN BARRIER

50 ml tube

Cosmeceutical

Moisturizing emulsion for dry and chapped skin, enriched with a synergistic pool of ingredients with skin-barrier function. It restores the hydrolipidic film and reduces TEWL, increasing skin moisturization. Rich in dermo-vegetal plant oils, it ensures nourishing properties and high-long lasting hydration.

CLAIMS

- With **Trisolve P** - patented filming technology
- Fosters a correct re-epithelization
- Mix of nourishing oils and butters
- Prevents & counteracts dryness, irritation and chaps

PATENTED INGREDIENTS

Tri-Solve P (Trehalose, Ceramide, Hydrogenated Lecithin)

KEY INGREDIENTS

Chitoprepare GPC (Carboxymethyl chitosan, Glycerophosphocholine) Panthenol, Tamanu oil, Almond oil, Shea butter, Bisabolol, Vitamin E

MYCOSIS

TINEA PEDIS (Athlete's foot)

Athlete's foot or Tinea pedis is a **fungal infection** caused by fungi of the genus Trichophyton. It most often manifests between the toes, especially within the space between the fourth and fifth digits. Athlete's foot **causes flaking and itching** of the affected area, with possible **blisters and cracks** leading to **exposed raw tissue, pain, swelling and inflammation**. Secondary bacterial infection can accompany the fungal infection, sometimes requiring a course of oral antibiotics.

NAIL ALTERATIONS (Onychomycosis - Onychodystrophy)

Onychomycosis, also known as tinea unguium, is a **fungal infection** of the nail, affecting both hands and feet; its manifestation usually involves an **anti-esthetic change in the shape and the color** of the **nail (onychodystrophy)**, sometimes even leading to its separation from the nail plate. When the fungus spreads deeper, it can also **cause spots formation, thickening and brittle nails**, which tend to crumble on the sides. It can turn into a relevant problem in terms of pain, the impact on both the social and the working life and the possible recidivism on patients.

MYCOSIS

MYCOFREE

MDR

Clinically tested

30ml/100 ml tube

MD Class IIa

A complete treatment for Athlete's foot disorder, it creates a mechanical barrier to avoid cross contamination, dermatophytes adhesion and proliferation. It is able to both counteracts and prevents fungal infection, as well as avoid recurrences.

CLAIMS

- With **Verochic** - patented anti-odor agent
- Athlete's foot preventing treatment and follow-up
- **Avoid recurrence in 100% cases**
- Filming action
- Fast drying

PATENTED INGREDIENTS

Verochic (Shikimic acid)

KEY INGREDIENTS

VP/VA copolymer, Aloe Vera, Calendula, Piroctone Olamina, S. Officinalis oil.

NAIL RESCUER

MDR

7 ml glass bottle with applicator

MD Class IIa

Nail Lacquer for hands and feet aimed at treating and preventing the growth of fungi responsible for onychomycosis.

It protects from aggression by external agents and promotes the nail restructuring process. Enriched with HA Crossfilm for a long-lasting filming action.

CLAIMS

- With **HA Crossfilm** filming technology
- Efficacy confirmed by PMS data
- Prevents nail fungal diffusion
- Contributes to restore the aspect of deteriorated nails
- Prevention and treatment of onychomycosis

KEY INGREDIENTS

HA Crossfilm, Piroctone Olamina.

NAIL PERFECTING LACQUER

7 ml glass bottle with applicator

Cosmeceutical

Multifunctional nail lacquer with a restructuring and corrective effect on onychodystrophy.

It corrects dyschromia and nails imperfections by improving nail structure, color, surface and thickness.

CLAIMS

- With **Verochic** - antimicrobial patented ingredient
- Strengthening and restructuring action
- Nail lightening
- Keratolytic action

PATENTED INGREDIENTS

Verochic (Shikimic acid)

KEY INGREDIENTS

HA Crossfilm, Horsetail, Vitamin C

NAIL RESCUER SYSTEM
Treat & Conceal

MDR

5 ml glass bottle
7 ml glass bottle

MD Class IIa - Cosmeceutical

Synergistic treatment aimed at counteracting onychomycosis while improving nail aesthetics. It is composed of:

- Nail Rescuer
- Color Correct: colored nail lacquer masking nails blemishes and dyschromia.

CLAIMS

- Multifunctional
- Treat & Conceal
- Instant optical effect
- Breathable technology

KEY INGREDIENTS

Nail Rescuer: see above.
Color Correct: see the leaflet

WOMEN'S HEALTH

VULVOVAGINAL DRYNESS

Vulvo-vaginal dryness is the **lack or reduction in the physiological moisture** on the intimate mucosa, whose function is to lubricate and maintain it healthy, elastic and firm. It can **cause discomfort** in the vulvo-vaginal area, **dyspareunia** (pain during sexual intercourse), **itching** and **irritation**.

