

ASTRAPHARM

THE ART OF HELPING PEOPLE!

Astrapharm – the art of helping people!

Efficiency, accessibility and safety of medicinal products are one of the most important social factors for the Ukrainian society, as these factors can save human life and health of Ukrainians. Almost 20 years ASTRAPHARM, have been producing modern and effective medicines of European quality and in accordance with international GMP standards, which are available to the entire population of Ukraine, and therefore we are proud of it.

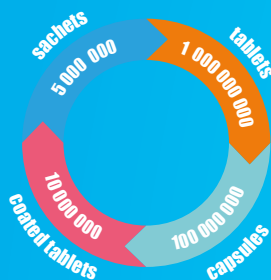

STATISTICS

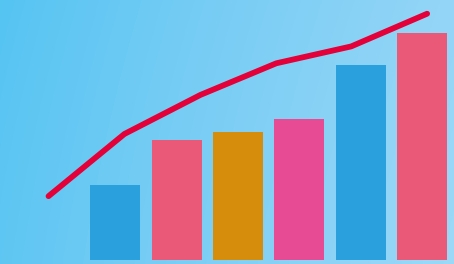

Our technologies allow to reduce the cost of a daily dose of modern and effective medicines by about 40-50%.

The range of our products includes more than 70 names of medicines of different therapeutic groups.

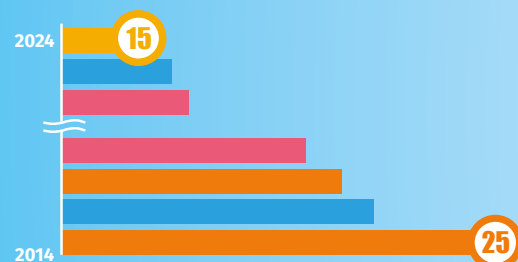

Our production capacity allows to produce
1 billion tablets,
10 million coated tablets,
100 million capsules
and 5 million sachet powders per year.

