

# ALUPACK BOX WITH SECURE LID

## ALUMINIUM CONTAINERS FOR STORAGE OF RAW MATERIALS AND COMPOUNDS

Made of seamless monobloc aluminium, **Alupack BOX** ensures reliable protection of its contents, both for transport and for storage.

It can serve as **primary or secondary packaging**, with a wide opening that makes filling and emptying simple, clean, and efficient.

**100% aluminium and fully recyclable**, Alupack BOX combines practicality with sustainability, offering a professional solution for different industries.

Capacity per box (cc)	Ø Body (mm)	Height with cover lid (mm)	Weight with cover lid (g)
125	59	50	25
315	74	83	42
625	88	114	65
1250	99	172	130
2500	120	232	200
6250	175	274	350
12500	220	352	780

### VERSATILE

Suitable for solids, powders, concretes, waxes, resinoids, and fine chemicals.

### PRACTICAL

Wide opening for easy filling and pouring. Smooth internal surface.

### SUSTAINABLE

100% aluminium, infinitely recyclable, long-lasting value.

### PROFESSIONAL

Clean aluminium finish for a neat and reliable presentation.
