

EXPERIENCE YOU CAN TRUST

Quality and Excellence in
Small Molecule API Manufacturing

APIs
for Generic
Market

With you every step of the way, bringing innovation

What we offer

We develop **proprietary chemical processes and alternative solutions** to support the **generic API industry**. You can rely on a true turnkey service where **commercially competitive products** are promptly conceived and manufactured in full compliance with third-party intellectual property rights. Along with **quality, confidentiality, safety** and the ability to **meet deadlines**, we integrate **comprehensive QA systems** and ensure **CGMP compliance**, confirmed by **successful inspections worldwide**. We also guarantee a **well-established and reliable supply chain**, thanks to multi-level supplier qualification and continuous risk mitigation **for your peace of mind**.

Our talent

Our know-how goes beyond technical skills, backed by **more than 75 years of experience in the field**. We understand the importance of having a **trusted partner** who can provide the right solutions and support your formulation team **to ensure a timely and successful launch**. We are proud to bring this know-how to our partners. **From the first gram in the lab to commercial scale-up and smooth technology transfer, we embed quality assurance and statistical process controls to secure batch-to-batch consistency**. Dedicated analytical methods, pre-formulation studies and particle size tuning further enhance our **ability to tailor each API to your formulation needs**. **We are with you every step of the way**.

Why you can trust us

As part of the global pharmaceutical industry, we serve human health and, therefore, operate under the highest standards of safety and quality. This commitment is confirmed by an extensive track record of **successful inspections by EU and US Health Authorities**, certifying the CGMP level of our production sites. We combine the right dimensions and scale capabilities to manage processes efficiently: **sizable and experienced enough to be solid, yet flexible and agile enough to adapt and promptly solve any challenge**. **With integrated quality assurance systems, robust risk management and proven reliability**, we provide the confidence our partners need across the entire API lifecycle.

Our products

Commercial products

- ◇ AMINOCAPROIC ACID
- ◇ AMITRIPTYLINE HCl
- ◇ BENSERAZIDE HCl
- ◇ BIPERIDEN HCl
- ◇ BUPROPION HCl
- ◇ CANDESARTAN CILEXETIL
- ◇ CYCLOBENZAPRINE HCl
- ◇ DAPSONE
- ◇ DEXLANSOPRAZOLE ANHYDROUS CRYSTALLINE
- ◇ DICLOFENAC POTASSIUM
- ◇ DICLOFENAC SODIUM
- ◇ DOTHIEPIN HCl (DOSULEPIN HCl)
- ◇ DOXEPIN HCl
- ◇ FESOTERODINE FUMARATE
- ◇ FEXOFENADINE HCl
- ◇ GLIBENCLAMIDE (GLYBURIDE)
- ◇ IBUPROFEN LYSINE SALT
- ◇ METARAMINOL*
- ◇ MINODRONIC ACID
- ◇ MODAFINIL
- ◇ NIFEDIPINE
- ◇ NORTRIPTYLINE HCl
- ◇ PIRFENIDONE
- ◇ PIROXICAM
- ◇ RUFINAMIDE
- ◇ SELEGILINE BASE*
- ◇ SELEGILINE HCl
- ◇ SODIUM PHENYLBUTYRATE
- ◇ TOLBUTAMIDE
- ◇ TRIAMTERENE
- ◇ ZONISAMIDE

Specialty Organic Nitrates

- ◇ ISOSORBIDE DINITRATE
blends with lactose; solutions in acetone or saline.
- ◇ ISOSORBIDE-5-MONONITRATE
pure, blends with lactose, Cellactose, talc, sucrose.
- ◇ NITROGLYCERINE
blends with lactose, mannitol, dextran; solutions in ethanol or propylene glycol.

Customized formulations can also be developed in close collaboration with our partners.

Bile Acids Derivatives

- ◇ CHENODEOXYCHOLIC ACID*
- ◇ CHOLIC ACID*
- ◇ GLYCOCHOLIC ACID
- ◇ TAUROURSODEOXYCHOLIC ACID
- ◇ URSODEOXYCHOLIC ACID

* only for specific markets

The information contained herein is the proprietary and confidential information of Dipharma Francis S.r.l. and its affiliates ("Dipharma"). Products protected by valid patents held by third parties are neither manufactured, nor offered for sale, nor marketed in jurisdictions where such activities would constitute patent infringing activity. Any references to such a product merely constitute an example of our technical manufacturing capabilities for Dipharma's exclusive synthesis services relating to the development of chemical processes for new and complex molecules and their exclusive manufacturing and, in any case, they should solely be intended for the purpose of carrying out studies, experimentation, manufacturing, and uses in order to obtain, also in foreign jurisdictions, marketing authorization relating to such products, with the exclusion of any uses for any other purposes. Accordingly, no information provided herein, including any references to any product or service, constitutes an offer of sale or should be construed as representing an offer of sale for any product. Specifically, nothing herein should be construed as promoting or advertising the sale or use of any product, if such sale or use infringes valid patents or is not authorized under applicable laws and regulations.

New products

Under evaluation/validation

- ◇ BUPROPION HBr
- ◇ CRISABOROLE
- ◇ DICLOFENAC EPOLAMINE
- ◇ EFINACONAZOLE
- ◇ ETRIPAMIL
- ◇ LETERMOVIR
- ◇ VORTIOXETINE HBr

Taking the API supply further

A history of more than **75 years** of proven **reliability**

All four sites harmonized with the highest international **CGMP Quality System** standards

Extensive positive track record of **inspections** by the main **Regulatory Agencies**

Full regulatory support, including **CEP and DMF filing worldwide**

Supply chain managed for **reliability, quality, risk mitigation and cost**

More than 250 patents filed to protect our innovation rights

Specializing in the **handling of hazardous processes**

Customizing particle size to match your formulation requirements

Providing pre-formulation and solubility data to strengthen FDF development

Core Technologies

- ✓ High-pressure hydrogenation*
- ✓ Nitration*
- ✓ Nitroesterification*
- ✓ Azide chemistry
- ✓ Bile acid derivatives
- ✓ Borane reductions
- ✓ Carbohydrate chemistry
- ✓ Cross-coupling reactions
- ✓ Curtius reaction
- ✓ Dissolving metal reduction
- ✓ Enantioselective reactions
- ✓ Enzymatic chemistry
- ✓ Epichlorohydrin chemistry
- ✓ Hoffman reaction
- ✓ Hydrogen peroxide oxidations
- ✓ Use of nitroalkanes (Henry reaction)
- ✓ Wolff-Kishner reduction

* Strategic cooperation with Biazzi SA, engineering sister company specializing in hazardous chemistry

Product Life Cycle Management

We oversee the entire Product Life Cycle with a continuous and structured approach: integrating innovation, compliance, supply chain and quality. Every step is supported by project management to guarantee consistency and reliability.
