# WE INNOVATE TO IMPROVE TOMORROW'S HEALTH

**Aora Health** is an **EU-based laboratory** that researches, develops, manufactures, and markets next generation nutraceuticals with a unique approach.

We **develop innovative and scientifically proven solutions** designed to complement and/or replace pharmaceutical drugs that are not able to solve the existing market requirements.

We **research**  
to create  
innovative  
solutions.

We **develop**  
scientifically  
tested  
products.

We  
**manufacture**  
with pharma  
standards.

We **market**  
globally.

We **conduct ongoing research** to identify **market alternatives** that enhance complementary therapies and provide solutions in cases where no suitable products exist.

At Aora, we also research to **develop accurate delivery technologies** to ensure the most effective product release target.

Our accomplishments are driven by our continuous collaboration with the scientific community.

We research  
to create  
innovative  
solutions.

DE VALÈNCIA

We **develop** **2**  
scientifically  
tested  
products.

We have established a **unique product development methodology**, allowing us to create innovative, high-quality nutraceuticals that are **scientifically supported** and **recommended by physicians**.

### 1. Bioactive molecules

We extract the active substances from the natural ingredients found all around us.

### 2. Action mechanism

We study how those molecules function and we measure the effect they cause in our bodies.

### 3. Standardization

Next step is to put them through standardization rules, to have complete control over their effects in our body and optimize our nutraceutical compounds.

### 4. Synergy

Inside one natural ingredient we can find multiple bioactive molecules, our team works in order to find synergies that help fighting pathologies from different angles simultaneously.

### 5. Strengthening

Due to our unique working methodology, we can fully enhance our final products; with a better bioavailability, increased absorption methods and steadier compounds.

### 6. Clinical studies

The final product is scientifically supported to be sold in the market with several *in vitro* and *in vivo* studies.

### Wide range of formats

At AORA Health, we manufacture nutraceuticals that are marketed in different formats: sticks, single capsule, capsule within a capsule, sachets.

### Best bioactive ingredients

We check that the concentration of these ingredients is adequate to ensure that they are combined in the exact and precise amount to achieve the desired effects.

### CAP in CAP

We have our own plant / manufacturing facility specialized in CAP in CAP technology that has the most advanced manufacturing and quality control technologies.

### Quality controls

Our plants / manufacturing facilities have the most strict quality control measures throughout the manufacturing process, from the raw material to the finished product.

### We have GMP

(Good Manufacturing Practices) certifications in the manufacture, packaging and distribution of food supplements.

### Raw materials

We ensure that raw materials meet the highest quality standards imposed by the European Union.

### ISO 9001:2015 Certification

Quality is one of the key points in AORA's activity. Since 2020 the company has had the ISO 9001:2015 certification in the quality management system, applied to the development of nutraceutical product.

We **manufacture** <sup>3</sup> with pharma standards.

We market globally.

4

We have a **world-class regulatory team** specializing in global product registration. This team, **together with the R&D department**, consistently demonstrates the ability to prepare comprehensive dossiers for even the most complex registrations, ensuring swift approval in any country worldwide.

Present in more than **40 markets**

Distributing more than **50 products**

PRODUCT CATALOGUE

# CAP IN CAP TECHNOLOGY

The **external capsule** releases ingredients inside the **stomach**

The **internal capsule** releases ingredients inside the **intestine**

NEW  
RELEASES

## CycleFem Duo - PMS and dysmenorrhea

### Indications:

Women experiencing menstrual disorders:  
Treatment of PMS symptoms and dysmenorrhea  
Coadjuvant of standard therapies, such as nonsteroidal anti-inflammatory drugs (NSAIDs), pain-killers or antidepressants.

### Format

30 Capsules  
(Double Capsule Intestine Release).

### Ingredients:

#### External Capsule:

FOS.  
*Bifidobacterium breve*.

