At a Glance of Alyors Business

R&D

Our state-of-the-art Research & Development Center, with highly qualified experts, produces innovative & highest quality formulations, certified by the Ministry of Industry and Technology.

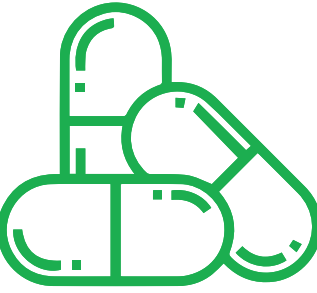

Raw Material Production

Processing the resources offered to us by nature and with the modern science, we work to provide quality raw materials to the food supplement, cosmetics and healthcare industry.

Product Development

We are pioneers in cutting-edge formulations, ensuring each product is optimized for maximum efficacy and benefit, while also adapting all our products to comply with local regulations and legislation.

Production

Our production capabilities include four manufacturing plants, food supplements, cosmetics, medical devices and consumables. Nuvita is the largest OTC manufacturing plant in Türkiye.

Private Label Solutions

From the initial concept to final production, Alyors offers comprehensive support in private label production, ensuring your product is produced with the highest standards.

Quality Control & Assurance

Our commitment to quality is evident in our rigorous control and assurance processes across our four manufacturing plants, ensuring precision and excellence in every production phase.