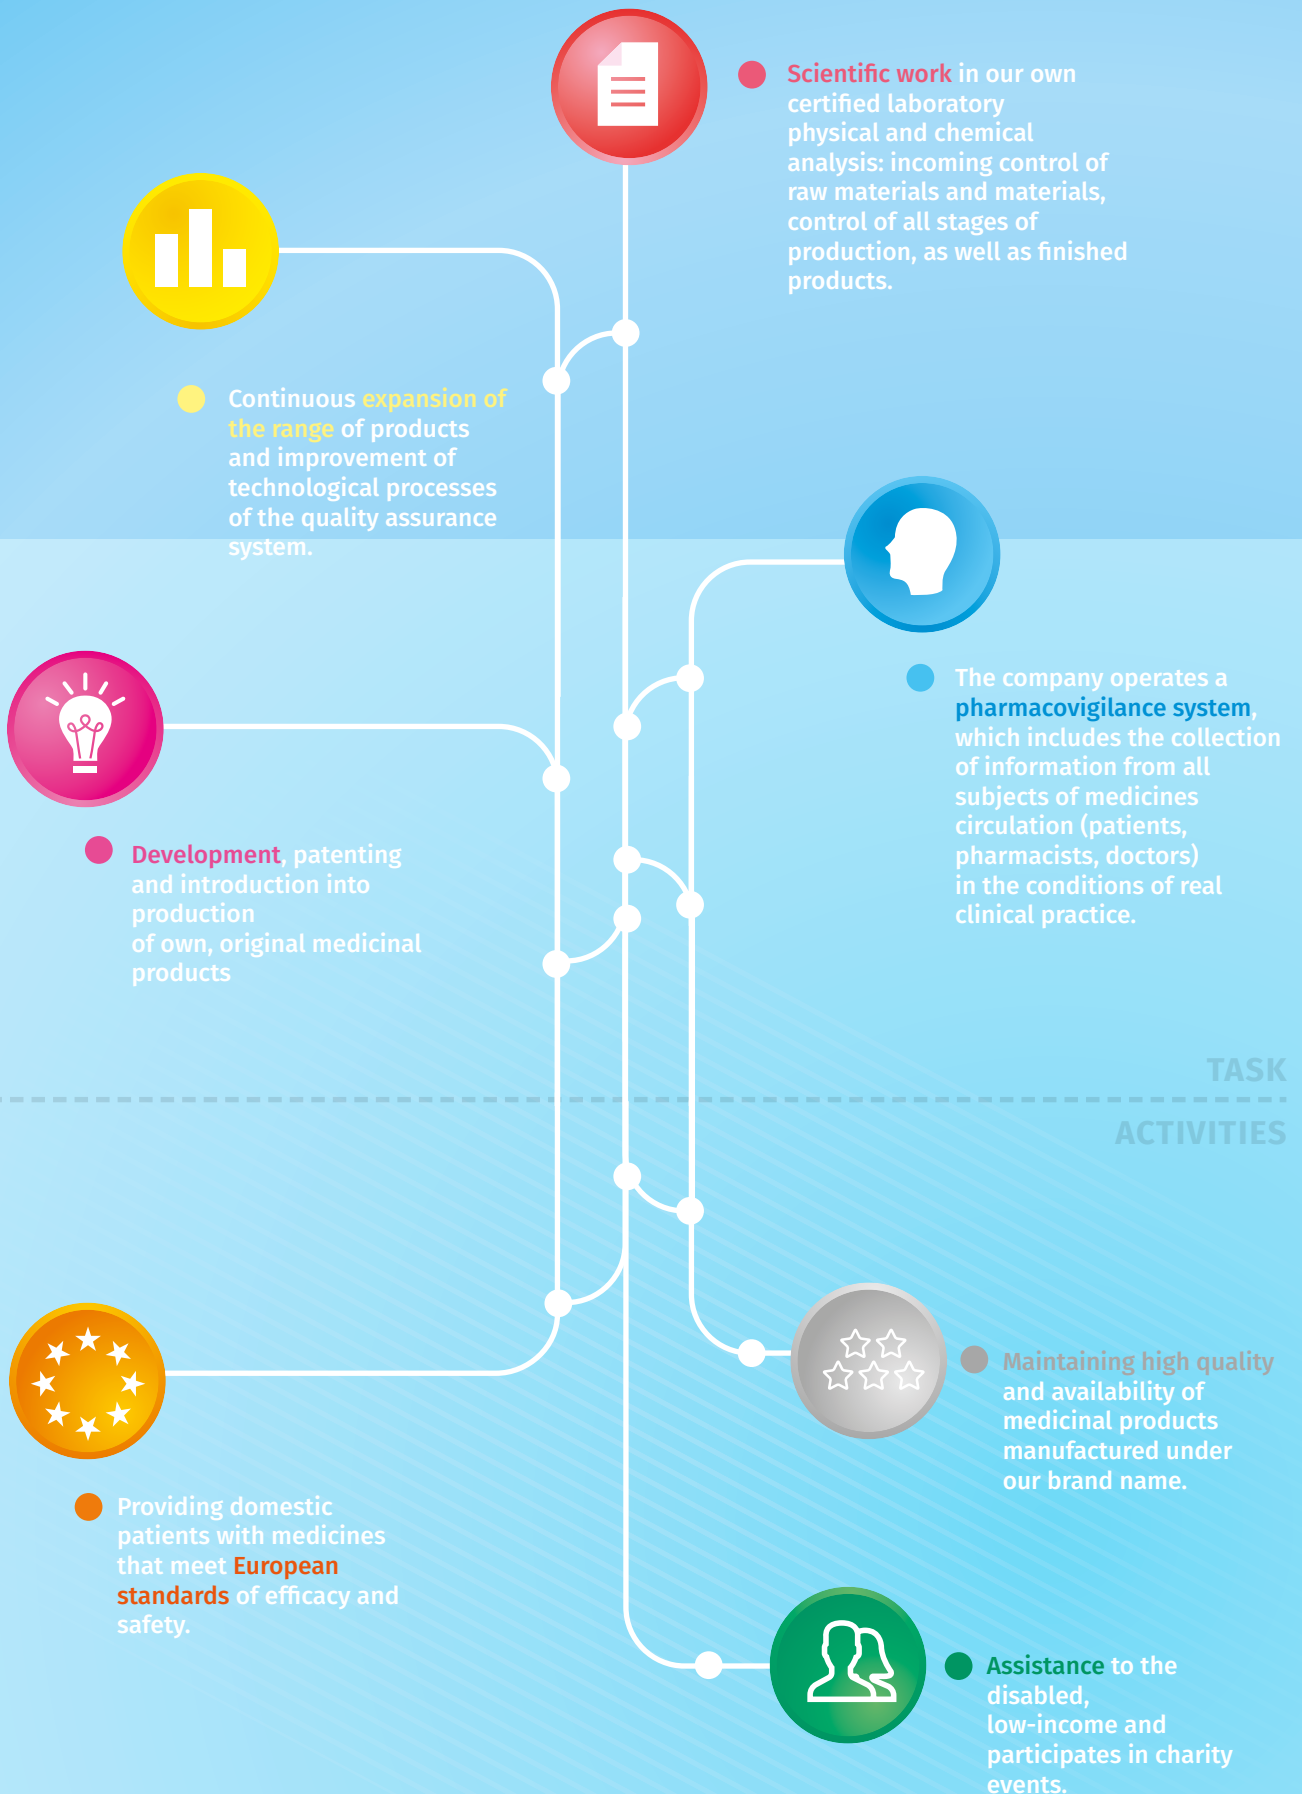

Over the past 6 years production and sales of Astrapharm products have increased 3.5 times.

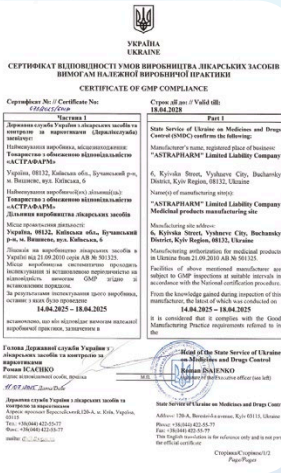

The company has provided highly paid jobs for more than 200 Ukrainian specialists from various fields, including: pharmacists, doctors, office staff and others.

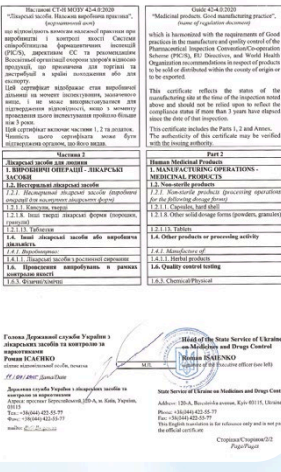

Growth rates in the ranking
"Domestic pharmaceutical manufacturers":
25th place (2014) - 15th place (2024).

The company received its first license in May 2003. In 2008 the company received the first GMP Certificate for 2 years. As a result of regular recertification, the company in 2025 successfully confirmed it for another 3 years. The production capacities of the company allow to produce annually 1 billion tablets, 10 million coated tablets, 100 million capsules and 5 million sachet powders.

