

Skyepharma

More than a standard CDMO

Complex projects • Highly potent products •
Orphan drugs • Time-to-Market

About us

Skyepharma is a French independent and fully integrated CDMO specializing in complex oral solid dosage forms.

With over 25 years of expertise and the team of more than 200 professionals, we offer research and development, manufacturing and packaging services to pharmaceutical companies all over the world.

Our expert offer in complex OSD

SIMPLE & COMPLEX FORMULATION

One & multi-layer, mini-tabs, modified release, combo-API

SIMPLE & COMPLEX MOLECULE

High Potent API, oncology, immuno-modulation, controlled substances, thyroid hormones

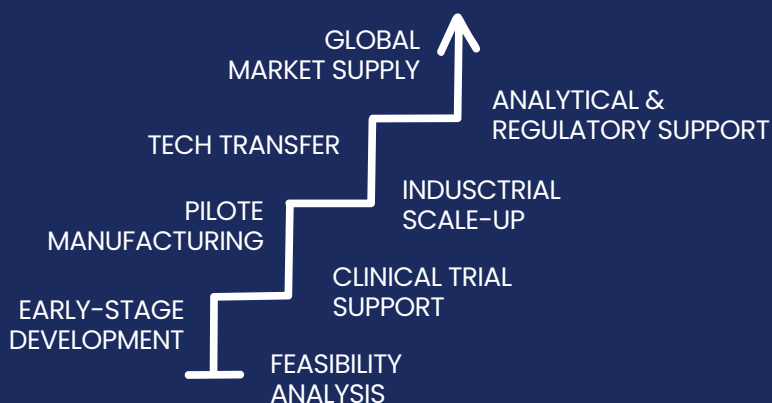

SIMPLE & COMPLEX SUPPLY CHAIN

Orphan drugs, rare diseases, clinical trial material, mass market supply, bright stock

OUR MISSION IS TO MAKE COMPLEXITY SIMPLE FOR YOU !

All-in-one CDMO services

From early-stage development to cGMP industrial manufacturing, we support pharmaceutical companies worldwide in bringing critical & innovative drugs to market, including controlled-release formulations, highly potent drugs (up to OEB 5), orphan drugs, and patient-centric solutions.

Regulatory compliance

WE ARE CAPABLE TO DELIVER IN MORE THAN 160 COUNTRIES

Early-stage development

Benefit from our extensive experience in solving complex OSD formulation and reformulation development challenges. Our experts will advise you on the best solutions to optimize drug delivery, assess feasibility risks, and ensure compliance with the current regulatory requirements.

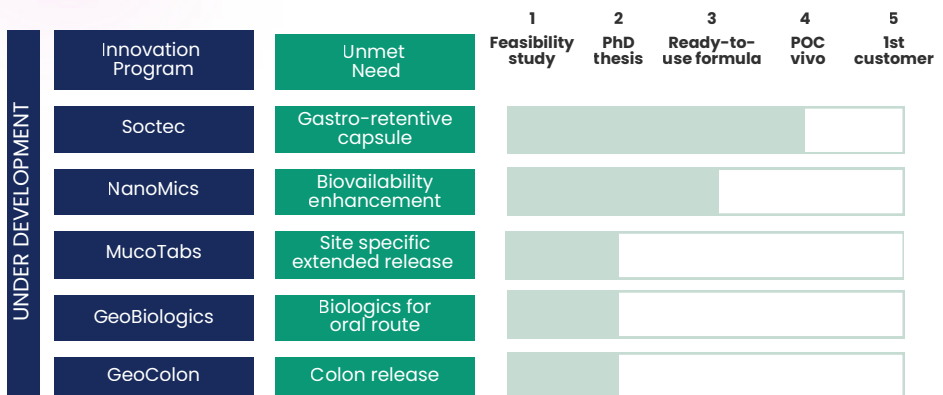

Our innovative drug delivery solutions

Geoclock

ON THE MARKET

**INNOVATION IS IN THE HEART OF OUR PATIENT
CENTRIC VISION**

Tailor-Made Manufacturing

Opt for our sophisticated manufacturing capacities for the production of all kind of classic and complex solid dosage forms : granules, tablets, powder, pellets and capsule filling. Each step of the process is controlled and carried out in compliance with highest quality standards.

Our capabilities

Standart tablets

- Uncoated / Coated tablets
- Single layer tablets
- Oral desintegrated tablets

Capsules

- Filled with tablets
- Filled with powder
- Filled with capsules

Complex tablets

- Chewable tablets
- Mini-tabs (2-4mm)
- Multi layer (bilayer, trilayer)
- Tab-in-tab

Granules

- Wet granulation: aqueous and organic
- Dry granulation: roller compaction

**Dry/Wet
Granulation**

Top spray

**Hot Melting
Extrusion**

**Direct
Compression**

**Aqueous & Organic
Coating**

**Microfluidization
High-Pressure Homogenization**

OPERATIONAL EXCELLENCE & COMPLIANCE AT EVERY STAGE !

Packaging

At Skyepharma, we specialize in tailor-made pharmaceutical packaging solutions for oral solid dosage forms, including bottles, blisters, and stick packs for mass-market products, as well as rare disease drug products through a dedicated packaging line.

Our full-service offering includes serialization and aggregation, sampling services, and clinical trial materials.

Our solutions

BOTTLE

Plastic and glass bottle
Cylindrical or square
All types of caps

- Width range from 18 to 90 mm
- Height range from 35 to 180 mm

100% visual counting & inspection

BLISTER

PVC, PVDC,
Triplex/Alu, Alu/Alu

- Blister length from 70 to 140 mm
- Blister width from 30 to 86 mm
- Depth up to 12 mm

100% visual counting & inspection

STICK-PACK

Filled with powder,
granules and pellets

- Adjustable blister length
- Blister width up to 32 mm

Possibility of preparing drug product **Bright Stock** for packing. Deferred secondary packaging on demand.

TAILOR-MADE PACKAGING LINES FOR SPECIAL NEEDS

More than usual CDMO services

Whether you are in the early stages of oral drug development, looking to optimize your portfolio, or seeking a manufacturing partner for rare and specialty drug products, our team of experts supports you through 4 clearly defined service offerings that set us apart from a traditional CDMO.

4 offers to unlock value

PROMISE

For mission-critical assets in Rare Disease and Specialty Pharma

- High potent OEB4-5
- Immuno / Onco / Endocrino
- Small batch & multi strength
- Flexible & secure packaging
- Fast-to-patient supply

INSIGHT

Don't just manage your portfolio, transform it

- 360° Portfolio review
- Identification of oral solid forms formulation-driven opportunities

BRIDGE

Pass from Animal to First-In-Man study with confidence

- Concept-to-industrialization study
- Technical feasibility & supply

API assessment, Tailored oral formulation, CMC risks anticipation, Prototyping

ExPAND

Don't just extend – ExPAND

Formulation-driven platform to create value and differentiation for mature APIs and products approaching generic erosion by leveraging regulatory pathways 505(b)(2), Article 10(3) and IP generation

Preclinical

Phase 1

Phase 2/Phase 3

Commercial

Lifecycle

FROM SECURE DEVELOPMENT PATHWAYS TO DIFFERENTIATED MEDICINES — POWERED BY FORMULATION
