

Contract Manufacturing Solutions

RESTRICTED

Did you know?

Bayer is doing Contract Manufacturing.

You will know Bayer as manufacturer of innovative high-quality API and drug products. But did you know that we offer as well Contract Manufacturing?

We invite you to discover our global API and Drug Product network.

Let us discuss how we can join forces and tailor solutions for your products.

Bayer is ready to help you develop and launch your product

Benefit from our long tradition in developing and manufacturing drug products

We know what it takes to bring your product to patients with innovative development and transfer concepts that build in quality-by-design, continuous improvement and innovation at every step.

We bring strong technology-transfer expertise to your product and offer **tailored manufacturing solutions** to complete production of your product.

*“At Bayer
we are passionate
to make a
difference for
patients.”*

Holger Weintritt
EVP Head Pharmaceuticals
Product Supply

You are looking for a CMO to manufacture your product?

There are many excellent reasons to partner with Bayer

Global manufacturing footprint

API production in Europe and Mexico

Quality in all we do

Launch capabilities

Supply chain solutions

Excellence in Technology

Local for local

Regulatory know how

Sustainability

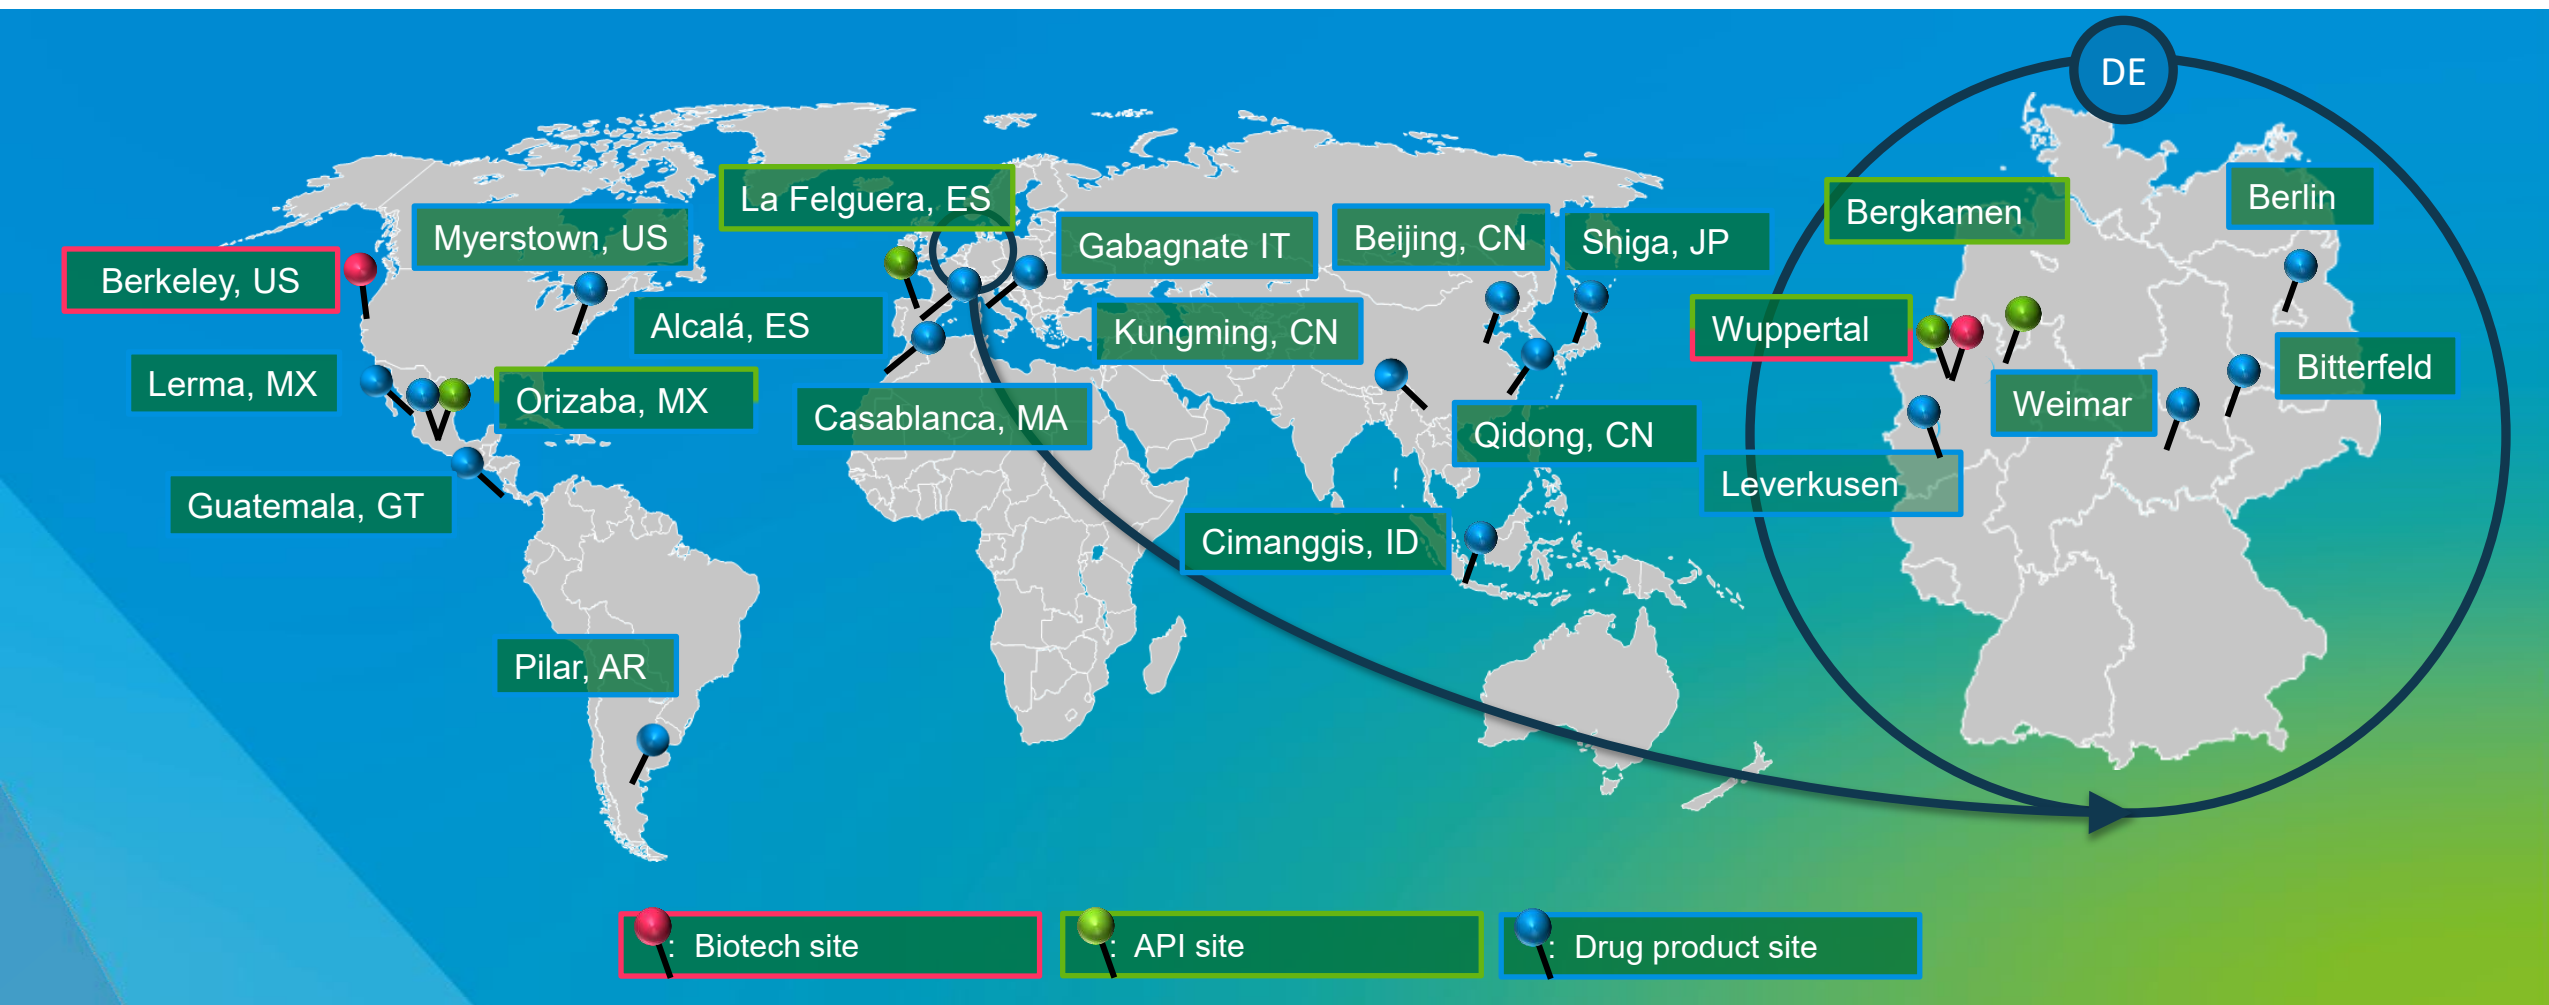

Broad network of suppliers

CMO services from 21 DP and API Manufacturing Sites globally

API and Drug Product Manufacturing Footprint of Pharma and Consumer Health Divisions

Are you looking for solutions to increase the resilience of your Supply Chain?

Bayer is offering the solution with state-of-the-art **API manufacturing** in Europe and Latin America

Experience the excellence of Bayer in API production

Chose Bayer if you are striving for innovation and sustainability

Bayer is dedicated to delivering **High Quality APIs** through a steadfast commitment to innovation and **Sustainability**.

With a **Production Footprint in Europe and Latin America**, our state-of-the-art facilities and advanced technologies ensure that we meet rigorous production standards and regulatory requirements.

Our **Team of experts** continuously explores new methods to improve production efficiency and product quality, ensuring that we remain at the forefront of the industry.

“Partner with Excellence in Manufacturing from a global network.”

Timo Flessner
SVP API Pharmaceuticals
Product Supply

Increase resilience of your supply chain