We pay great attention to the quality of our products. We put a deep meaning in the concept "quality" is a multilevel system of work organization, which can be defined as follows: quality management, quality product (medicine), quality service. This system is a set of organizational measures to ensure the guarantee of proper product quality: compliance of all production and control operations with GMP standards, availability and implementation of self-audit and validation procedures, compliance with proper storage, distribution and sale of finished products.

In 2022 **Astrapharm** received a certificate of ISO 22000:2018 from the world-famous organization BUREAU VERITAS (Great Britain), which confirms that the Management System of **Astrapharm** for the production of dietary supplements has been verified and meets the requirements of the Management System Standard.

The company has its own certified laboratory of physical and chemical analysis, which carries out:
 -Incoming control of raw materials and materials;
 -Intermediate control at all stages of production;
 -Control of finished products.

Astrapharm's medicinal products do not differ from the medicinal products of leading foreign generic manufacturers in terms of quality, but are affordable for the general population due to the dynamic, flexible and loyal pricing policy: when compared to the main competitor medicine, the cost of a daily dose of **Astrapharm's** medicinal product is on average 40-60% lower.

The Company has firm intentions to further increase its innovative and technical potential in order to contribute to the provision of effective, safe and affordable medicines to the population of Ukraine.

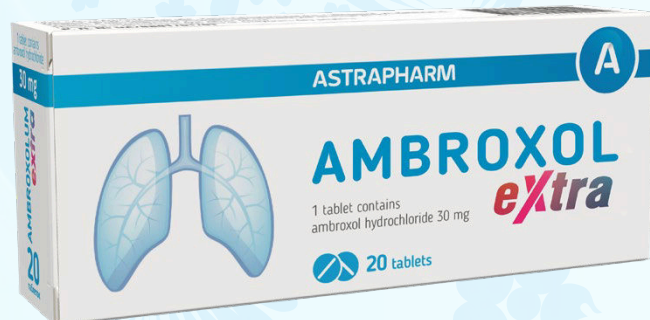

ACICLOVIR-ASTRAPHARM

Quick treatment and prevention viral diseases.

ATC code:
J05A B01.

Active substance:
Acyclovir

Pharmaceutical form:
Tablets 200 mg - 20 in box
Quantity in transport box:
100 boxes

AMBROXOL-EXTRA

Fast-acting mucolytic - effect on the 2nd day.

ATC code:
R05C B06

Active substance:
Ambroxol hydrochloride
Pharmaceutical form:
Tablets 30 mg - 20 in box
Quantity in transport box:
100 boxes

AMIGREN

An effective medicine for quick relief of migraine attacks.

ATC code:
N02C C01

Active substance:
Sumatriptan succinate
Pharmaceutical form:
Capsules 50 mg - 1 or 3 in box;
Capsules 100 mg - 1 or 3 in box
Quantity in transport box:
100 boxes

AMLODIPINE-ASTRAPHARM

Treatment of arterial hypertension (as monotherapy), ICS.

ATC code:
C08C A01

Active substance:
Amlodipine besylate
Pharmaceutical form:
Tablets 5 mg - 20, 30 or 60 in box
Tablets 10 mg - 20, 30 or 60 in box
Quantity in transport box:
100 or 50 boxes

ASTRACE

Mucolytic and expectorant medicine

ATC code:
R05C B01
Active substance:
Acetylcysteine
Pharmaceutical form:
Sachets 200 mg - 10 in box
Sachets 600 mg - 10 in box
Quantity in transport box:
50 boxes

ASTRACITRONE

Overcomes symptoms
COLDS and FLU!

ATC code:
N02B E51
Active substances:
Paracetamol 500 mg,
phenylephrine hydrochloride,
pheniramine maleate, ascorbic acid
Pharmaceutical form:
Sachets 20 g each - 10 in box
Quantity in transport box:
20 boxes

ASTRACITRON EXTRA

Symptomatic treatment
acute respiratory infections and flu.

ATC code:
N02B E51
Active substances:
Paracetamol 500 mg,
phenylephrine hydrochloride,
pheniramine maleate, ascorbic acid
Pharmaceutical form:
Sachets 5 g each - 10 in box
Sachets 5 g each - 30 in box
Quantity in transport box:
20 and 30 boxes

ASTRACITRONE FORTE

Enhanced protection and effectiveness
against colds and SARS.

ATC code:
N02B E51
Active substances:
Paracetamol 650 mg,
phenylephrine hydrochloride,
pheniramine maleate, ascorbic acid
Pharmaceutical form:
Sachets 20 g each - 10 in box
Quantity in transport box:
20 boxes

ATENOLOL-ASTRAPHARM

First-line medicine for the treatment of arterial hypertension.

ATC code:

C07A B03

Active substance:

Atenolol

Pharmaceutical form:

Tablets 50 mg - 20 in box

Tablets 100 mg - 20 in box

Quantity in transport box:

100 boxes

AZITHROMYCIN-ASTRAPHARM

First-line medicine for the treatment of non-hospital infections, including in children.

ATC code:

J01F A10

Active substance:

Azithromycin

Pharmaceutical form:

Capsules 250 mg - 6 in box

Capsules 500 mg - 3 in box

Quantity in transport box:

100 boxes

BISOPROLOL-ASTRAPHARM

Treatment of hypertension.

