

Arca Etichette Spa
Benefit Corporation

SELF-ADHESIVE LABELS AND SLEEVE SINCE 1948

For your brand
For our passion

1 parent company: Arca Etichette S.p.A.
 with 2 divisions: Labels and Systems
 2 subsidiaries: Etifix S.r.l. – Arca Sleeves S.r.l.
 4 production sites

Foundation

Arca is among the pioneers of the self-adhesive revolution in Italy, with continuous growth in revenue and in the quality of service offered to its customers.

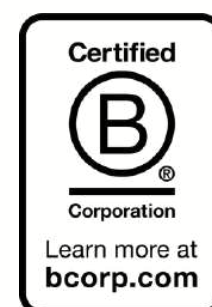

Etifix srl

Etifix srl is born, as a flexible company able to offer proposals in a short time.

Benefit Corporation by Notary's Deed on 8 April 2021

New legal status oriented not only toward profit, but toward the creation of shared economic and social value, guided by responsibility and transparency. All our actions will be monitored and measured annually through the "Impact Report".

B Corp recertification

B Corp recertification with a score of 95.7, confirming our commitment to an increasingly sustainable business model.

Labeling Machinery

Arca entered the market of labeling machinery, today recognized at the top of world technology. Therefore, Arca knows both aspects of the subject: machines and materials.

Arca Sleeves srl

Arca Sleeves srl is born to integrate and complete the Group's product mix offer.

Arca is B Corp certified™

We are officially part of B Corp community as a certified company, using our business as a force for good.

A unique range of graphic and paper based solutions.

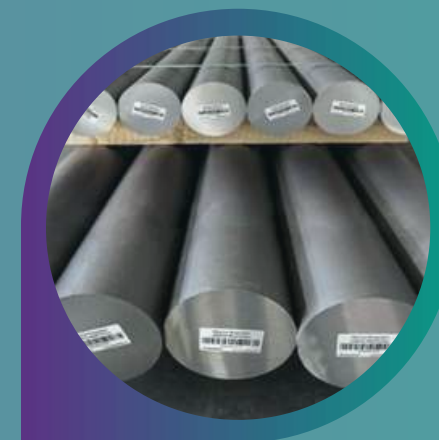

Promotion

The ideal support for your "on pack" promotions.

Security

Anti-counterfeiting and anti-violation labels providing protection to the product.

Durable identification

Designed to last a long time, guaranteeing identification for a product's entire lifecycle.

Special uses

Suitable for a multitude of different uses!

Logistics

A wide materials' range that guarantee a long term and perfect reading of texts and barcodes.

Our certified quality

ISO 45001

We cultivate an engaged, safe, productive and healthy workforce in compliance to international standards.

ISO 9001

Our products and services consistently meet customer's requirements, and quality is consistently improved.

