

unolab

Growing together

The global CDMO of reference
for the **development**
and **manufacturing of**
sterile unit-dose

We are a Global CDMO

**Specialized in
the production of
unit-dose packaging.**
Using blow-fill seal
technology
(BFS Bottelpack®).

188 employees

10.000 m² built area

18 years of
experience

550M doses

8 production Lines;
Bottelpack® Technology

4 continents

8 different
molds (to 0,2 to 10 ml)

Advanced technology BFS Bottelpack®

Sterile unit-dose

Ophthalmics
Respiratory
Others

From Clinical Batches to large-scale productions.

Manufacturing of sterile solutions, from 0,2 ml to 10 ml.

With a deep scope:
pharmaceutical, Medical devices, cosmetics and others.

With multiples advantages:
preservative free, easy application, optimal dosage,
convenient size and traceability.
