AURECON EAR DROPS

Packaging: 10 ml dropper bottle.

Use:

3-5 drops once a week, more frequently in case of excessive earwax.

Ingredientes: Olea europaea, Sempervivum tectorum extract, Melaleuca alternifolia, Chamomilla recutita, Eucalyptus globulus, Lavandula angustifolia, Citrus limonum

Natural hygiene for the ear canal

Insufficient ear hygiene can lead to reduced sound transmission and create favorable conditions for microorganisms. **Aurecon Ear Drops** are formulated to address these needs gently and effectively.

Key benefits:

- Softens and loosens earwax, making cleaning easier.
- Prevents adhesion and excessive accumulation of cerumen.
- Protects against microorganisms and supports physiological balance.
- May reduce mild symptoms of early ear inflammation.
- 100% natural oils - olive, chamomile, eucalyptus, lavender, lemon, houseleek.
- No preservatives, no chemical additives.

AURECON DROPS FORTE

Packaging: 10 ml dropper bottle.

Use:

Apply 3-5 drops weekly or more often if needed. May be combined with other Aurecon products.

Ingredientes: Olea europaea, Cholin salicylate, Sempervivum tectorum extract, Laureth 9, Melaleuca alternifolia, Chamomilla recutita, Eucalyptus globulus, Lavandula angustifolia, Citrus limonum

Relief of ear pain and early inflammation

Aurecon Drops Forte are designed for more intensive ear care, combining soothing natural oils with anti-inflammatory support.

Key benefits:

- **Choline salicylate + houseleek extract** - help relieve pain and inflammation.
- **Lavender oil and chamomile** - reduces unpleasant pain symptoms, also provides protection against unwanted microorganisms
- Supports ear cleaning, reduces wax sticking, prevents microbial growth.
- Preserves natural ear canal conditions.

DROPS FORTE JUNIOR

Packaging: 10 ml dropper bottle.

Use:

3-5 drops, once weekly for prevention, or more often if excessive wax is present. Always under adult supervision.

Ingredients: Olea europaea, Sempervivum tectorum extract, Laureth 9, Melaleuca alternifolia, Chamomilla recutita, Eucalyptus globulus, Lavandula angustifolia, Citrus limonum

Gentle ear drops for children from 6 months

Children are especially vulnerable. After a cold or flu, inflammation often spreads to the ear. Untreated or poorly treated, this can become chronic, causing pain and sleep problems.

Key benefits:

- Gentle, preservative-free formula suitable for babies and children.
- Houseleek and lavender oil soothe discomfort and irritation.
- Protects against microorganisms in the ear canal.
- Facilitates ear cleaning, reduces sticking and accumulation of wax.

AURECON EAR SPRAY

Packaging: 50 ml in spray bottle.

Use:

1-2 sprays per ear, once or twice daily. Rinse applicator after use.

Dead Sea solution with Aloe Vera

Regular ear hygiene is essential to prevent cerumen plugs, which can impair hearing, cause itching, or promote infection. **Aurecon Ear Spray** offers a natural, non-aggressive solution.

Key benefits:

- Ionic Dead Sea solution enriched with Aloe Vera and houseleek.
- Gently decomposes earwax without irritating the eardrum.
- Prevents plugs and supports routine ear hygiene.
- Recommended for elderly, people with hearing aids, those working in dusty environments, divers, swimmers, frequent flyers.
- Mild, safe, and effective for daily use.

JUNIOR SPRAY

Packaging: 30 ml in spray bottle.

Use:

1-2 sprays per ear, once or twice daily. Rinse applicator after use.

Gentle solution from the age of 3

Aurecon Junior ear spray is a natural preparation containing herbal extracts, this unique combination of herbs gently acts on the ear and reduces the possibility of inflammation.

Key benefits:

- Helps to reduce possible inflammation of the middle ear and runny nose
- Substitute for cotton swabs, because their improper use may harm the ear
- With its use, ear congestion caused by the accumulation of ear wax in the external auditory canal can be eliminated
- Helps to eliminate the external inflammation of the ear due to earwax becoming wet while swimming
- The preparation is intended for children, particularly for those who have "dry" earwax.

AURECON DRY SPRAY

Packaging: 50 ml in spray bottle.

Use:
1-2 sprays per ear after any
water contact.

Removes water from ears –
prevents swimmer's ear

After bathing, showering, or swimming, water can remain trapped in the ear canal, creating an ideal environment for bacterial and fungal infections. **Aurecon Dry Spray** ensures safe and quick drying.

Key benefits:

- Denatured alcohol accelerates water evaporation.
- Aloe Vera and houseleek extracts soothe irritation, relieve itching, and support healing.
- Prevents common symptoms: discharge, pain, fever, long-term hearing impairment.
- Proven natural antioxidants and anti-inflammatory compounds.

PEROXIDE DROPS

Packaging: 30 ml in spray bottle.

Use:
1-2 sprays per ear after any
water contact.

Effective removal of hardened earwax

In some people, earwax accumulates excessively and causes discomfort, blockage, and hearing loss. **Aurecon Peroxide Drops** offer a modern dual-action solution.

Key benefits:

- **5% Urea Hydrogen Peroxide** softens caked wax and breaks it down.
 - Releases oxygen, making wax easier to remove.
 - Helps avoid mechanical cleaning or irrigation.
- Relieves symptoms: blocked ear, pressure, dizziness, mild hearing loss.
- Clear, viscous solution ensures targeted action.

EAR CANDLES (PLUS & NATURAL)

Packaging: 2 candles per box

Traditional wellness ear care

Ear candles have been used for centuries in folk medicine for ear hygiene and relaxation. **Aurecon Candles** are made from natural cotton and beeswax.

Key benefits:

- Complements Aurecon Ear Drops for improved cleaning.
- Gentle, relaxing method to soften wax.
- Widely recognized as a wellness and spa ear-care solution.

The Global Ear Care Market

- **Ear problems are common and recurrent.** Millions worldwide suffer from cerumen plugs, infections, or discomfort.
- **Children are especially vulnerable.** After a cold or flu, inflammation often spreads to the ear. Untreated or poorly treated, this can become **chronic otitis media**, causing pain, sleep problems, and even hearing impairment.
- **Adults face complications too.** Upper respiratory infections, frequent flying, swimming, or using hearing aids can trigger ear blockages and secondary infections.
- **Consumers seek safe, non-invasive care.** Parents want gentle solutions for children; adults look for **preventive, natural, and trusted products** to avoid chronic ear conditions.

Gaps in Current Ear Care Solutions

- **Children's vulnerability is often ignored.** Many OTC ear products are unsuitable for babies and young children. Parents lack safe, natural, preservative-free solutions.
- **Chronic progression risk.** Without preventive care, minor colds or earwax accumulation can turn into painful, long-term ear conditions.
- **Adults under-treated.** Busy professionals often ignore early symptoms, leading to recurring ear infections or hearing loss.
- **Unsafe practices:** Cotton sticks push wax deeper, increasing risk of injury.

Why Aurecon Is Unique on the Market

Only complete ear-care line covering all major ear issues.

Natural wellness positioning - free from harsh preservatives, chemical solvents, or synthetic drugs.

Multiple formats (drops, sprays, candles) appeal to different preferences and retail channels.

Trustworthy Swiss heritage - developed and manufactured by Herb-Pharma AG, Zürich.
