

CROCO

Uniquely developed
IN EUROPE

About us

CROCO, A European company with two headquarters in Portugal and Malta, with a vision that transcends borders, we expanded our footprint by strengthening our presence in the European and Mediterranean markets.

CROCO has established itself as a trusted name in the development and distribution of premium pharmaceutical supplements and medical devices.

Our dual-base operations allow us to combine Portugal's rich heritage of craftsmanship and quality with Malta's strategic location and dynamic business environment.

Together, we ensure that every product meets the highest international standards, empowering healthier lives.

CROCO

To improve quality of life by delivering safe, effective, and scientifically proven pharmaceutical supplements with age-appropriate nutrients. We are committed to innovation, uncompromising quality, and customer trust, ensuring our products meet the highest international standards while addressing diverse health needs across global markets.

To be a leading European name in pharmaceutical supplements, recognized for our scientific expertise, innovative formulations, and dedication to advancing health and wellness worldwide. We aspire to bridge the gap between science and everyday health, empowering people to live healthier, more vibrant lives.

CROCO
Teething
Family

- 📌 **Teething** is the process where a baby's first teeth emerge through the gums, typically starting around 4 months of age, but can vary.
- 📌 It can cause discomfort and irritability, with symptoms like inflammation of the gingiva overlying the tooth, gum irritation, drooling, chewing on objects, sore gums, and a slight increase in temperature.
- 📌 While it's a normal developmental stage, there are ways to help soothe a teething baby naturally without using FDA prohibited ingredients .

CROCO

Croco Teething Gel is designed to ease pain, calm inflammation, and comfort oral irritations during teething and using gentle, natural ingredients

Key Ingredients:

Aloe Vera: Anti-inflammatory and Antibacterial ,Soothes and reduces gum redness and swelling

Hyaluronic Acid: Hydrates and supports tissue repair

Chamomile Extract: Calms and relieves discomfort naturally

Indications:

- Gum inflammation (e.g., gingivitis)
- Oral ulcers, abrasions from pacifiers or toys
- Teething-related discomfort

Age range:

Infants and young children

Dosage& Direction:

Apply a small amount to the gums 2–3 times daily

Use after meals or before bedtime

Wait 30 minutes before feeding for full effect

Packaging:

Oral Gel | 25 g Tube

Croco Lesion Oral Gel delivers quick, targeted relief for painful mouth ulcers, gum inflammation, and minor oral abrasions. Designed for children and adults, its soothing blend of botanical and clinical actives helps heal and protect sensitive areas—without harsh ingredients.

Key Ingredients

Propolis: Antibacterial, wound-healing agent; promotes gum and lesion recovery

Aloe Vera: Soothes mucosa and calms redness

Hyaluronic Acid: Hydrates and helps tissue regenerate

Chamomile: Gentle anti-inflammatory for oral comfort

Indications

- 📍 Mouth ulcers (aphthous stomatitis)
- 📍 Gum inflammation
- 📍 Small oral injuries (e.g., braces, trauma)

Age range:

Children & Adults

Dosage & Direction:

Apply directly to the affected area. Use 3–4 times daily.
Wait 30 mins before eating or drinking

Packaging:

Oral Gel | 15 g Tube

CROCO

Croco Lesion Oral Spray is designed to comfort and protect sore areas in the mouth, whether from ulcers, inflammation, or orthodontic irritation. Its natural, fast-acting formula is crafted for safe use across all ages.

Key Ingredients

Propolis: Anti-inflammatory & Antifungal, which forms a healing barrier and reduces inflammation.

Aloe Vera: Soothes irritation and calms sensitive tissues.

Hyaluronic Acid: Hydrates and accelerates tissue repair.

Chamomile Extract: Gently relieves pain and discomfort.

Indications

📍 Mouth ulcers (aphthous stomatitis), Gingival inflammation, Oral abrasions from braces, retainers, or minor injury

Age range:

Children and adults.

Dosage & Direction:

Spray directly onto the affected area 3–4 times daily.

Use after meals or before bedtime.

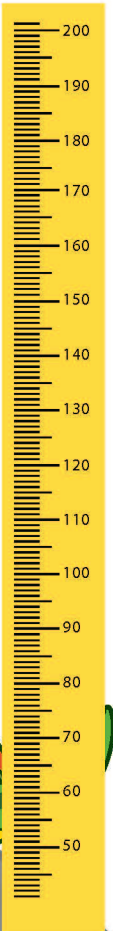

Wait 30 minutes before eating or drinking for the best results.

