About Us

We “**Montage Laboratories Pvt. Ltd.**,” are one of the leading Pharmaceutical Formulation Manufacturers Company, operating from **Himatnagar, Gujarat, India**. It is a professionally well established company and has its own identity for quality products and services in the Pharma Industry.

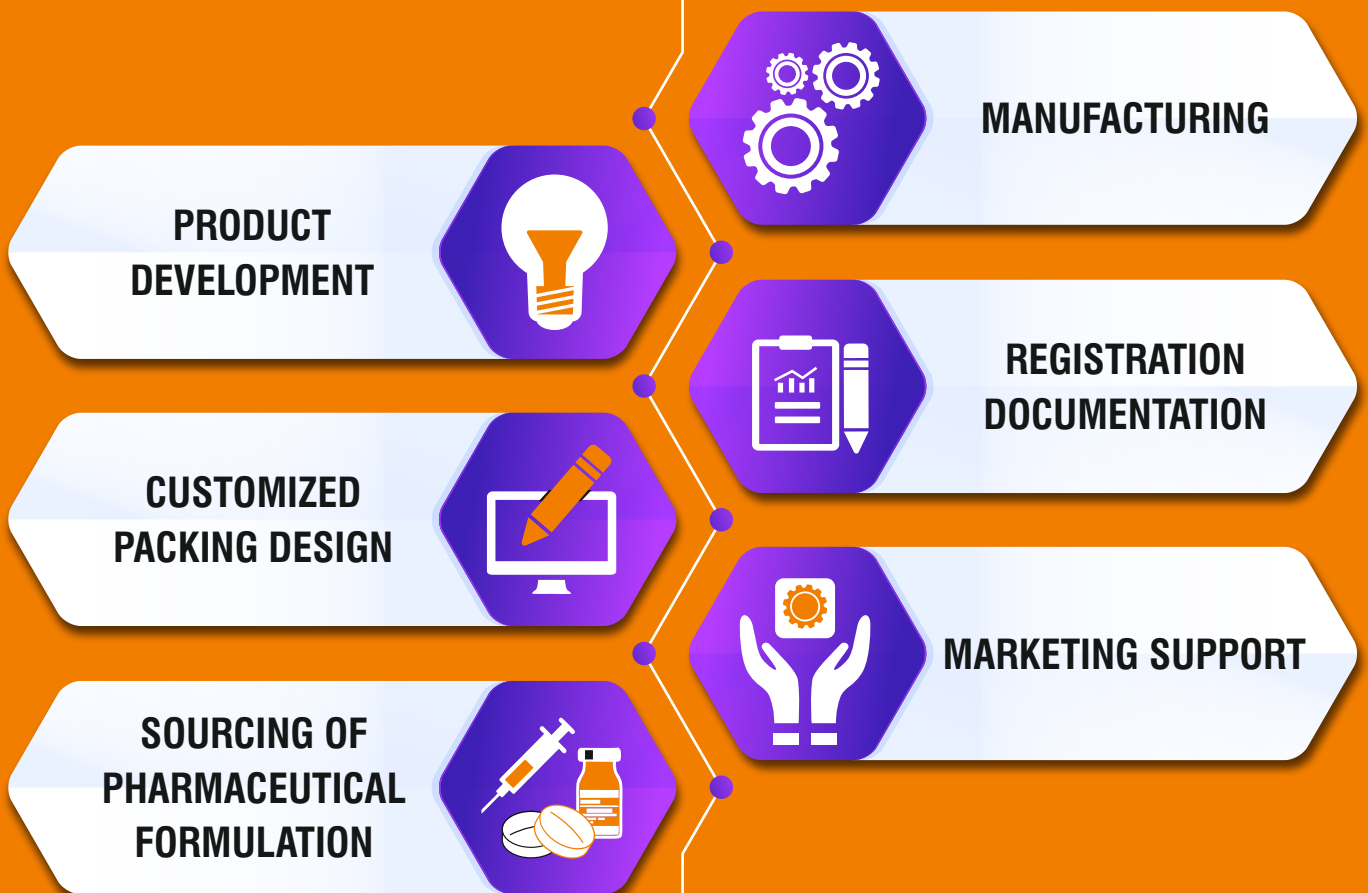

Montage means “A piece of work produced by combining smaller parts, or the process of making such a work”. Montage Laboratories strongly believes in building quality into the products with established quality systems with the help of a team of well-trained and technically qualified, competent & committed personnels.

Montage Laboratories established in 1991 and situated at **Himatnagar, Gujarat, India**. The plant is surrounded by greenery, reserved forest area, totally pollution free, and a highly hygienic area. We are proud to get identified as the unique pharmaceutical provider in injections and some other forms in global arena. With the commitment of “**Making Available Medicines at Affordable Prices**”. We have state-of-the-art, fully automated, ultra modern manufacturing unit in compliance with the latest cGMP guidelines, conforming to ISO 9001:2015 and D&B Certified Company.
