Our mission

Scan to connect with our experts.

Our scientists specialize in making connections. Start a conversation today and experience what it's like to work with a collaborative CDMO.

Cambrex is a leading global contract development and manufacturing organization (CDMO) that provides drug substance development and manufacturing across the entire drug lifecycle, as well as comprehensive analytical and IND enabling services.

With over 40 years of experience and a team of 2,000 experts servicing global clients from North America and Europe, Cambrex offers a range of specialized drug substance technologies and capabilities, including continuous flow, controlled substances, liquid-phase peptide synthesis, solid-state science, material characterization, complex synthetics, and highly potent APIs.

Drug Substance

From laboratory scale to commercial supply, our experts help solve the most complex API manufacturing challenges.

IND Enabling Services

Custom API Development
Custom API Manufacturing
Generic API Manufacturing
Reactor Design and Build
Technology Transfer

Drug Product

From early formulation development to small-scale manufacturing, Cambrex delivers your complex dosage forms with expertise.