Packaging:

Oral Spray | 15 ml Bottle.

CROCO

CROCO

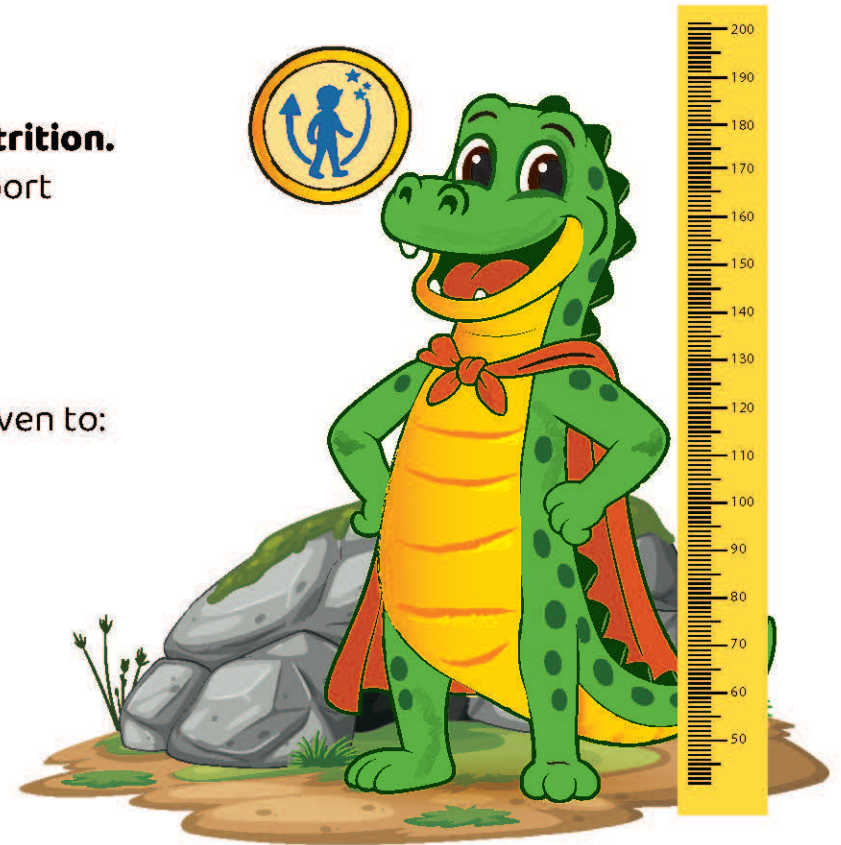

Behind every child's growth is more than genetics; there's smart nutrition.

Croco TALL is not just another multivitamin. It's a targeted growth-support formula rooted in pediatric nutritional science

🌱 engineered to optimize height potential, skeletal strength, and tissue development during a child's critical growth windows.

Croco TALL features L-Arginine, a clinically researched amino acid proven to:

- 🌱 Stimulate natural **growth hormone (GH) secretion**
- 🌱 Promote collagen and protein synthesis
- 🌱 Enhance vascular flow to growth plates and developing tissues
- 🌱 Support cellular repair and bone mineralization

This intelligent growth formula is specially designed to support height, strength, and cognitive development during the most critical years.

Key Ingredients

L-Arginine: Stimulates natural Growth Hormone production and promotes protein synthesis for bones and muscles

Omega-3 Fatty Acids: Boost brain development, focus, and emotional well-being

Calcium: Builds strong bones and teeth; essential for skeletal structure

Vitamin D3: Enhances calcium absorption and bone mineralization

Zinc : supports cell proliferation and bone development

Indications:

 Helps promote height and bone strength

Age Range:

From 1Y to 12Y

Dosage& Direction:

Take 10 ml once daily

Packaging Format:

Syrup | 250 ml bottle

Ingredient
Fish Oil
EPA
DHA
L-Arginine

CROCO
D3 Family

CROCO

Vitamin D3 is essential for healthy growth in children, promoting optimal calcium absorption, strong bone development, and immune system support—laying the foundation for lifelong health.

The synergistic combination of Vitamin D3, Vitamin K2, and DHA plays a crucial role in early childhood development.