ATC code:

C07A B07

Active substance:

Bisoprolol fumarate

Pharmaceutical form:

Tablets 5 mg - 20 or 30 in box

Tablets 10 mg - 20 or 30 in box

Quantity in transport box:

100 boxes

CAPTOPRIL

ACE inhibitor of the first generation.

ATC code:

C09A A01

Active substance:

Captopril

Pharmaceutical form:

Tablets 25 mg - 20 in box

Quantity in transport box:

100 boxes

CARBAMAZEPIN-ASTRAPHARM

Anticonvulsant medicine.

ATC code:
N03AF01
Active substance:
Carbamazepine
Pharmaceutical form:
Tablets 200 mg - 20 or 50 in box
Quantity in transport box:
80 or 100 boxes

CEFEPIME-ASTRA

β -lactam cephalosporin antibiotic
IV generation.

ATC code:
J01DE01
Active substance:
Cefepime
Pharmaceutical form:
Powder for solution for injection of 500 mg - 1 or 10 in box
Powder for solution for injection of 1000 mg - 1 or 10 in box
Quantity in transport box:
126 or 32 boxes
Contract manufacturing - packaging

CEFTAZIDIME ASTRA

Cephalosporins of the III generation.

ATC code:
J01D D02
Active substance:
Ceftazidime
Pharmaceutical form:
Powder for solution for injection of 500 mg - 1 or 10 in box
Quantity in transport box:
126 or 32 boxes
Contract manufacturing - packaging

CETIRIZINE-ASTRAFARM

Antiallergic agent.

ATC code:
R06A E07
Active substance:
Cetirizine dihydrochloride
Pharmaceutical form:
Tablets 10 mg - 10 or 20 in box
Quantity in transport box:
100 boxes

CIPROFLOXACIN-ASTRAPHARM

2nd generation antibiotic.

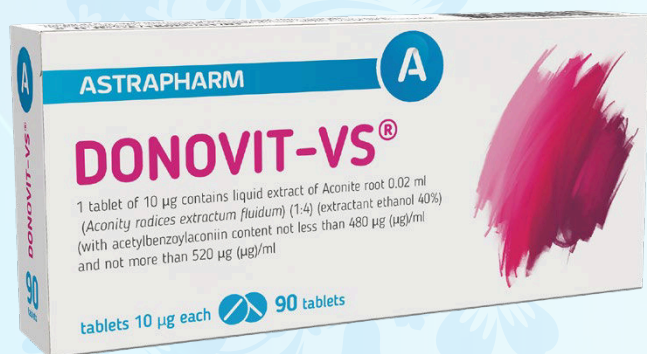

ATC code:
J01M A02
Active substance:
Ciprofloxacin
Pharmaceutical form:
Tablets 500 mg - 10 in box
Quantity in transport box:
100 boxes

CLARITHROMYCIN-ASTRAPHARM

Effective treatment of infections.

ATC code:
J01F A09
Active substance:
Clarithromycin
Pharmaceutical form:
Capsules 250 mg - 7 or 14 in box
Capsules 500 mg - 7 or 14 in box
Quantity in transport box:
50 boxes

DONOVIT-VS®

Antitumor and anti-metastatic effects on solid tumors with angiogenesis-dependent growth

ATC code:
L01C X
Active substance:
Liquid extract of burdock root
Pharmaceutical form:
Tablets 10 µg - 90 in box
Quantity in transport box:
100 boxes

ECHINACEA-ASTRAPHARM

Immunostimulant.

ATC code:
L03A X
Active substance:
Dried Echinacea purple juice
Pharmaceutical form:
Tablets 100 mg - 20 in box
Quantity in transport box:
100 boxes

ENALAPRIL-ASTRAPHARM

The medicine of choice in the treatment of arterial hypertension.

ATC code:
C09A A02

Active substance:
Enalapril maleate

Pharmaceutical form:

Tablets 10 mg - 20, 60, 90 or 100 in box

Tablets 20 mg - 20, 60, 90 or 100 in box

Quantity in transport box:

50, 96 or 100 boxes

EROSIL

And male strength is blooming!

ATC code:
G04B E03

Active substance:
Sildenafil Citrate

Pharmaceutical form:

Tablets 50 mg - 1, 2 or 4 in box

Tablets 100 mg - 1, 2 or 4 in box

Quantity in transport box:

100 boxes

FLUCONAZOL

Antifungal medicine.

ATC code:
J02A C01

Active substance:
Fluconazole

Pharmaceutical form:

Capsules 50 mg - 10 in box

Capsules 100 mg - 10 in box

Capsules 150 mg - 1 in box

Quantity in transport box:

100 boxes

FOLIC ACID ASTRA

For the prevention of the development of congenital defects of the fetus, treatment of anemia in adults.

ATC code:
B03B B01

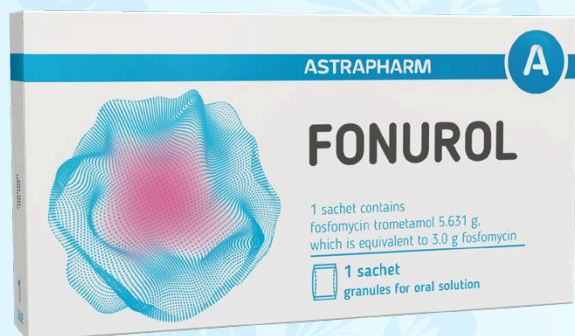

Active substance:
Folic acid hydrate

Pharmaceutical form:

Tablets 5 mg - 50 in box

Quantity in transport box:

96 boxes

FONUROL

International standard of treatment of acute cystitis.