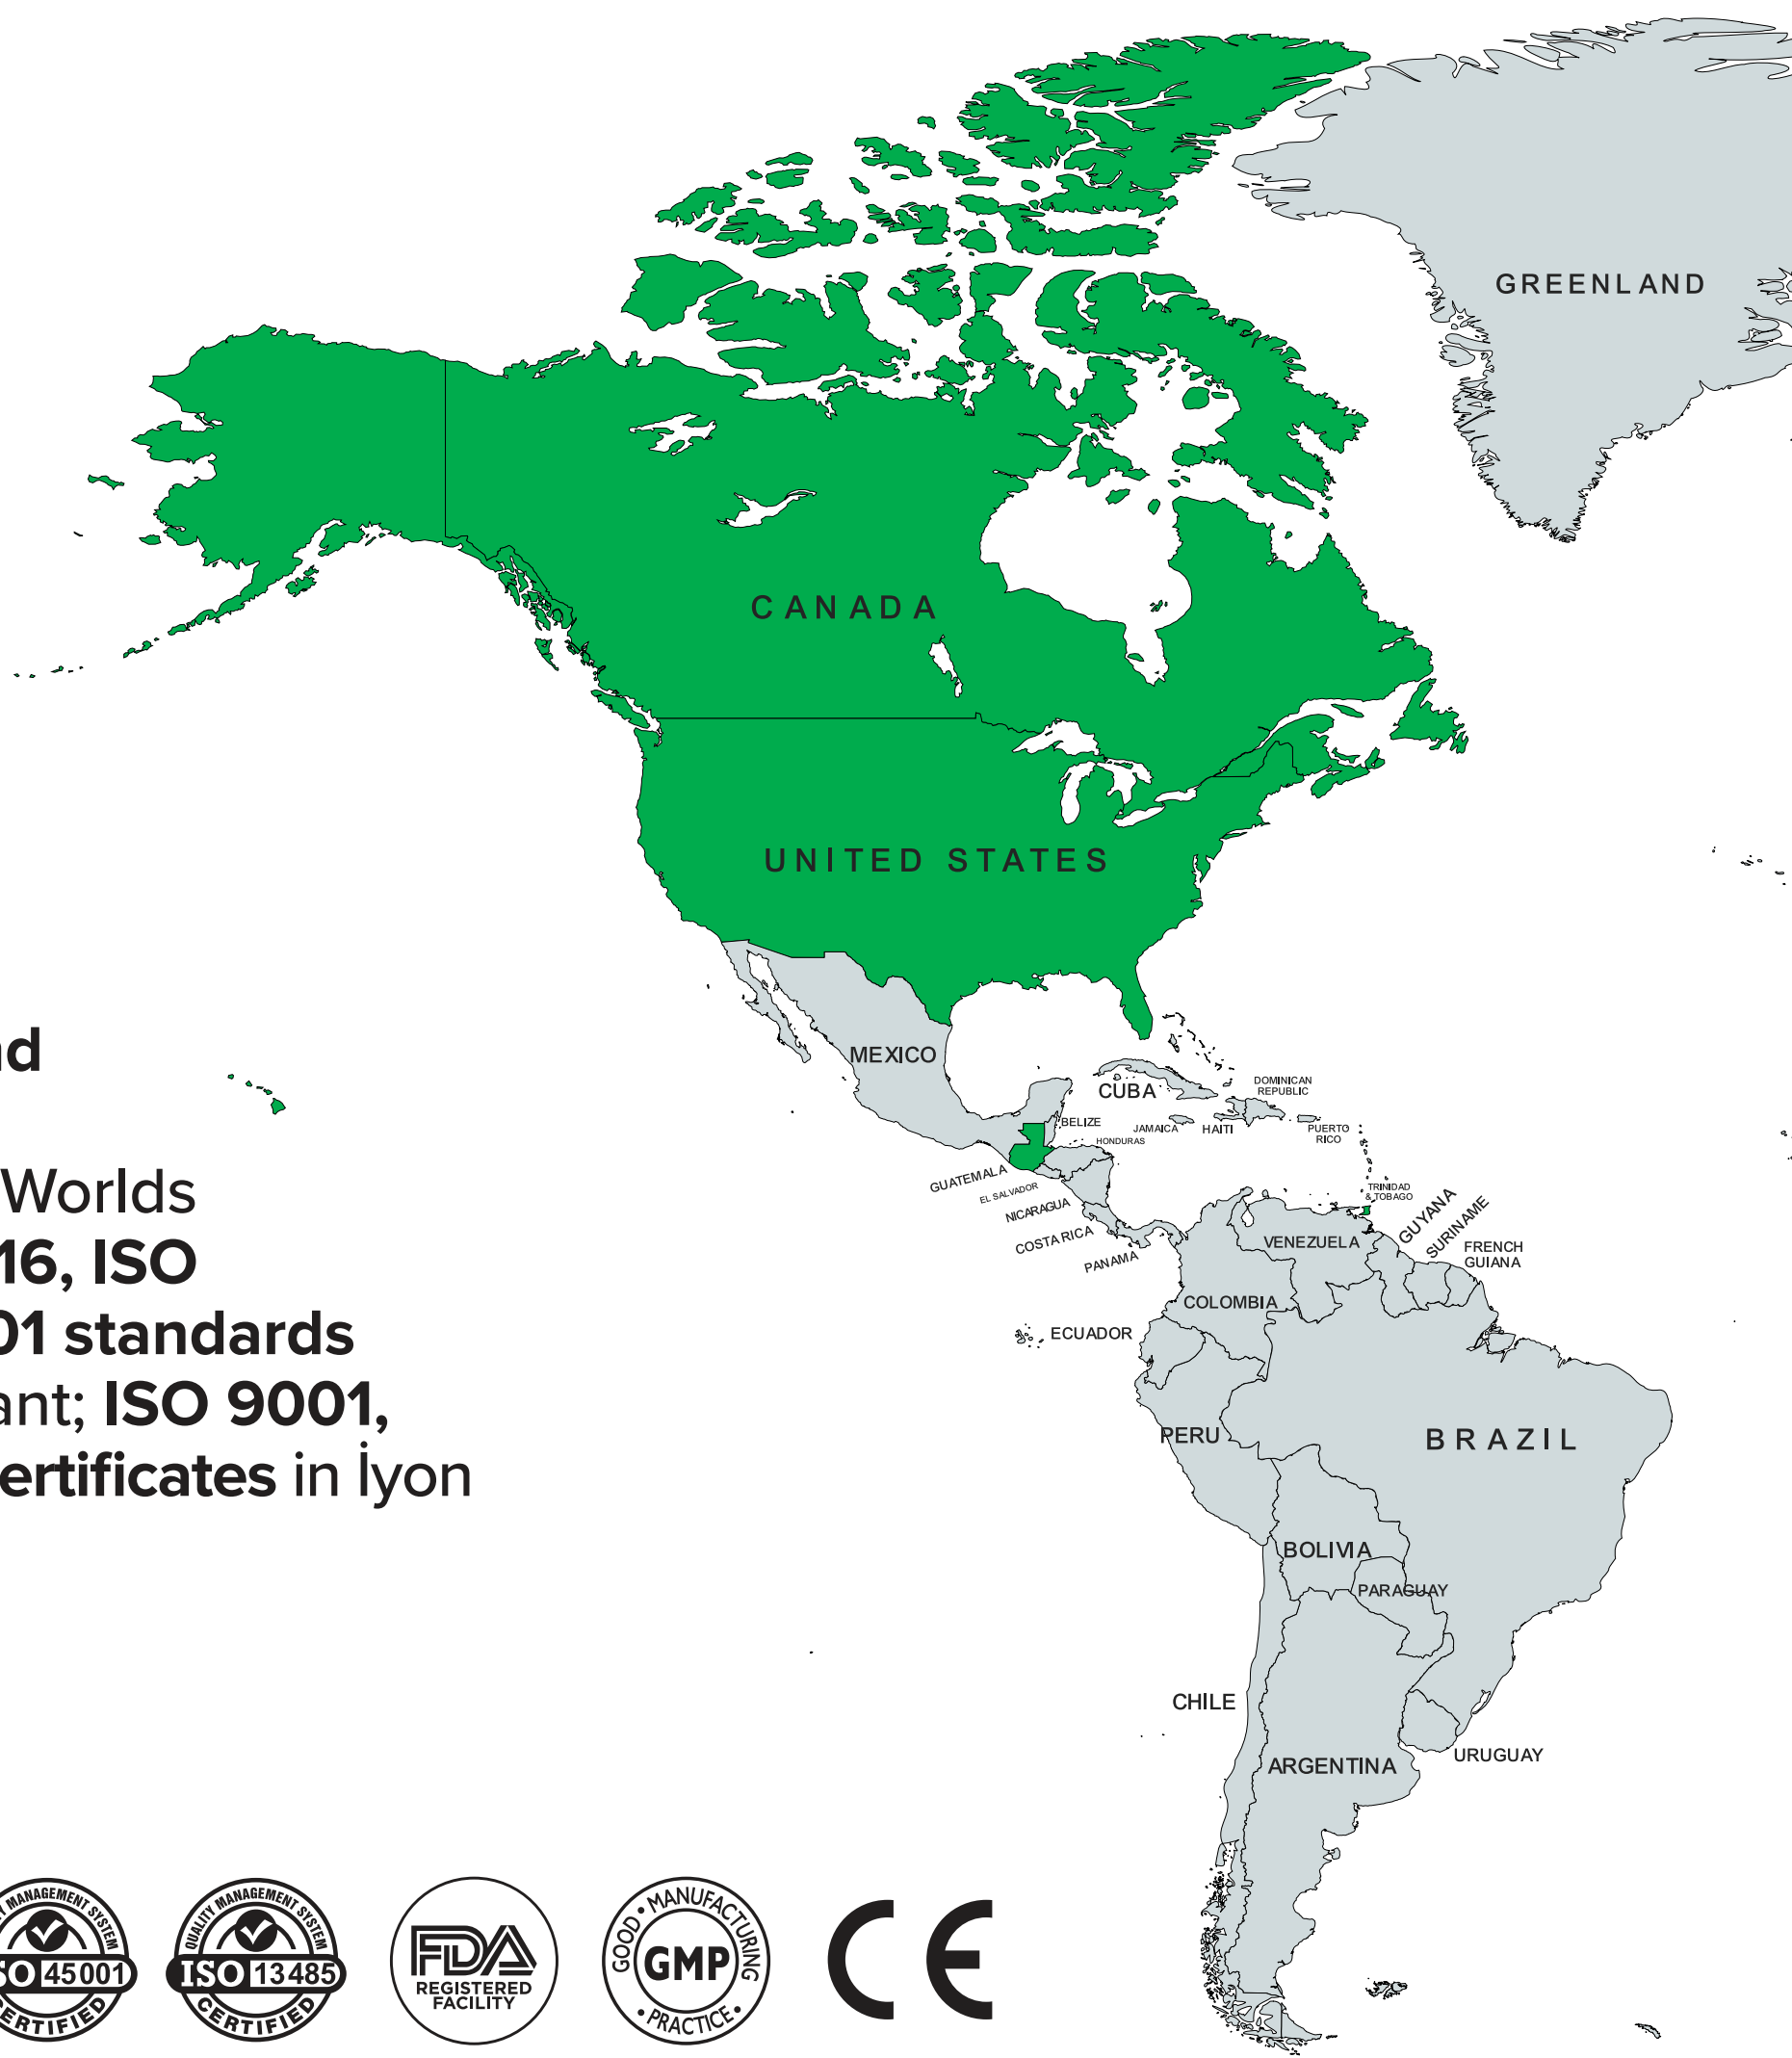

Marketing

Our marketing team, composed of skilled experts and healthcare professionals, is ready to support you with trainings and marketing material & projects based on global & local strategies.

Quality

Alyors' principle is "excellence in customer satisfaction" with the highest quality, most innovative products by fulfilling all the requirements of **ISO 9001 Quality Management System, ISO 22000 Food Safety Management System, GMP and Halal standards** in our **FDA registered Nuvita and Gummy Worlds Manufacturing Plants; ISO 22716, ISO 9001, ISO 14001 and ISO 45001 standards** in The Mossi Manufacturing Plant; **ISO 9001, ISO 22716, ISO 13485 and CE certificates** in Lyon Manufacturing Plant.
