

# STANDARD OFFERING PRODUCT CATALOG

## Partner for Success

Private label probiotics give you the ability to offer UAS Labs' science-based probiotics under your own brand name. From the extensive strain selection process to the clinical study validation and in-house quality testing, your product is manufactured as if it were our own. Partner with UAS and you can rest assured that your probiotic offering has been manufactured to the highest standard, from strain to solution.

## Experience & Expertise

Our dedication to excellence has brought together a team of professional experts with over 100 years of combined probiotic experience. For over 40 years this team has driven the industry forward with innovative product development and a continual investment in gold-standard clinical trials.

## Strain to Solution™

As one of the only vertically integrated probiotic manufacturers in the world, the team at UAS Labs is proud to manage the entire production process to deliver high-quality probiotic solutions. From strain to solution, every step is meticulously controlled within two facilities dedicated solely to probiotics. This solitary focus allows the team to create the optimal environment, and processes, for probiotic viability.

## Standard Offerings

UAS Labs has developed a suite of standard products clinically shown to meet the demand of modern consumers. From Children's to Adult 50+, every product has been formulated to the highest standard. Plus, UAS Labs offers a wide variety of dosage and packaging options to create the perfect combination.

## Private Label

Choosing UAS Labs' private label probiotics gives you the ability to offer tested probiotics under your own brand name. We do the research, testing, production, and bottling – add your product label, and you are just one step away from the shelf.