ATC code:

J01X X01

Active substance:

Fosfomycin

Pharmaceutical form:

Granules for oral solution in sachet - 1 in box

Quantity in transport box:

92 boxes

FOSFOMYCIN

Treatment of acute uncomplicated cystitis in women.

ATC code:

J01X X01

Active substance:

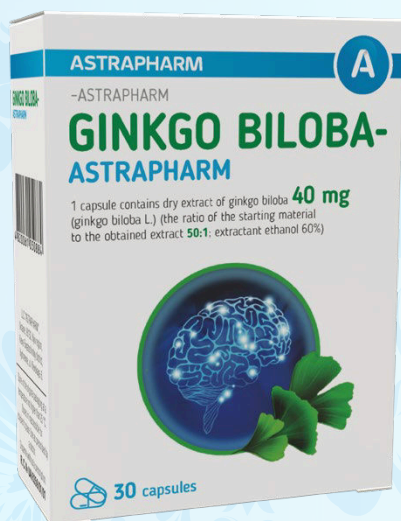

Fosfomycin

Pharmaceutical form:

Granules for oral solution in sachet - 1, 2, 3, 4 or 10 in box

Quantity in transport box:

92, 44 or 20 boxes

GINKGO BILOBA - ASTRAPHARM

Remedy for memory impairment.

ATC code:

N06D X02

Active substance:

Ginkgo biloba extract dry

Pharmaceutical form:

Capsules 40 mg - 30 or 60 in box

Capsules 80 mg - 30 or 60 in box

Quantity in transport box:

50 boxes

GROPRIM

You will feel the joy of life without viral complications with him.

ATC code:

J05A X05

Active substance:

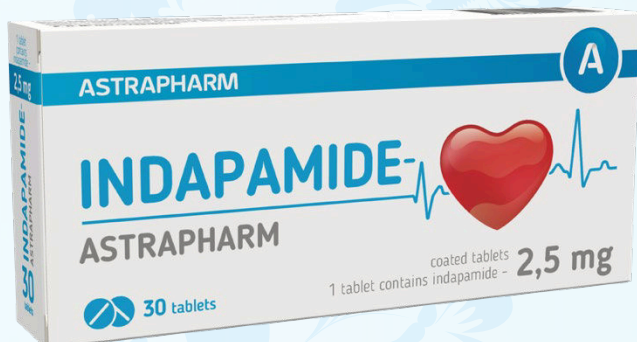

Inosine pranobex

Pharmaceutical form:

Tablets 500 mg - 20 or 40 in box

Quantity in transport box:

80 or 40 boxes

INDAPAMID-ASTRAPHARM

Diuretic, antihypertensive medicine.

ATC code:
C03B A11
Active substance:
Indapamide
Pharmaceutical form:
Tablets 25 mg - 30 in box
Quantity in transport box:
100 boxes

LETROZOLE ASTRA

The drug of choice for the treatment of hormone-dependent breast cancer.

ATC code:
L02B G04
Active substance:
Letrozole
Pharmaceutical form:
Tablets 2,5 mg - 30 in box
Quantity in transport box:
100 boxes

LEVOFLOXACIN-ASTRAPHARM

Effective treatment of infections.

ATC code:
J01M A12
Active substance:
Levofloxacin
Pharmaceutical form:
Tablets 250 mg - 7 or 14 in box
Tablets 500 mg - 7 or 14 in box
Quantity in transport box:
56 boxes

LISINOPRIL

Treatment of hypertension.

ATC code:
C09A A03
Active substances:
Lisinopril and hydrochlorothiazide
Pharmaceutical form:
Tablets 5 mg - 10, 20 or 30 in box
Tablets 10 mg - 10, 20 or 30 in box
Tablets 20 mg - 10, 20 or 30 in box
Quantity in transport box:
100 boxes

LISINOPRIL-H

A combination of lisinopril and hydrochlorothiazide.

ATC code:
C09B A03

Active substances:
Lisinopril and hydrochlorothiazide
Pharmaceutical form:
Tablets 10/12,5 mg - 10 or 30 in box
Tablets 20/12,5 mg - 10 or 30 in box
Quantity in transport box:
100 boxes

LORATADINE

Quick treatment of allergies.

ATC code:
R06A X13

Active substance:
Loratadine
Pharmaceutical form:
Tablets 10 mg - 10, 20, 90 or 100 in box
Quantity in transport box:
100 or 50 boxes

MAGNELIS

Treatment of magnesium deficiency.

ATC code:
A11EC

Active substance:
Vitamin B6 (Pyridoxine) and Magnesium (Mg)
Pharmaceutical form:
Tablets 10 mg - 60 in box
Quantity in transport box:
50 boxes

METFORMIN-ASTRAPHARM

To reduce the level of glucose in type 2 diabetes.

ATC code:
A10B A02

Active substance:
Metformin hydrochloride
Pharmaceutical form:
Tablets 500 mg - 30 or 60 in box
Tablets 850 mg - 30 or 60 in box
Tablets 1000 mg - 30 or 60 in box
Quantity in transport box:
50 or 100 boxes

MOXIFLOXACIN

Antibacterial agents of the quinolone group.

ATC code:

J01M A14

Active substance:

Moxifloxacin

Pharmaceutical form:

Tablets 400 mg - 5 or 10 in box

Quantity in transport box:

56 boxes

NORMASON

Effective hypnotic.

ATC code:

N05C F01

Active substance:

Zopiclone

Pharmaceutical form:

Tablets 7,5 mg - 10, 20 and 30 in box

Quantity in transport box:

100 boxes

NIMELGAN

Reduces the symptoms of acute pain, after 15-20 minutes.