VAGINAL PH ALTERATIONS AND UTI

Vaginal microbiota, consisting in millions of balanced microorganisms, is essential of **vaginal health and protection**. If its balance and **pH is altered**, however, this function lacks, leading to increased risk of infections such as **vaginosis**, and related symptoms (**unpleasant odor, leakage, itching**).

They are also often **associated with urinary tract infections**, due to the proximity of channels. Therefore, it is usually **recommended to associate** not-aggressive solutions for vaginosis with products to prevent UTI.

MENOPAUSE

Hot flashes, weight changes, sleep difficulties, vaginal dryness and joint pain are among the discomforts caused by menopause and its fluctuating hormones levels. Food supplements and topical products are the **best healthy** solutions to ease these discomforts, without resorting to heavier drugs, with more side effects.

VULVOVAGINAL DRYNESS

GINHYAL deli

MDR

Clinically tested

5 ml single-dose/40 ml tube

MD Class IIb

Non-hormonal gel based on a patented moisturizing and restructuring compound; its delicate formulation counteracts vulvo-vaginal dryness and its linked discomfort. It acts as an intimate lubricant and restores intimate mucosa, promoting its natural firmness and elasticity. Available in 2 formats:

- Multi-dose 40 ml tube with canula
- Pack of 8 single-dose units (5 ml)

CLAIMS

- With **Trisolve P** - patented filming technology
- 100% non-hormonal
- Increase tissue elasticity slowing down the ageing process
- Reduces vaginal dryness
- Intimate moisturizer and lubricant
- Reduces pain and dyspareunia
- Condom compatible

PATENTED INGREDIENTS

Tri-Solve P (Trehalose, Ceramide, Hydrogenated Lecithin)

KEY INGREDIENTS

Hyaluronic acid, Phospholipids, Vitamin E, Malva extract, Chamomile extract.

GINHYAL-DELI INTIMATE CLEANSING GEL&MOUSSE

200ml bottle
100 ml foaming bottle

Cosmeceutical

Delicate cleansing gel&mousse for intimate area. Specially formulated in case of vaginal dryness and irritation. Formulated with mild surfactants able to perform a gentle cleansing action respecting the hydrolipidic film of the area, they are as well enriched with soothing and hydrating ingredients to counteract dryness and inflammation. Lactic acid allows to lower pH to a physiological level.

CLAIMS

- With **Trisolve P** - patented filming technology
- Delicate cleansing
- Soothing ingredients
- Safe formulation: SLES, SLS, parabens and PEG free
- Respects and enhances physiological pH

PATENTED INGREDIENTS

Tri-Solve P (Trehalose, Ceramide, Hydrogenated Lecithin)

KEY INGREDIENTS

Lactic acid, Hyaluronic acid, Chamomile distilled water, Malva extract, mild surfactants.

INTIMATE COLLAGEN BOOSTER

Box with 20 stickpacks
or sachets

Food supplement

Food supplement based on **marine hydrolyzed collagen, hyaluronic acid, vitamin C, Matricaria chamomilla and Malva sylvestris** dry extracts. Thanks to its restructuring, elasticizing and hydrating ingredients, it is able to enhance the **trophism of uro-genitals tissues** as well.

CLAIMS

- Enhances tissues natural trophism and hydration
- Protects from oxidative stress
- Hydrolyzed collagen for a better bioavailability and absorption
- Suitable for low-sugar diets
- With stevia, a green sweetener

KEY INGREDIENTS

Marine hydrolyzed collagen, sodium hyaluronate, Matricaria chamomilla dry extract, Malva sylvestris dry extract, vitamin C.

INTIMATE ITCHING

ANTI-ITCHING intimate gel

Clinically tested

30 ml tube

Cosmeceutical

Non-hormonal gel based on Hyaluronic acid to confer immediate relief from intimate discomforts, such as irritation, itch, redness and burning.

Its active ingredients with a strong soothing and hydrating activity help calm the vaginal epithelium and restore the optimal physiological condition.

CLAIMS

- Reduces itch and irritation
- Safe formulation: without preservatives, petrolatum, SLES, SLS, silicones, perfume
- **Clinically and gynecologically tested**
- Metal tested
- 96.0% natural ingredients

KEY INGREDIENTS

Hyaluronic acid, Trealix (Trehalose, Vegetable proteins), Vitamin E, phospholipids, Carobsoothe (Ceratonia Siliqua fruit extract), Aloe vera, Malva and Camomila extracts

MENOPAUSE

MENOPAUSE RELIEF

Box with 30 tablets

Food supplement

Food supplement based on **Maca, Salvia officinalis L. and Angelica sinensis dry extracts, vitamins D, B6 and B12, zinc and folate** to **give relief to the main symptoms of menopause**, contributing to reduce tiredness and the slowdown of metabolism, helping restore the ideal weight and overall well-being. It also helps reduce sudden temperature changes and sweating caused by hot flashes, both day and night.