#### Internal Capsule:

Dried Ginger extract.  
Vitex dry extract.  
Vitamin D.  
Vitamin B6.  
Magnesium.

## UcCol Duo - Ulcerative Colitis

### Indications:

Stand-alone or co-adjuvant treatment for patients in remission phase of ulcerative colitis.

### Format

20 Capsules  
(Double Capsule Intestine Release).

### Ingredients:

#### External Capsule:

*Bifidobacterium longum*.  
*Saccharomyces boulardii*.  
FOS.

#### Internal Capsule:

Dried Boswellia extract.  
Dried Black pepper extract.  
Vitamin D.  
Vitamin B12.

## Lacta Duo - Lactose intolerance

### Indications:

Lactose intolerant or lactose-sensitive population too:

- Helps lactose digestion.
- Manages gastrointestinal-associated symptoms.
- Balances gut microbiota.

### Format

30 Capsules  
(Double Capsule- Stomach-Intestine Release).

### Ingredients:

#### External Capsule:

Lactase.

#### Internal Capsule:

*Bifidobacterium longum*.  
FOS.

## LIVERMAX DUO - Fatty Liver

### Indications:

- For general population and menopausal women:
- +Prevention and treatment of non-alcoholic fatty liver disease (NAFLD).
  - +Prevention of progression to non-alcoholic steatohepatitis (NASH).
  - +Chronic inflammatory liver disease (hepatitis B and C)
  - +Increased medication intake.

### Format

30 Capsules  
(Double capsule - Intestine Release).

### Ingredients:

#### External Capsule:

*Lactobacillus reuteri*.  
Fructooligosaccharides.  
*Lactobacillus reuteri*  
(postbiotic)

#### Internal Capsule:

Choline.  
Vitamin B6.  
Zinc.  
*Silybum marianum*.

## PYLORIDUO - *Helicobacter Pylori* infection

### Indications:

- +Treatment of *H pylori* infection and associated symptoms such as gastritis and peptic ulcers.
- +Coadjuvant solution to triple standard treatment (antibiotic + PPIs).
- +Prevention of recurrence in antibiotic-resistant infections.

### Format

20 Capsules  
(Double Capsule - Stomach Release).

### Ingredients:

#### External Capsule:

*Lactobacillus rhamnosus*.

#### Internal Capsule:

Licorice extract.  
(*Glycyrrhiza glabra*).

# DIGESTIVE RANGE: ENZYMAX

- The optimal solution for indigestion problems
- Recommended for people with pancreatic enzymes deficiency problems and as alternative for pancreatin.
- Can be used as prophylactic to indigestion.

Smarter, more integrated and in higher concentrations than all other pharmaceutical alternatives.

**2 x** 

Capsule Inside Capsule

Targeted Delivery Method

 Stomach Release  
 Intestinal Release  
(Gastro-resistant)

Higher “enzymatic” concentration

Compared to pharmaceutical alternatives

**8 x** 

A complete enzyme presentation

8 types of digestive enzymes

With enzymes of non-animal origin.

- Regulatory Dossier.
- Clinical Studies.
- Stability Studies.
- Equivalence Studies.

## ENZYMAX FORTE

### Indications:

- + Exocrine pancreatic insufficiency (EPI).
- + Dyspepsia & indigestion symptoms.
- + IBS symptoms.

### Format

- 20 Capsules.
- Dual Release System (stomach and intestine).

### Ingredients:

- Lipase.
- Amylase.
- Glucoamylase
- Alpha-galactosidase.
- Proteolytic enzymes:
  - Protease 3.0.
  - Protease 4.5.
  - Neutral Protease.

## ENZYMAX DUOBOTICS

### Indications:

- + Pancreatic problems.
- + Dyspepsia & indigestion symptoms.
- + Crohn's disease symptoms.
- + IBS symptoms.
- + Restores intestinal flora.
- + Against diarrhoea (travel, antibiotic etc.).

