

斯利安 SCRIANEN

Beijing Scrianen Pharmaceutical Co., Ltd.

API 原料药

Protamine Sulfate API

硫酸鱼精蛋白

- 1.Heparin Neutralization
- 2.Low-Molecular-Weight Heparin (LMWH) Reversal
- 3.Insulin Formulation Component
- 4.After renal dialysis or certain vascular procedures

Promestriene API

普罗雌烯

Promestriene is a synthetic estrogen-like compound used as a topical treatment for various vaginal conditions. It is often used to alleviate symptoms such as vaginal dryness, itching, and irritation, particularly in postmenopausal women.

China' s bestseller

Stable quality

China' s bestseller

Good crystal form

Chlorquinaldol API

氯喹那多

Chlorquinaldol works by inhibiting the growth of various pathogenic bacteria, fungi and protozoa, and is widely used in local anti-infective scenarios.

Professional source manufacturer

- 1.Gynecological vaginal infections
- 2.Local skin and mucosal antisepsis
- 3.Adjuvant anti-protozoal therapy

Industry benchmark

GMP Factory

Health Food 健康食品

DNA-Na Sodium DNA

DNA纳 鲑鱼精粉

DNA-Na = Sodium Deoxyribose nucleate, essentially the sodium salt of DNA.

- Brain health
- Cognitive nutrition

Salmon protamine peptides

鲑鱼精蛋白肽

DNA-nanotubes complexes with proteins.

- Protecting blood vessels
- Repair

- Supplement arginine (protecting blood vessels)
- Lysine (promoting growth)

Extracted protein peptides from the Sperm of wild salmon.

Salmon Protein Peptide 鲑鱼蛋白肽

Synthetic Biology Catalog 合成生物

PDRN

PDRN stands for Polydeoxyribonucleotide. It is a purified mixture of short DNA fragments (typically molecular weight 50–1,500 kDa) extracted from sperm cells of salmon.

Anti-inflammatory effects

Wound healing

Skin rejuvenation and anti-aging

Anti-inflammatory

(S)-Equol

S-雌马酚

Health Food: Alleviating menopausal symptoms in women—such as hot flashes and night sweats—improve bone density and relieve muscle soreness.

Cosmetics industry: A raw material to develop skincare products with antioxidant and anti-aging properties.

Sialic Acid

燕窝酸

Bird's nest acid is synonymous with sialic acid—scientifically known as N-acetylneuraminic acid.

Promotes Brain Development

improves Skin Condition

Boosts Immunity

Oat protein nano-iron

燕麦蛋白纳米铁

Oat protein nano-iron (oat protein nanofibril-iron hybrids) is a plant-based iron fortificant developed from oat protein nanofibrils that carry ultrasmall (sub-nanometer) iron nanoparticles, typically in highly bioavailable ferrous form.

Iron supplementation

Detoxification and liver protection
