ABOUT US

BUILT ON MANUFACTURING. DRIVEN BY INNOVATION.

WHO WE ARE

At Biodeal Pharmaceuticals Limited, we craft innovation through manufacturing excellence.

Since our inception in 2005, we've built our purpose around uniting R&D-led formulation expertise with world-class manufacturing capability for pharmaceutical clients and partners worldwide.

Our Nasal Spray, OSD & Topical facility in Himachal Pradesh is WHO-GMP & PIC/S certified. Our Injectable facility at Paonta Sahib is a USFDA-compliant, Grade A/B sterile facility with isolator-based aseptic filling, delivering global standards across vials, ampoules and pre-filled syringes.

Today, Biodeal partners with 1000+ pharmaceutical companies and continues expanding its global footprint across 80+ countries.

WHAT WE DO

Contract Manufacturing

Commercial manufacturing
with global quality

R&D and F&D

Innovative development
and new formulations

Technology Transfer

Seamless transfer of
technologies

Regulatory Excellence

Global regulatory expertise
for seamless market access

Custom Brand Solutions

Tailored brand innovation
built around client vision

Proprietary Brands

In-house brand portfolio
across all categories

INNOVATIONS

PIONEERING FORMULATIONS. PROVEN DIFFERENTIATION.

WHERE WE PIONEER

NASAL SPRAYS

One of India's largest dedicated nasal spray CDMOs, offering the widest assortment of nasal formulations - including newly developed and upcoming formulations, several of which are first-in-India.

DRY POWDER INHALERS

Pulmonary delivery expertise engineered for precise deposition of formulation directly into the lungs, extending our nasal delivery platform into inhalation therapy.

INJECTABLES

Manufactured on European-origin machinery in a dedicated carbapenem block, with regulatory approvals spanning the full carbapenem range.

NUTRACEUTICAL & HERBAL

Dedicated manufacturing block spanning Ayurvedic actives to science-backed global nutrition - from our own brands to advanced development in oral sprays.

LOCALITY

- Strategically Located in Nalagarh, Himachal Pradesh
- Eco-Friendly, Pollution-Free Belt

MACHINERY

- Fully automatized machine line with PLC
- Automatic online packing formulation with real time camera monitoring system

PRODUCTION

- 16 fully production lines
- Water purification system
- ERP-based production planning and batch traceability

AREA

- 5.52 Acres
- Total Build up area: 20918 Sqmt
