

Opsonin Pharma Limited

Ideas for Healthcare

Opsonin Pharma Limited is dedicated to improve lives through quality healthcare since 1956. With great honor and pride, it unveils its State-of-Art manufacturing facility in Rupatali, Barishal, Bangladesh — an impressive 500-acre landmark that redefines excellence in pharmaceutical manufacturing across South Asia. Equipped with cutting-edge technology, world class infrastructure and advanced production systems, this facility stands as one of the most sophisticated drug manufacturing establishments in Bangladesh. As one of the nation's pioneering pharmaceutical companies, founded even before the independence of Bangladesh, Opsonin Pharma Limited continues its unwavering commitment to deliver affordable, high-quality medicines and promote a healthier future for all.

Key factors behind the remarkable milestone-

- A very strong product portfolio
- Having molecules from almost all therapeutic categories
- Fastest introduction of new molecules in the market
- Above all, we value our customers' enduring trust

Opsonin is committed to improve its position continuously as a leading pharmaceutical company in Bangladesh and outreach to global market.

Mission

Opsonin is morally driven to drive and deliver such medicines which accomplish human care from regular situational and emergency needs.

Opsonin creates value for its consumers and other stakeholders by providing highest quality healthcare solutions through appropriate application and development of resources and processes.