### Format

- 20 Capsules.
- Dual Release System (stomach and intestine).

### Ingredients:

- Lipase.
- Amylase.
- Glucoamylase.
- Proteolytic enzymes:
  - Protease 4.5.
- Synbiotic:
  - *Lactobacillus plantarum*.
  - Prebiotic fiber (inulin).

## ENZYMAX LIPOFOOD FSMP

food for special medical purposes

### Indications:

- + For the dietary management of patients with exocrine pancreatic insufficiency.
- + With digestive enzymes, important for digestion and absorption of nutrients.

### Format

20 Capsules.  
Dual Release System (stomach and intestine).

## ENZYMAX ANTIGAS

### Indications:

- + Prevents gas produced by grains, vegetables and beans.
- + Pancreatic problems.
- + Dyspepsia & indigestion symptoms.

### Format

20 Capsules.  
Dual Release System (stomach and intestine).

### Ingredients:

External capsule:  
5 enzymes.

Internal capsule:  
7 enzymes.  
Vitamin A.  
Vitamin D.  
Vitamin E.  
Vitamin K1.

### Ingredients:

External capsule:  
Lipase.

Amylase.

Glucoamylase.

Proteolytic enzymes:

- Protease 4.5.

- Protease 3.0.

Internal capsule:  
Alpha-galactosidase.

## ENZYMAX STICKS

### Indications:

- + Dyspepsia and digestion problems.
- + Direct paediatric applications.
- + For children older than 3 years.

### Format

30 or 50 Sticks.

### Ingredients:

Lipase.  
Amylase.  
Glucoamylase.  
Protease 3.0.  
Protease 4.5.

## ENZYMAX REFLUX

### Indications:

- + Gastroesophageal reflux (GERD).
- + Dyspepsia.
- + Refractory antacid therapy.

### Format

30 Capsules (stomach release).

### Ingredients:

*Opuntia ficus.*  
*Olea europaea.*  
Digestive enzymes.  
Sodium alginate.  
Sodium carbonate.  
Calcium carbonate.

## ENZYMAX DIGEGLUTEN

### Indications:

- + Digestive problems caused by accidentally gluten intake in coeliac people.
- + Non-coeliac gluten intolerance

### Format

30 Capsules (stomach release).

### Ingredients:

Lipase.  
Amylase.  
Glucoamylase.  
Protease 3.0.  
Protease 4.5.  
Prolyl oligopeptidase.  
Calcium.

## ENZYMAX SINGLE

### Indications:

- + Pancreatic problems.
- + Dyspepsia & indigestion symptoms.
- + IBS symptoms.

### Format

30 Capsules (intestinal release).

### Ingredients:

Amylase.  
Lipase.  
Glucoamylase.  
Alpha-galactosidase.  
Proteolytic enzymes:  
-Protease 45.  
-Protease 6.0.  
-Neutral Protease.

# WOMEN'S HEALTH

- Covers most women-specific nutritional needs.
- Comfortable use.
- High bioavailability.

Complete product range designed especially for women.