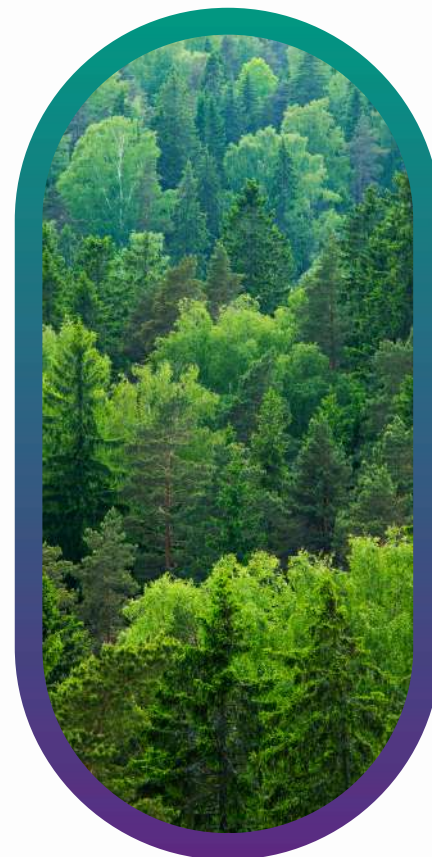

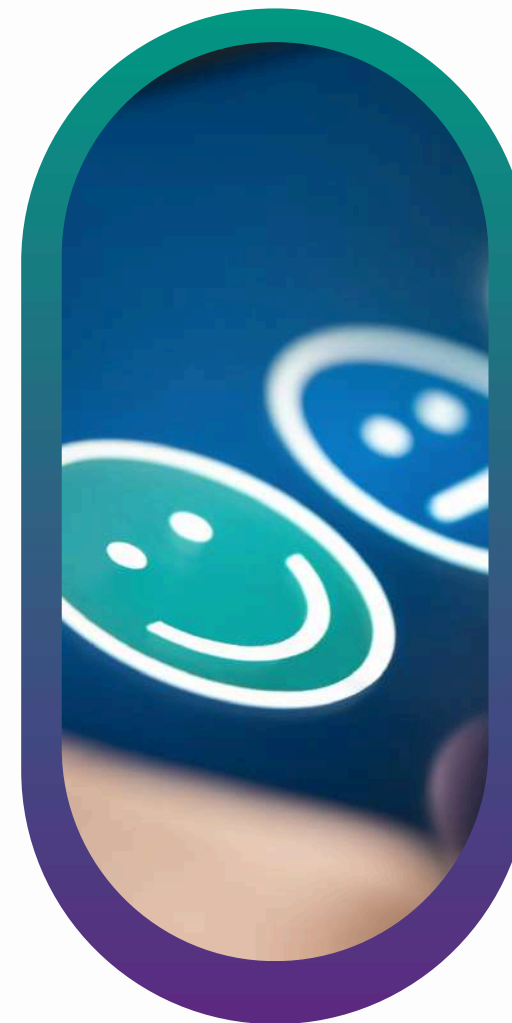

ISO 14001

We meet all requirements for an effective environmental management system.

ECOVADIS MEDAL

For responsible conduct regarding the environment, work practices, ethics, procurement processes and sustainable production.

FSC®

We are particularly careful to the environmental, social and economic sustainability of materials. We use FSC® certified paper from protected forests by international regulations.

ISCC PLUS

A voluntary circular economy certification that verifies sustainability, traceability, and mass balance across the entire system.

BRCGS

We comply to all global standards for packaging & packaging materials in the category "low hygiene risk".

UL

We meet all quality & safety standards for the U.S. market as assessed by Underwriters Laboratories Inc.

Proudly in the B Corp™ Community

B Corp is an innovative movement made up of companies with a single purpose: to be protagonists of a global change with their activities, creating a positive economic, social and environmental impact.

Since 2022, Arca Etichette has been certified as a B Corp. In 2025, we achieved recertification with a score of 95.7, improving on the 2022 result.

To obtain B Corp certification, it is necessary to undergo a rigorous selection process, which must be repeated every three years to maintain certification. The B Corp assessment process measures a company's performance across five categories: governance, workers, customers, community, and environment.

WE BELIEVE IN A BETTER
WAY OF DOING BUSINESS

Arca's sustainable approach

We possess eco-sustainability certifications to guarantee our stakeholders.

We use UV Led lamps.
We increase digital productions compared to traditional ones.

We reduce the waste of materials, inks and promote the use of recycled materials.
We promote the development of ecological packaging solutions.

We make our supply chain even more eco-sustainable: from suppliers to customers.

We generate actions in favor of the environment with particular attention to the local community.

We reduce greenhouse gas emissions by promoting green traffic circulation.

Eco-friendly product range

THE IDEAL SOLUTION FOR YOUR GREEN NEEDS

Our green packaging

A PROJECT TO REDUCE THE ECOLOGICAL
IMPACT OF PACKAGING MATERIALS

Eco-designed pallets made of PEFC and FSC® certified wood and managed according to the criteria of legality, sustainability and traceability of the forest supply chain.

