

# Packaging Made Simpler for Life Sciences

Automate. Accelerate. Assure Compliance.

Regulations are strict. Timelines are tight. Errors are costly. Pharma packaging is complex. That's where AOTM PACKX comes in.

AOTM PACKX takes the stress out of artwork creation, review, and approval. It helps teams move faster, reduce risk, and stay fully compliant, every time. It's more than automation—it's an AI-powered packaging partner.

With AOTM PACKX, global launches become smoother, regulatory hurdles easier to navigate, and collaboration across functions seamless. It's packaging artwork, reimagined for the future of life sciences.

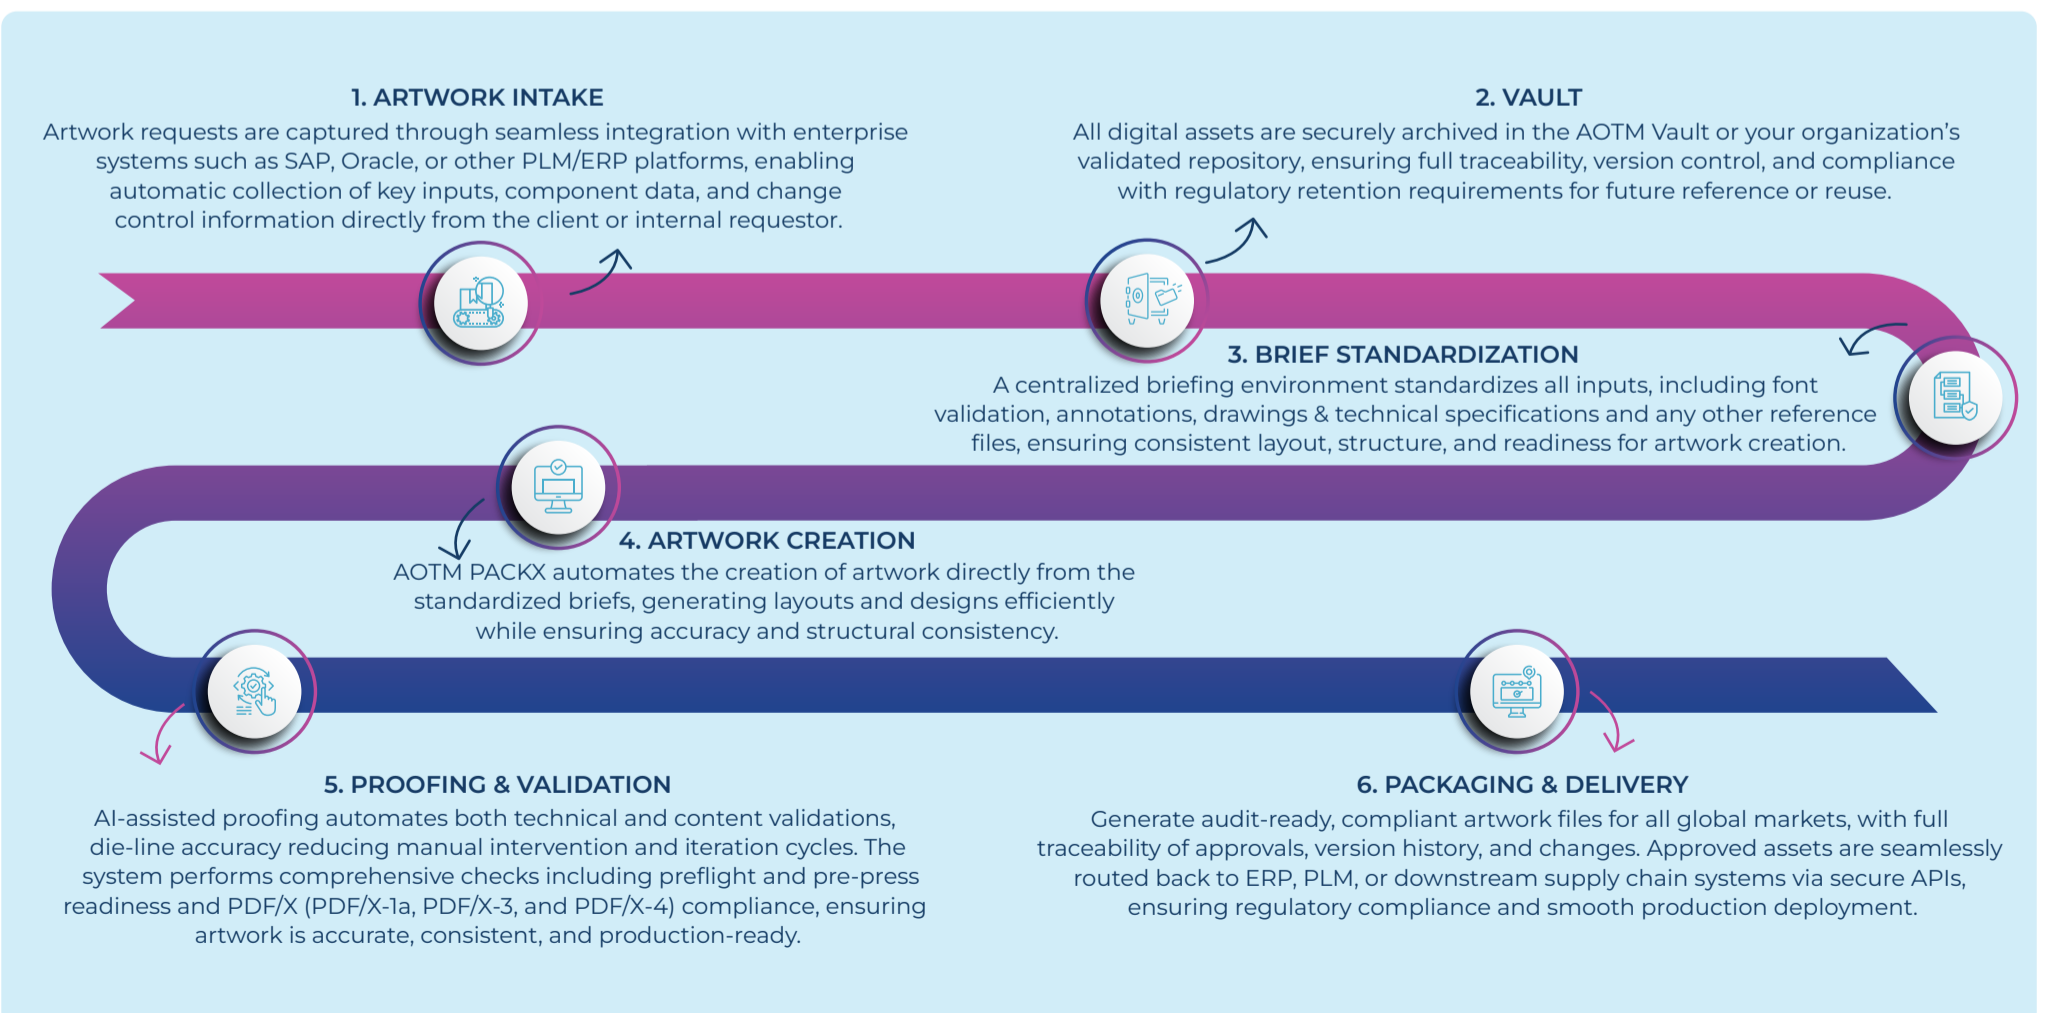

# Pharma-Grade Automation, Without Compromise

AOTM PACKX isn't generic automation. It's engineered specifically for the high-stakes world of pharma, biotech, and medical devices. Every label, leaflet, and carton is treated with the precision and scrutiny the industry demands. AOTM PACKX accelerates processes, reduces errors, and ensures every output is fully compliant, delivering speed and efficiency without ever risking regulatory standards. With the platform handling the complexity behind the scenes, your teams can focus on innovation & patient safety.

## Traditional Process vs AOTM PACKX

		TRADITIONAL PROCESS	AOTM PACKX
	SPEED	Weeks with manual handoffs	Fast, automated artwork creation
	ACCURACY	Prone to errors	99.99% AI-checked output
	COMPLIANCE	Manual checks	Automated compliance check
	SCALABILITY	Team-limited	Scales easily with automation
	COST	High due to labor and rework	Reduced through automation
	AUDIT TRAIL	Incomplete tracking	Full digital record
	TIME TO MARKET	Slowed by manual delays	Faster approved artwork creation