Covers most of women's needs, including lactation and pregnancy

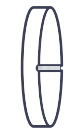

Higher bioavailability

Comfortable use

Alternatives  
tablets

Softgel  
capsules

+

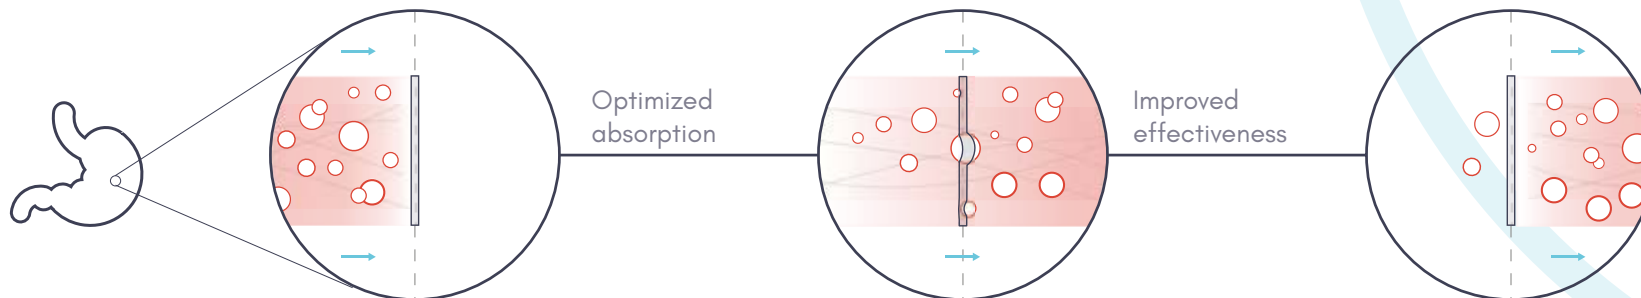

=

**AORA capsules**

All-in-one small capsule

Better taste  
Better digestibility  
Nausea free

- Regulatory Dossier.
- Clinical Studies.

- Stability Studies.
- Equivalence Studies.

Also available with Quatrefolic

## IRON MAX

### Effect:

- + Supplementation for iron deficiency.
- Attributes:
  - + Higher bioavailability than pharmaceutical alternatives.
  - + Tasteless and gentle on the stomach.
  - + Microencapsulated iron pyrophosphate.
  - + No interaction (oxidation) with fats nor vitamins.
  - + No colouring of mucosa nor faeces.

### Format

30 Capsules.

### Ingredients:

Iron.  
Folic acid.  
Vitamin C.

Also available with Quatrefolic

## PREGNAVIE COMPLETE

### Effect:

- + Contributes to the fetus cerebral development.
- + Helps cell multiplication and division.
- + Lowers risk of neural tube defects in the developing foetus.
- + Supply of iodine and iron.
- + Supply of lutein for visual and ocular development.

### Format

30 Capsules.

### Ingredients:

Fish Oil.  
- Omega 3, highly concentrated in DHA.  
Lutein.  
Minerals (7).  
Vitamins (12).

## CRANBIOTICS

### Effect:

- + Innovative targeted dual release solution for urinary tract and vaginal care.
- + Prevents harmful bacteria from attaching to inner lining of bladder wall.
- + Builds a healthy intestinal and vaginal bacteria flora.
- + Dual synergistic mechanisms of action.

### Format

20 Capsules.  
Dual Release System.

### Ingredients:

#### External Capsule:

Cranberry extract.  
Vitamin B complex.

#### Internal Capsule:

*Lactobacillus rhamnosus*  
*Lactobacillus acidophilus*

## AUXILIUM WOMEN

### Effect:

- + Improves fertility in women with difficulty conceiving.
- + Helps preconception, induces ovulation and the correct maturation of oocytes.
- + Improves fertility in women with polycystic ovarysyndrome (PCOS), normalizes ovulation and improves ovarian response.
- + Helps in the development of the embryo and prevents neural tube defects.
- + Adjuvant in in-vitro fertilization techniques.

### Format

30 Sticks.

### Ingredients:

Myoinositol.  
Minerals (5).  
Folic Acid.  
Arginine.  
Chasteberry.  
Vitamins (5).

# MEN HEALTH

## AUXILIUM MEN

### Effect:

- + Improves male reproductive and sexual functions.
- + Improves sperm health, including increased sperm mobility, ejaculative volume, count, speed and concentration.

### Format

30 Sticks.

### Ingredients:

- L-Carnitine.
- Arginine.
- Vitamins (6).
- Zinc.
- Coenzyme Q10.
- Acetyl Carnitine.
- N-Acetyl Cysteine.
- Selenium.
- Carotenoids (betacaroten).

## VITAPROST

### Effect:

- + Healthy prostate function.
- + Reduces bladder discomfort.
- + Healthy urinary flow.

