The
Journey
Started in
1994

Growing from being a family owned business into the largest private Saudi pharmaceutical company

With a strong belief in the power of advanced science to provide people with the best healthcare options, Tabuk Pharmaceuticals was founded in 1994 in Riyadh, The Kingdom of Saudi Arabia.

Over the years Tabuk Pharmaceuticals grew from being a family-owned business to one of the largest Saudi Pharmaceutical Companies.

Tabuk Pharmaceuticals operates in 17 countries in the Middle East and Africa, supported by four active manufacturing sites (in KSA, Algeria and Sudan) and over 2,500 employees.

Diversified business models and services in the pharmaceutical field

Business models

- Developing and marketing a wide range of branded generic and under-licensed products in various dosage forms.
- Manufacturing high-quality products at sterile and non-sterile cephalosporin and non-cephalosporin plants.
- Distributing pharmaceutical products in 17 countries in Middle East and Africa.

Services

- Manufacturing products for Multinational companies and partners at our manufacturing sites in Saudi Arabia.
- Out licensing some of Tabuk's products to local, regional and International partners.

Algeria
manufacturing site

Tabuk manufacturing site

- Located 15 Km away from Tabuk city in the north west region of Saudi Arabia.
- The total site area is 100,000 m². The facility covers an area of over 25,000 m².
- Wide range of dosage forms and products including oral solids, dry oral suspensions, oral syrups, injectables, semi-solids (creams, ointments, lotions, & shampoos), and nasal sprays.
- Advanced technologies implemented such as aseptic manufacturing and pellet coating.

Dammam manufacturing site

- Located in the 2nd Industrial Zone, Dammam city in Saudi Arabia.
- Land space is around 14,000 m² and the total built floor area is 17,000 m².
- Dedicated floor for general sterile injectables.
- Best in class automated and systemized machineries across all stages of manufacturing processes.
- Wide range of dosage forms including lyophilized vials, liquid vials, ampoules, oral liquids, nasal sprays, liquids and semisolids.

Sudan manufacturing site

- Located in Khartoum North industrial area in Sudan.
- Land space is around 8,500 m² and the total built floor area is 6,500 m².
- Wide range of oral dosage forms including liquid syrups, powder oral suspensions, tablets and capsules.

Algeria manufacturing site

- Located in Blida city in Algeria.
- Land space is around 6,200 m² with a facility area of 3000 m².
- Currently manufacturing oral solid dosage forms, with a future expansion plan to include wider range of dosage forms.

A potential partner in the Middle East & Africa

- Strong local operational infrastructure and expertise across Middle East and Africa markets.
- Sustained growth trajectory.
- High investment in infrastructure, product development, brand building and human capital across Middle East and Africa.
- Unrivaled registration, market penetration and launch performance.
- Fully owned subsidiary of Astra Industrial Group (AIG), a publicly traded company on the Saudi stock exchange, which provides extensive financing options to fund our growth.
- Uncompromising quality and business ethics.