ATC code:

M01A X17

Active substance:

Nimesulide

Pharmaceutical form:

Tablets 100 mg - 10 or 30 in box

Quantity in transport box:

100 or 50 boxes

NIMELGAN

Life without pain begins with NIMELGAN.

ATC code:

M01A X17

Active substance:

Nimesulide

Pharmaceutical form:

Sachet 2 g - 10, 20 or 30 in box

Quantity in transport box:

50 or 40 boxes

ORNIDAZOLE-ASTRAPHARM

Treatment of anaerobic infection.

ATC code:
P01A B03
Active substance:
Ornidazole
Pharmaceutical form:
Capsules 500 mg - 10 in box
Quantity in transport box:
100 boxes

OMEPRAZOLE

Highly effective anti-ulcer agent.

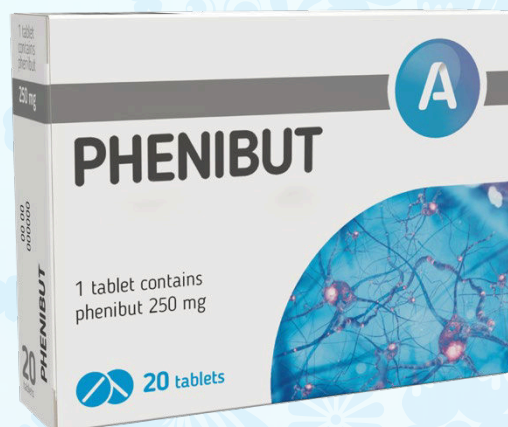

ATC code:
A02B C01
Active substance:
Omeprazole
Pharmaceutical form:
Capsules 20 mg - 10 or 30 in box
Quantity in transport box:
100 boxes

OMEPRAZOLE

Highly effective anti-ulcer agent.

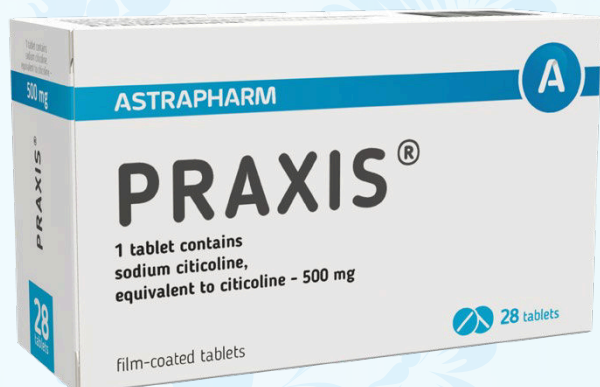

ATC code:
A02B C01
Active substance:
Omeprazole
Pharmaceutical form:
Powder for solution for injection 40 mg - 1 or 10 in box
Quantity in transport box:
90 or 40 boxes
Contract manufacturing - packaging

PHENIBUT

Treatment of neurological and mental disorders such as anxiety, insomnia, asthenia, fears, phobias.

ATC code:
N06B X22
Active substance:
Aminophenylbutyric acid
Pharmaceutical form:
Tablets 250 mg - 20, 30, 40, 50, 60 and 100 in box
Quantity in transport box:
80, 40 boxes

PRAXIS

Your patient's brain is capable of doing better.

ATC code:

N06B X06

Active substance:

Citicoline

Pharmaceutical form:

Tablets 500 mg - 28 in box

Quantity in transport box:

100 boxes

RAMIPRIL ASTRA

Prevention of cardiovascular diseases and nephroprotection.

ATC code:

C09A A05

Active substance:

Ramipril

Pharmaceutical form:

Tablets 5 mg - 30 in box

Tablets 10 mg - 30 in box

Quantity in transport box:

100 boxes

RIBAVIRIN-ASTRAPHARM

Specific therapy of hepatitis C.

ATC code:

J05A B04

Active substance:

Ribavirin

Pharmaceutical form:

Capsules 200 mg - 30 or 60 in box

Quantity in transport box:

50 boxes

SONNIKS®

Effective hypnotic.

ATC code:

R06A A09

Active substance:

Doxylamine succinate

Pharmaceutical form:

Tablets 15 mg - 10 or 30 in box

Quantity in transport box:

50 boxes

TRIMETAZIDINE-ASTRAPHARM

The drug improves metabolism myocardium in conditions of ischemia.

ATC code:
C01E B15

Active substance:
Trimetazidine dihydrochloride
Pharmaceutical form:
Tablets 20 mg - 30 or 60 in box
Quantity in transport box:
100 boxes

VINPOCETIN-ASTRAPHARM

Improvement of cerebral blood circulation.

ATC code:
N06BX18

Active substance:
Vinpocetine
Pharmaceutical form:
Tablets 5 mg - 20, 30 or 50 in box
Quantity in transport box:
100 or 96 boxes

