vitizene

FOR VITILIGO

CLINICALLY-INSPIRED NATURAL SOLUTION

Vitiligo is a skin condition in which the pigment-producing cells are lost, causing **white patches to appear** on different areas of the skin.

Affects

1-2%

global population

(82 million and 164 million),
with onset usually before age 20.

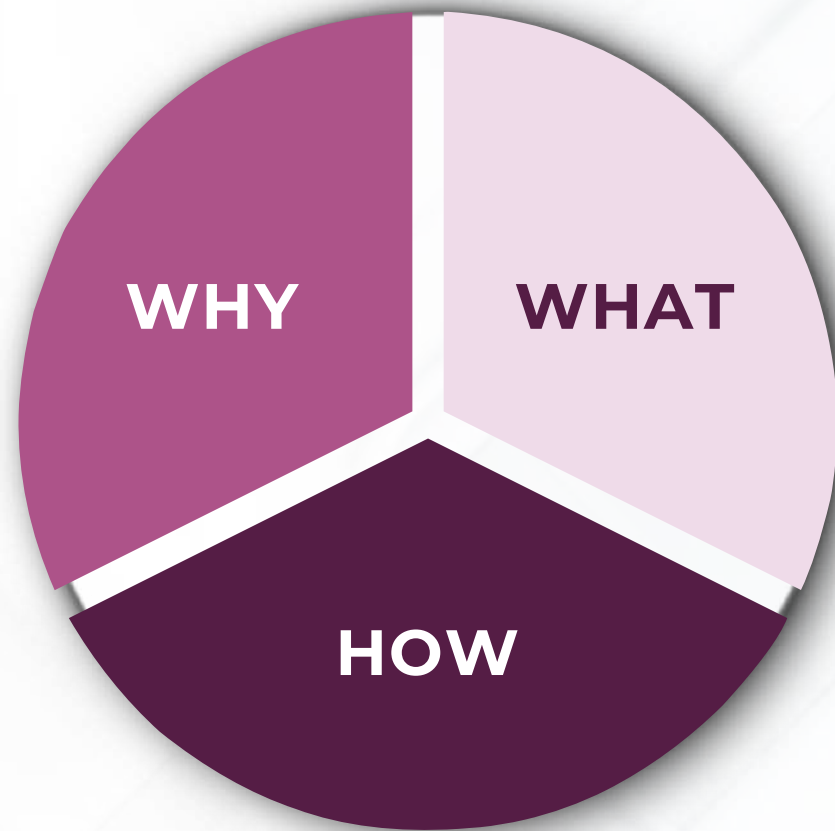

vitizene

FOR VITILIGO

CLINICALLY-INSPIRED NATURAL SOLUTION

Visible
Repigmentation,
Safe & **non-steroidal**,
Enhances **Melanin**
production

Phytoactive **repigmentation**
therapy, stimulates
melanocyte activity,
restores natural skin tone

Helps **reduce oxidative stress** and **support melanin**
production, aiding **gradual repigmentation** of the skin.

50g Gel

30 Tablet Bottle

- 1 Tablet daily for 3 Months
- Apply a thin layer on the affected area 2-3 times a day
- Duration: 3 Months

vitizene

FOR VITILIGO

CLINICALLY-INSPIRED NATURAL SOLUTION

COLEUS FORSKOHLII

Contains **Forskolin** - activates the cAMP pathway to **boost melanin production** and support repigmentation.

WHITE CURCUMIN

Contains **Tetrahydrocurcumin** - **reduces oxidative stress and inflammation**, protecting melanocytes and supporting stable repigmentation.

PSORALEA CORYLIFOLIA

Contains **Psoralen** - activates melanocytes under sunlight, **enhancing melanin formation** and supporting repigmentation.

VITIZENE GEL

Triple-Action Formula

Melanocyte
Activation

Melanogenic Boost

Protection

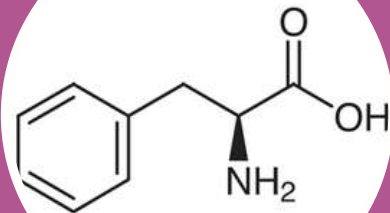

vitizene

FOR VITILIGO

CLINICALLY-INSPIRED NATURAL SOLUTION

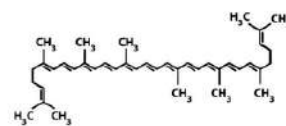

L-PHENYLALANINE

Precursor for **melanin** synthesis and supports melanocyte activity.

GRAPE SEED EXTRACT

Contains **Oligomeric Proanthocyanidins** - Offers strong **antioxidant and anti inflammatory support** to improve melanocyte survival.