### Format

30 Capsules.

### Ingredients:

- Saw palmetto extract.
- Pumpkin extract.
- Nettle extract.
- Tomato extract.
- Zinc.

# AFFRON<sup>®</sup> - CNS RANGE

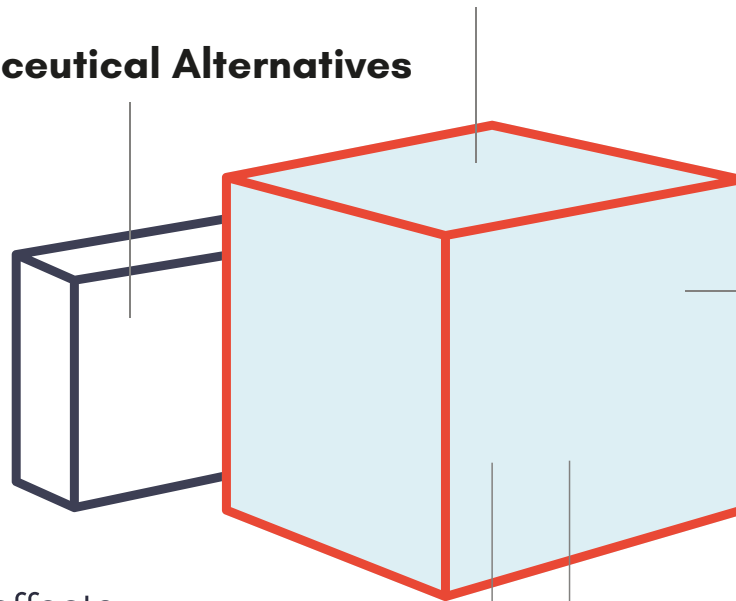

- Reduces stress and anxiety.
- Increases mental performance.
- Increases cognitive functions.
- Increases positive mood.

Superior to pharmaceutical alternatives available on the market.

## AFFRON Anti Stress

### Pharmaceutical Alternatives

Clinical Studies from High Impact Factor journals demonstrate product superiority

No side effects

Wide spectrum of impact

- Regulatory Dossier.
- Clinical Studies.

- Stability Studies.
- Bioequivalence Studies.

## AQAFFRON

### Effect:

- + Increases positive mood.
- + Reduces stress and anxiety.
- + Increases vigour.
- + Effective adjuvant therapy to antidepressants.
- + Recommended for young population over 12 years old.

### Format

30 Capsules.

## AQAFFRON FORTE

### Effect:

- +As a treatment for people experiencing:
  - +Low mood.
  - +Anxiety.
  - +Depressive disorder.
- +As a coadjuvant of pharmacological treatments for these diseases (always consult with your health-care provider).

### Format

20 Capsules (Double Capsule Stomach-Intestine Release).

## SAFRONAL

### Effect:

- + Help diabetic patients with diabetic neuropathy.
- + Helps reduce stress and anxiety in diabetic patients.

### Format

30 Capsules.

### Ingredients:

Affron®.  
Vitamin B6.  
Vitamin B12.  
Vitamin D.

### Ingredients:

<u>External Capsule:</u>	<u>Internal Capsule:</u>
Affron®.	<i>Bacillus breve.</i>
Vitamin C.	<i>Fructooligosacharides.</i>
Vitamin B6.	

### Ingredients:

Affron®.  
Vitamin B.  
Vitamin D.  
Alpha Lipoic Acid.

## AORA NIGHT

### Effect:

- + Increases positive mood.
- + Reduces stress and anxiety.
- + High in antioxidants for cell protection.
- + Better sleep: less interrupted and more restful sleep.

### Format

30 Capsules.

## AORA DAY

### Effect:

- + Increases positive mood.
- + Reduces stress and anxiety.
- + Increases vigour.
- + Increases cognitive performance.
- + High in antioxidants for cell protection.
- + Boosts energy.

