Our mission

Scan to connect with our experts.
Our scientists specialize in making connections. Start a conversation today and experience what it's like to work with a collaborative CDMO.

Cambrex is a leading global contract development and manufacturing organization (CDMO) that provides drug substance development and manufacturing across the entire drug lifecycle, as well as comprehensive analytical services.

With over 45 years of experience and a team of 2,000 experts servicing global clients from North America and Europe, Cambrex offers a range of specialized drug substance technologies and capabilities, including process development, continuous flow, controlled substances, peptide synthesis, solid-state science, biocatalysis, material characterization, complex synthetics, and highly potent APIs.

Drug Substance

From laboratory scale to commercial supply, our experts help solve the most complex API manufacturing challenges.

IND Enabling Services

- Custom API Development and Manufacturing
- Generic API Manufacturing
- Peptide Development and Manufacturing
- Reactor Design and Build
- Technology Transfer

Drug Product

From early formulation development to small-scale manufacturing, Cambrex delivers your complex dosage forms with expertise.

- Custom Development
- Custom Manufacturing
- Clinical Supply
- Pediatrics

Analytical Services

Trust our analytical development and testing experts to rapidly advance your molecule for the greatest chance of success.

- Analytical Testing
- Solid State Chemistry
- Microbiology
- Stability Storage
