

*US-based sterile injectable CDMO delivering high quality development and manufacturing services seamlessly*

## VIALS

- Multiple filling lines; vial sizes 2 mL - 100 mL
- Clinical to commercial scale
- Wide range of batch sizes

## PREFILLED SYRINGES

- Multiple filling lines; syringe sizes 5 mL - 10 mL
- Clinical to commercial scale
- Wide range of batch sizes

## IV BAGS

- Multiple filling lines; IV bag sizes 50 mL - 2 L
- Terminally sterilized filling line
- Fully isolated aseptic filling line

### PRODUCT DEVELOPMENT

- Emulsions & Suspensions
- Lipid Nanoparticles (LNPs)
- Microfluidization & Homogenization
- Rotary Evaporation
- Development Scale Lyo
- Process Development
- DoE & QbD Study Designs
- Technology Transfer and Scale Up

### ANALYTICAL SERVICES

- Analytical Method Development & Validation
- Container Closure Integrity Testing
- Full ICH Stability
- Full Raw Material Release & USP <1> Testing
- Elemental Impurity Testing
- Residual Solvent Testing
- Extractables & Leachables

### MANUFACTURING

- Small & Large Molecules
- 5 Formulation Suites
- Formulation Scales of 1 L to 4000 L
- Automated Visual Inspection
- Automated Vial Labeling
- Automated Syringe Label & Assembly
- Serialization, Cartoning, & Packaging
- On-Site Warehouse
- Cold Room Storage