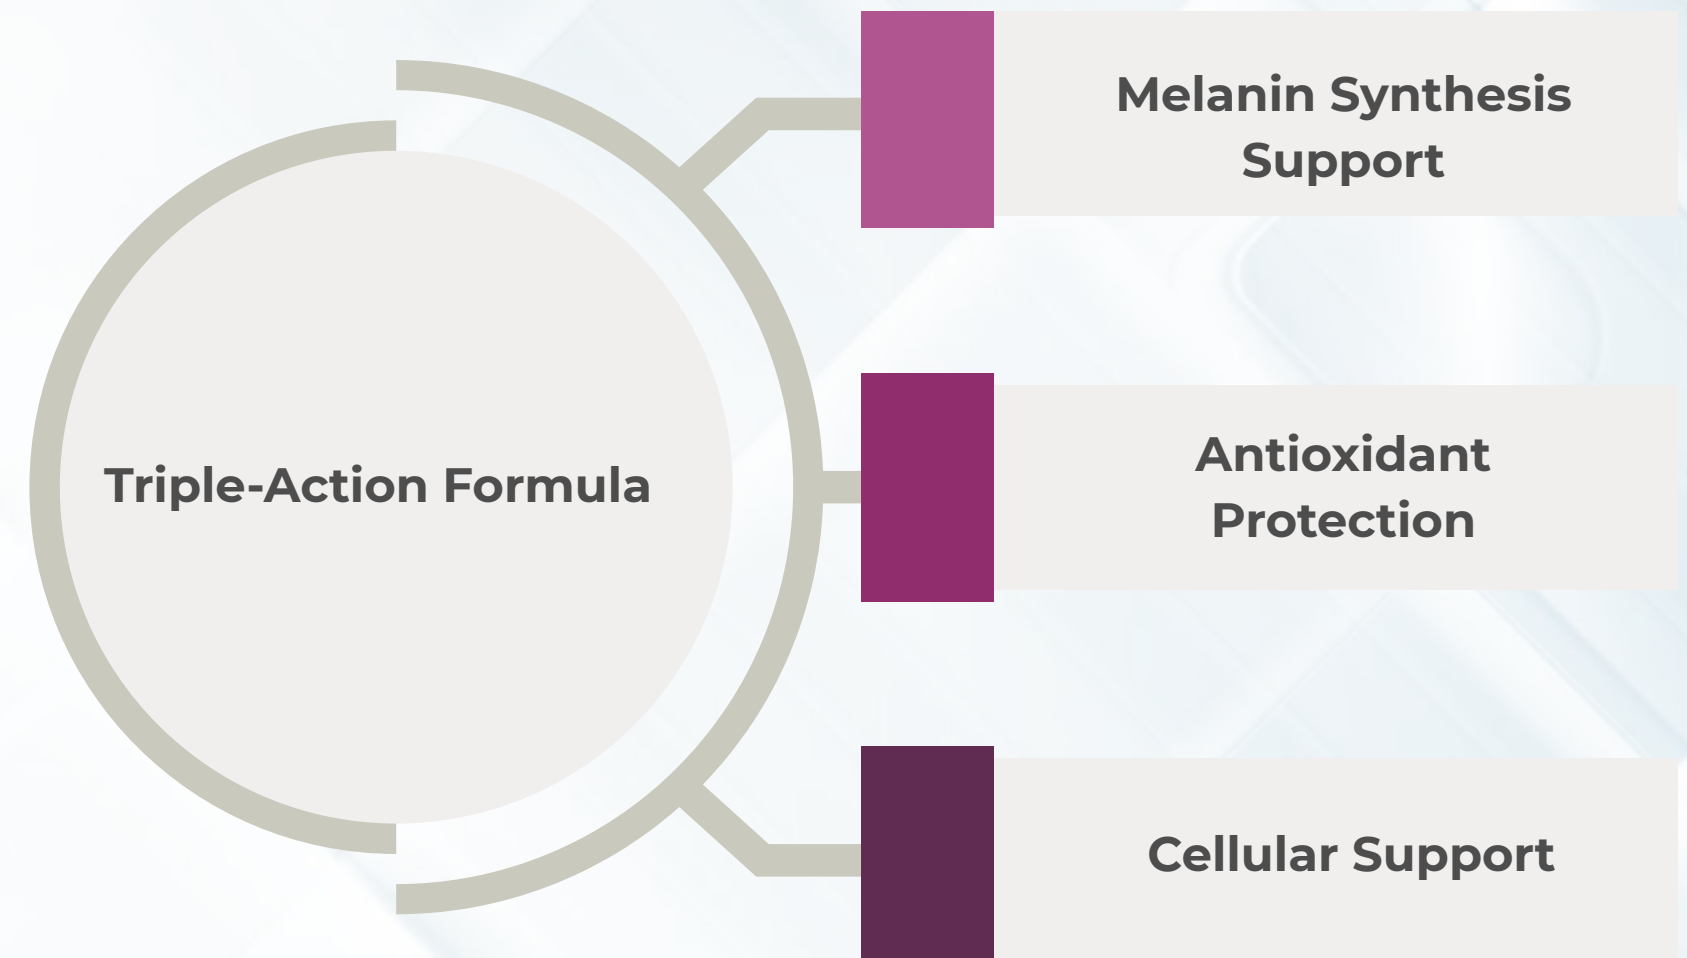

LYCOPENE

Acts as a **potent antioxidant** that protects melanocytes from oxidative damage.