## AOTM PACKX Process Flow

## WHY AOTM PACKX?

- **Compliance Without Compromise**  
Automated checks ensure every artwork meets regulatory standards across markets.
- **From Complexity to Clarity**  
Simplifies multi-market packaging into clear, manageable workflows.
- **Collaboration Made Simple**  
Connects design, regulatory, and production teams in one streamlined platform.
- **Scale Without Stress**  
Handle growing volumes and last-minute changes with ease.
- **Audit-Ready Transparency**  
Every change tracked. Every step documented. Full confidence built-in.
- **Faster Time-to-Market**  
Reduce delays and accelerate approvals with automated workflows.

## AOTM PACKX: Audit-Ready, Secure, and Compliant

### Looking for a stand-alone validation process for your regulatory content or labelling and packaging?

AOTM PROOFX automates the validation process, comparing input with output to ensure accuracy, consistency, and compliance. Leveraging AI-assisted proofing, it performs both technical and content validations—including die-line accuracy, preflight, layout, colour separations, and PDF/X compliance (PDF/X-1a, X-3, X-4) while identifying deviations from label regulations, design standards, or technical specifications. Detailed reports highlight issues for quick correction, and once approved, final artworks are bundled for client delivery.

### Secure and Compliant

AOTM PACKX ensures pharma security and compliance at every stage, generating artwork that is fully traceable and audit-ready.

#### Global Standards & Compliance:

 **GMP & GxP Compliance**

 **ISO 27701**

 **ISO 9001:2015**

 **21 CFR Part 11**

 **ISO/IEC 27001:2022**

 **CMMI Dev Level 3**