DIETARY SUPPLEMENTS

Name of dietary supplement	Active ingredient	Release form
Amigren Phyto	Extract of dry leaves of Paraguayan mate tea – 32 mg, extract of dry rhizomes of ginger – 30 mg, extract of dry standardized licorice root – 18 mg, extract of dry leaves of lemon balm – 12 mg.	Capsules No. 30
Artichoke-Astrafarm	Artichoke extract – 200 mg.	Capsules No. 30
Asartaza	Serratiopeptidase – 10 mg.	Capsules No. 60
Astracitron Phyto	Verbena extract – 50 mg, elderberry extract – 50 mg, mullein extract – 50 mg, ginger root extract – 50 mg, pelargonium root extract – 50 mg, vitamin C – 40 mg, menthol – 18 mg.	Sachet No. 30
Biactive	L-arginine (in the form of arginine hydrochloride) – 1000 mg, betaine (in the form of betaine hydrochloride) – 1000 mg, L-carnitine – 300 mg.	Sachet No. 10
Biactive Detox	L-glutathione – 250 mg, ascorbic acid – 210 mg, N-acetylcysteine – 200 mg, glycine – 200 mg.	Sachet No. 10
Biale ACTIVE Canadian yogurt + FOS	Viable cultures – not less than 3×10^9 CFU: <i>Lactobacillus rhamnosus</i> R0343, <i>Lactobacillus delbruesckii</i> spp. <i>Bulgaricus</i> , <i>Streptococcus thermophilus</i> .	Capsules No. 30
Biale HELP Canadian yogurt + D3	Dry viable cultures – not less than 2.5×10^9 CFU: <i>Lactobacillus casei</i> , <i>Bifidobacterium animalis</i> ssp. <i>lactis</i> , <i>Lactobacillus delbruesckii</i> ssp. <i>bulgaricus</i> , <i>Streptococcus thermophilus</i> ; vitamin D ₃ – 50 mcg (2000 IU).	Capsules No. 30
Bukh-Ni	Glucose anhydrous/sucrose – 2565 mg, citric acid anhydrous – 200 mg (or succinic acid – 200 mg), glycine – 200 mg, ascorbic acid – 200 mg, sodium citrate – 35 mg.	Sachet No. 10
Canadian Yogurt Roselle	Each capsule contains at least 2 billion strains of viable cultures of probiotic microorganisms: <i>Lactobacillus rhamnosus</i> R0011, <i>Lactobacillus delbruesckii</i> ssp. <i>bulgaricus</i> , <i>Streptococcus thermophilus</i>	Capsules No. 30
CeZink	Zinc – 10 mg (in the form of zinc sulfate).	Tablets No. 30
Hitart	Glucosamine hydrochloride – 325 mg, sodium chondroitin sulfate – 325 mg, methylsulfonylmethane (MSM) – 200 mg.	Capsules No. 56
Hitart Max	Glucosamine hydrochloride – 1500 mg, sodium chondroitin sulfate – 1200 mg, methylsulfonylmethane (MSM) – 1000 mg.	Sachet No. 10
Hitart Max + Collagen	Glucosamine hydrochloride – 1500 mg, sodium chondroitin sulfate – 1200 mg, methylsulfonylmethane (MSM) – 1000 mg, undenatured collagen type 2 – 40 mg.	Sachet No. 10
Melatonin Max	Melatonin – 3 mg, vitamin B ₆ (pyridoxine hydrochloride) – 2 mg.	Capsules No. 30
Milk thistle	Crushed Milk thistle fruits - 100 g.	100 g
Mukolteika	Echinacea extract – 100 mg, marshmallow extract – 50 mg, vitamin C (in the form of ascorbic acid) – 40 mg, ginger extract – 20 mg, zinc (in the form of zinc sulfate) – 5 mg.	Tablets No. 20
Phytosorb active	Activated charcoal – 0.25 g.	Tablets No. 10
PowerBanka	Taurine – 500.0 mg, inositol – 200.0 mg, caffeine – 50.0 mg, vitamin C (ascorbic acid) – 25.0 mg, vitamin B ₃ (nicotinic acid) – 3.0 mg, vitamin B ₅ (pantothenic acid) – 1.5 mg, vitamin B ₆ (pyridoxine hydrochloride) – 0.3 mg, vitamin B ₁ (thiamine hydrochloride) – 0.17 mg.	Tablets No. 20
Smectosorb	Dioctahedral Smectite – 2.5 g.	Sachet No. 30
Taukard	Taurine – 867 mg, leonurus cardiaca extract – 87 mg, hawthorn fruit extract – 43 mg.	Tablets No. 60
Yodik	Potassium iodate - 168.7 mcg (which is equivalent to 100 mcg of iodine).	Tablets No. 60

AMIGREN PHYTO

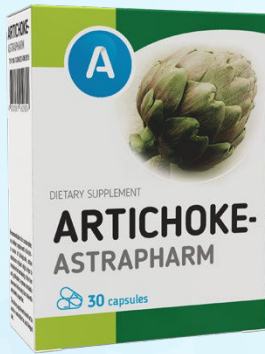

Recommendations for consumption: a source of biologically active substances, helps to improve the well-being of weather-dependent people with problems related to weather changes, which are manifested by headaches, sleep disorders, changes in blood pressure, nausea, and decreased concentration of attention. It has general astringent properties.

Composition of 1 capsule: *main substances:* extract of dry leaves of Paraguayan mate tea – 32 mg, extract of dry rhizomes of ginger – 30 mg, extract of dry standardized licorice root – 18 mg, extract of dry leaves of lemon balm – 12 mg.

Release form: **Capsules – 30 in box**

Quantity in transport box: **50 boxes**

Shelf life: **3 years**

ARTICHOKE-ASTRAPHARM

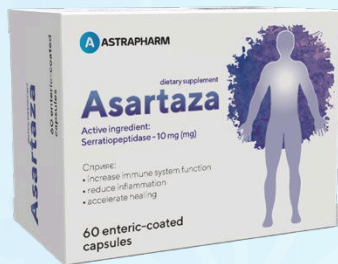

Recommendations for consumption: as a dietary supplement to the diet – a source of biologically active substances, contributes to the normalization of liver and gall bladder functioning, improvement of metabolic processes in the body; has choleric and diuretic properties.