CLAIMS

- Gives relief to menopause' symptoms
- Counteracts the slowdown of metabolism
- Enhances well-being
- Regulates sweating

KEY INGREDIENTS

Lepidium meyenii (maca) dry extract, Salvia officinalis L. dry extract, Angelica sinensis dry extract, vitamin D, vitamin B6, vitamin B12, zinc, folate

URINARY TRACT

UTI-SOLVE

150 ml bottle with measuring cap

Food supplement

Food supplement to enhance the **correct functioning and well-being of the urinary tract.**

Based on **D-mannose and cranberry, uva ursi and ononis extracts**, it prevents bacteria proliferation on the mucosa and fosters their elimination by increasing urine flow, as well as performs an emollient and soothing action to ease the discomforts associated to the infection. Red fruits and lime flavour.

PLUS

- Supports a healthy functioning of urinary tracts
- Inhibits bacteria adhesion and proliferation
- Promotes draining of liquids
- With fiber for a prebiotic action
- Against relapses

KEY INGREDIENTS

D-mannose; Cranberry dry extract (titrated in PACs); Ononis dry extract; Uva Ursi dry extract; fructooligosaccharides.

GYNO-balance

MDR

Clinically tested

5 ml single-dose/
40 ml tube

MD Class IIb

Non-hormonal gel especially formulated to regulate vaginal pH and restore vaginal flora balance. It prevents relapses of bacterial vaginosis and mycosis. Available in 2 formats:

- Multi-dose 40 ml tube with canula
- Pack of 7 single-dose units (5 ml)

CLAIMS

- Indicated in treatment of bacterial vaginosis
- Against irritations, itching, unpleasant smells
- Enriched with prebiotic
- Contributes to restore vaginal pH and flora balance
- Adjuvant for vaginitis and vaginal mycosis following antibiotics treatment.
- It prevents relapses
- 100% non-hormonal
- Condom compatible

KEY INGREDIENTS

Lactic Acid, Sodium Lactate, Fructo-Oligosaccharides, Acid p-anisic, Levulinic Acid, Sodium Levulinate.

SYNPROGIN®

Clinically tested

30 ml tube

Cosmeceutical

Probiotic lipogel with an innovative blend of **4 lactic ferments** specifically developed to support the **well-being and daily protection** of the female intimate area. Its topical application supports the **balance of the intimate microbiota** and ease disorders caused by microbiome alterations.

CLAIMS

- **Patented formulation**
- With probiotics
- 4 strains specifically selected
- Clinically tested
- Supports the intimate microbiome balance
- Eases dysbiosis & and associated intimate discomforts

KEY INGREDIENTS

Lactobacilli strains, Ceramide NG, Butyrospermum parkii oil, Hydrogenated vegetable oil

GYNO-balance Intimate wash

200 ml bottle

Cosmeceutical

Daily intimate wash based on Verochic and Lactic acid, able to restore intimate pH without compromising vaginal microbiota. It is indicated as an adjuvant treatment for vaginal infections and bacterial vaginosis, and in special physiological conditions where there's a higher risk of infections for an immediate relief from itching and bad odors. pH 4 - 4.5.

CLAIMS

- With **Verochic** - patented ingredient
- Respects and maintains physiological pH
- Antimicrobial and anti-odor action
- Respects lactobacillus vitality and protects vaginal bacterial flora
- Refreshes and soothes irritation linked to vulvar itching.

PATENTED INGREDIENTS

Verochic (Shikimic acid)

KEY INGREDIENTS

Lactic acid, Aloe Vera, mild surfactants, peony perfume

GYNO-balance Intimate mist

150 ml spray

Cosmeceutical

Extremely light and delicate mist to be applied whenever the intimate area needs a refreshing, anti-odor and soothing effect. Enriched with Verochic, patented anti-odor ingredient with a selected anti-microbial action on intimate microbiota.

CLAIMS

- With **Verochic** - patented ingredient
- Selective antimicrobial action
- Respects and protects vaginal bacterial flora
- Refreshing, soothing and anti-odor action

PATENTED INGREDIENTS

Verochic (Shikimic acid)

KEY INGREDIENTS

Peony extract, Propolis extract, Salvia extract, Aloe vera gel.

INTIMATE WELLNESS

Vaginal rejuvenation is one of the hottest new cosmetic trends and has brought the female world closer to the awareness that the **health of the intimate area** should be considered an integral part of the beauty routine of every woman.

As face, hair and body are constantly subjected to hectic life, external agents and daily stress, even the vulvovaginal area suffers the consequences and the process of **physiological aging**, modifying its tissue structures and leading to:

- dryness and irregular vulvovaginal tissue desquamation;
- loss of strength, elasticity, extensibility and density

In addition, the **vulvovaginal area** is subject to **further stressing events** that occur in the woman's life, such as:

- oral contraceptive systems, most often leading to **vaginal dryness**.
- pregnancy and childbirth, also correlated to considerable mechanical efforts of the intimate area,
- menopause, event that brings with it dryness, frequent irritations, itching, loss of tone and dull complexion.

my.V

A complete line for a daily beauty routine, based on active ingredients able to stimulate the key constituents of healthy vulvovaginal tissue, to face the different stages of life and respond to different needs.