### Format

30 Capsules.

### Ingredients:

Affron®.  
Melatonin.  
*Passiflora incarnate*.  
*Eschscholzia Californica*.  
Resveratrol.  
Superoxide Dismutase.  
Indian Gooseberry.  
Vitamin B6.

### Ingredients:

Affron®.  
Rhodiola.  
Withania.  
Resveratrol.  
Superoxide Dismutase.  
Indian Gooseberry.  
Magnesium.  
Vitamin B6.

# CARDIOVASCULAR

- Preventative effect of ischemia reperfusion injury on people with coronary risk factor.
- Reduces systolic blood pressure.
- Inhibition of cholesterol synthesis.

Clinically proven to protect the heart during an ischaemia reperfusion.

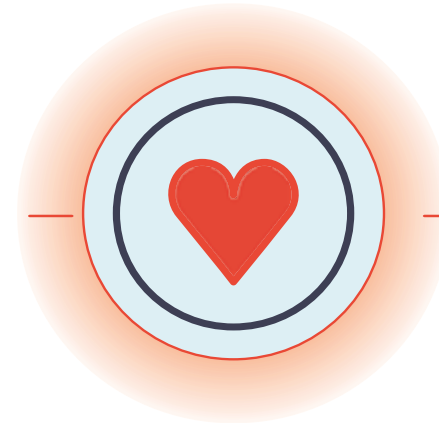

## PREVENTION

Before

Lowers blood pressure  
Lowers cholesterol  
Reduces risk of heart attack

## PROTECTION

Protects the heart during an ischaemia reperfusion

## RECOVERY

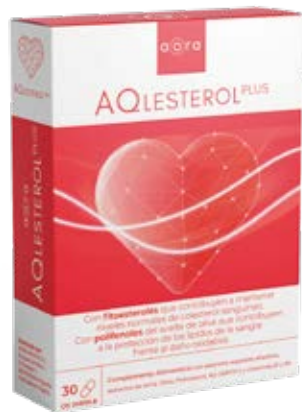

After

Faster recovery

No side effects

- Regulatory Dossier
- Clinical Studies
- Stability Studies
- Equivalence Studies

## AQLESTEROL PLUS

### Effect:

- + Cardioprotective effect.
- + Helps maintain normal cholesterol.
- + Antioxidant and anti-inflammatory effect.

### Format

30 Capsules.

### Ingredients:

Olive Extract.  
ABGIO+.  
Policosanol.  
Plant sterols.  
*Phyllanthus emblica*.  
Vitamins B.

# OPHTHALMOLOGY RANGE

## VITROAORA

### Effect:

+ Reduces and prevents vitreous floaters formation.

### Format

30 Capsules.

### Ingredients:

Vitis vinifera (grape seed) extract.  
Vitamin B2.  
Hesperidin.  
Selenium.  
L-lysine.  
Zinc.  
Vitamin C.

## RETIXTOP

### Effect:

+Extensive action in diabetic retinopathy.

### Format

30 Capsules.

### Ingredients:

Alfa Lipoic Acid LA.  
Rutosyde.  
Vitamin B1.  
Vitamin B2.

# OTHER CATEGORIES

## AORA AQACTIVE

### Effect:

- + Fast and lasting joint pain relief.
- + Increases and enhances motility, flexibility and performance.
- + Joint protection.
- + Natural, safe and clinically tested.

### Format

20 Capsules.

### Ingredients:

- Collagen type II.
- Vitamin D.
- Vitamin C.
- Manganese.
- Scutellaria extract.
- Acacia extract.

## SLIM UP

### Effect:

- + Weight loss.
- + Satiety enhancer.
- + Inhibition of carbohydrate absorption.
- + Fat burner.

### Format

60 Capsules.

### Ingredients:

- Glucomannan.
- Phaseolamin.
- Green Coffee.
- Chromium.