GREENPALLET®

Since long time we've been using FSC® cardboard boxes.

FSC® BOXES

From polyurethane sachets with swelling adapted to the content, today we use fillers only in PE film (partially recycled) cut to size and which swells in bubbles.

**PARTIALLY PE
RECYCLED FILM**

In recycled polyethylene.

**EXTENSIBLE PE
RECYCLED FILM**

To replace the classic polyester tape, since 2024 we have been carefully sealing the boxes using FSC certified brown paper tapes.

FSC® PAPER TAPES

Partnership & current Projects

Cycle4Green

Even this year, Arca Etichette has renewed the partnership with C4G, a company that offers a Release Liner Recycling service throughout Europe. From the withdrawal of the material to the conversion into paper and resale on the market. Last year, we recycled 26,3 tons of recycled silicon paper materials, equates to a 50 tons reduction in CO₂. A perfect circular economy!

Our green heart forest

Arca contributes to protect environment by planting trees with Treedom around the world with the aim of:

- CO₂ reduction
- Reforestation
- Preserve biodiversity
- Benefits to entire communities

Marine Reforestation

Arca Etichette, together with ZeroCo2, has contributed to plant 50 Posidonia plants in Golfo Aranci, Sardinia. Creating a Posidonia meadow means absorbing CO₂, producing oxygen, giving home to many marine species and safeguarding the seabed.

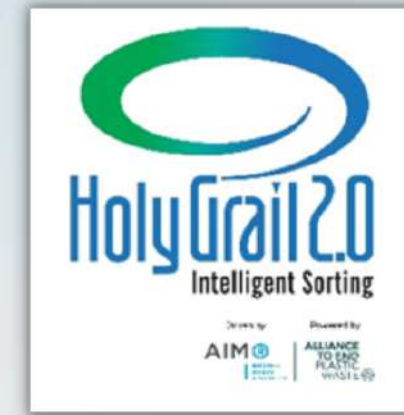

Bee My Future

Even this year, Arca has “adopted” an entire beehive.
“If the Bee Disappeared Off the Face of the Earth, Man Would Only Have Four Years Left To Live”
(Albert Einstein)

Partnership & current Projects

LIFEGATE | ENERGY

100% Renewable Energy and with Zero Impact®

Arca uses 100% renewable electric energy and with Zero Impact® alongside LifeGate. It means reducing the polluting impact of the energy system and preserving environmental resources.

Psychological support desk

Arca Etichette has set up a psychological support service for its employees and their families. It is a first listening point designed to provide support, promote personal balance, and strengthen organizational well-being.

AIM HolyGrail 2.0

An ambitious project with the aim to implement an authentic circular economy by revolutionizing the way packaging is sorted in the waste management system. How? By using digital watermarks.

Corporate Golden Donor

Arca is a "Corporate Golden Donor" of the FAI - Fondo per l'Ambiente Italiano (the National Trust for Italy) and, together with 500 other companies, contributes to the development, support and enhancement of the Italian territories.

We want a more protected beautiful Italy. We work with FAI to build it.

International presence

ARCA IS PART OF AN INTERNATIONAL GROUP OF SIX INDEPENDENT LABEL MANUFACTURERS AND PRINT CONVERTERS ACROSS EUROPE: CONCORDIA LABELS.

WORKING TOGETHER, SHARING EXPERIENCES

A company to conduct joint technical development and exchange experiences, technologies, resources and best practices. Our membership in Concordia Labels allows Arca to benefit from a continuous flow of news, know-how and benchmarking.

AN INTERNATIONAL PURCHASING GROUP

Concordia Labels also operates as a buying group for materials and equipment, providing a competitive edge for all associated members in their respective markets. Lastly, Concordia Labels guarantees a productive backup for possible emergencies.