Composition of 1 capsule: *main substance:* dry artichoke extract – 200 mg.

Release form: **Capsules – 30 in box**

Quantity in transport box: **50 boxes**

Shelf life: **2 years**

ASARTAZA

Recommendations for consumption: a dietary supplement to the diet - a source of the proteolytic enzyme serratiopeptidase, which is isolated from the non-pathogenic intestinal bacterium Serratia E15, with the aim of promoting the improvement of the functions of the immune system, including the increase of the body's defense forces, endurance, helping to reduce the inflammatory process, accelerating the healing process, better functioning of the respiratory ways, contributing to the normal secretion of mucus.

Composition, 1 enteric capsule contains: *main ingredient:* serratiopeptidase.

Active ingredient: Serratiopeptidase – 10 mg.

Release form: **Capsules – 60 in box**

Quantity in transport box: **30 boxes**

Shelf life: **3 years**

ASTRACITRON PHYTO

Recommendations for consumption: dietary supplement to the diet - a source of biologically active substances of plant extracts with vitamin C and menthol; contributes to the general strengthening of the body, maintaining the optimal state of the immune system during the spread of colds, and the proper functioning of the mucous membranes of the upper respiratory tract, including the nasal cavity and paranasal sinuses.

The composition of the contents of 1 sachet: *main substances:* verbena extract – 50 mg, elderberry extract – 50 mg, mullein extract – 50 mg, extract ginger root – 50 mg, pelargonium root extract – 50 mg, vitamin C – 40 mg, menthol – 18 mg.

Release form: **Packets (sachets) – 30 in box**

Quantity in transport box: **40 boxes**

Shelf life: **3 years**

BUKH-NI dietary supplement with citric acid

Recommendations for consumption: as a dietary supplement to the diet as an additional source of biologically active substances. Contributes to the normalization of the functional state of the liver, neutralization of the toxic effect of ethanol and its oxidation product. It has detoxifying properties.

The composition of the contents of 1 sachet: *main substances:* glucose anhydrous/sucrose – 2565 mg, citric acid anhydrous – 200 mg (or succinic acid – 200 mg), glycine – 200 mg, ascorbic acid – 200 mg, sodium citrate – 35 mg.

Release form: **Packets (sachets) – 10 in box**

Quantity in transport box: **50 boxes**

Shelf life: **2 years**

BIALE ACTIVE Canadian yogurt + fructooligosaccharides

Recommendations for consumption: a dietary supplement to the diet for the purpose of preventing dysbiosis, in particular caused by antibiotics, helps to restore normal intestinal microflora, improve digestion and assimilation of food, and reduce the risk of allergic manifestations. Dietary supplements should not be used as a substitute for a complete diet. Capsules from Canada, Institute Rosell.

Composition of 1 capsule: active ingredients: dry viable cultures – not less than 3×10^9 CFU: *Lactobacillus rhamnosus* R0343, *Lactobacillus delbruesckii* spp. *Bulgaricus*, *Streptococcus thermophilus*.

Release form: **Capsules – 30 in box**

Quantity in transport box: **48 boxes**

Shelf life: **3 years**

BIALE HELP Canadian yogurt + D3

Recommendations for consumption: probiotic and source of vitamin D3. Contributes to general strengthening of the body, increase of immunity, normalization functioning of the gastrointestinal tract, maintaining the balance of intestinal microflora. Helps restore and stabilize intestinal microflora during antibiotic treatment and increases the assimilation of calcium with food to maintain the condition of the musculoskeletal system.

Composition of 1 capsule: active ingredients: dry viable cultures – not less than 2.5×10^9 CFU: *Lactobacillus casei*, *Bifidobacterium animalis* ssp. *lactis*, *Lactobacillus delbruesckii* ssp. *bulgaricus*, *Streptococcus thermophilus*; vitamin D₃ – 50 mcg (2000 IU).

Release form: **Capsules – 30 in box**

Quantity in transport box: **48 boxes**

Shelf life: **3 years**

CANADIAN YOGURT ROSELL

Recommendations for consumption: dietary supplement to the diet – probiotic. Helps restore normal intestinal microflora, improve digestion and absorption of food, and reduce the risk of allergies.

Composition of 1 capsule: active ingredients: at least 2 billion strains of viable cultures of probiotic microorganisms: *Lactobacillus rhamnosus* R0011, *Lactobacillus delbruesckii* ssp. *bulgaricus*, *Streptococcus thermophilus*.

Release form: **Capsules – 30 in box**

Quantity in transport box: **56 boxes**

Shelf life: **2 years**

BIACTIVE

Recommendations for consumption: an additional source of amino acids arginine, betaine and l-carnitine. It is recommended to consume for the purpose of: normalization of heart and vascular functions under conditions of oxidative stress; improvement of blood microcirculation in tissues; maintenance of normal cholesterol levels in the blood and normalization of lipid metabolism; increase of mental (memory, attention) and physical performance, increase of metabolic rate in the body; promotion of improvement of reproductive function in men and women; normalization of the functional state of the hepatobiliary system, prevention of the consequences of intoxication; general strengthening of the body and increase of immunity.

Composition of 1 sachet: active ingredients: l-arginine (in the form of arginine hydrochloride) – 1000 mg, betaine (in the form of betaine hydrochloride) – 1000 mg, l-carnitine – 300 mg.

Release form: **Packets (sachets) – 10 in box**

Quantity in transport box: **20 boxes**