Vitamin D3 supports calcium absorption, Vitamin K2 directs calcium into bones and teeth, while DHA contributes to optimal brain and visual development.

Together, they provide comprehensive support for building strong skeletal health and enhancing cognitive potential in children.

CROCO

Croco D3 Drops is a unique blend of Vitamin D3 and natural Vitamin K2, specially designed to support healthy bone growth, calcium metabolism, and immune balance in infants.

Key Ingredients:

Vitamin D3 (Cholecalciferol): Enhances calcium absorption for strong bones and teeth.

Vitamin K2 (MK-7): Activates proteins to guide calcium to the right places—bones, not arteries

Indications:

🍷 Prophylaxis and treatment of Vitamin D deficiency and rickets

Age range:

Infants aged 0M to 2Y

Dosage & Direction:

Take 1 ml once daily, or as directed by a pediatrician

Packaging Format:

Oral Drops | 30 ml Bottle

Composition (per 1 ml)
Ingredient
Vitamin D3
Vitamin K2

Croco D3 DHA Drops is a targeted neonatal formula that delivers essential nutrients for cognitive development, visual acuity, and skeletal growth. Featuring Omega-3 fatty acids (DHA & EPA), Vitamin D3, and natural Vitamin K2, it supports strong foundations for a bright, healthy future.

Key Ingredients

Omega-3 Fatty Acids (DHA & EPA): Polyunsaturated fats are crucial for brain function, eye health, and immune support

Vitamin D3 (Cholecalciferol): Enhances calcium absorption and supports bone formation

Vitamin K2 (MK-7): Guides calcium to bones and teeth, working synergistically with Vitamin D3

Indications

- 📍 Vitamin D deficiency
- 📍 Supports brain and visual development
- 📍 Strengthens the immune system
- 📍 Ensures proper skeletal and muscular growth

Age range:

Infants aged 0M to 1Y

Dosage & Direction:

Take 1 ml once daily, or as directed by a pediatrician

Packaging Format:

Oral Drops | 30 ml Bottle

Composition (per 1 ml)

Ingredient

EPA

Croco DHA Syrup is a uniquely designed formula enriched with Vitamin D3, natural Vitamin K2, Omega-3 fatty acids (DHA & EPA), and Calcium. This powerful blend supports optimal bone health, cognitive development, and immune resilience in children—building strength from within throughout childhood.

Key Ingredients

Vitamin D3 (Cholecalciferol): Aids calcium absorption to support strong bones and teeth

Vitamin K2 (MK-7): Works with D3 to guide calcium to skeletal and dental structures

Omega-3 Fatty Acids (DHA & EPA): Vital for brain development, visual sharpness, and immune support

Indications

- 🍷 Vitamin D deficiency
- 🍷 Improves bone density and development
- 🍷 Supports immune system function
- 🍷 Boosts brain and eye development
- 🍷 Ensures proper muscular and skeletal growth

Age range:

Age 1Y–5Y: Take 5 ml once daily

Age 5Y–14Y: Take 10 ml once daily or as directed by a healthcare professional

CROCO

CROCO

Croco Bones is a bone-health powerhouse formulated for children in their foundational years. It combines Calcium, Vitamin D3, and Magnesium to promote optimal bone development, prevent deficiency, and support lifelong mobility. A gentle but effective shield against future fragility.

Calcium is the body's most abundant mineral, stored mainly in bones and teeth to ensure strength and structure. It's vital for muscle movement and nerve communication between the brain and body.

Deficiency can lead to osteopenia or osteoporosis, increasing the risk of broken bones and reduced mobility

Key Ingredients:

Calcium: Essential for building bones and teeth; ensures structural integrity

Vitamin D3: Facilitates calcium absorption; supports bone mineralization and immune balance

Vitamin K2: Synergizes with D3 to guide calcium into bones and teeth; aids muscle development

Indication:

- 🌿 Promotes bone health during early growth
- 🌿 Helps prevent calcium deficiency in infancy
- 🌿 Supports healthy teeth and skeletal muscle formation

Age Range:

From birth (OM) to 3 years

Dosage & Direction:

OM to 1Y: 1 ml once daily

1Y to 3Y: 2 ml once daily Or as prescribed by a pediatric healthcare professional

Packaging Format:

Oral Drops | 30 ml bottle

Composition (per 2 ml)

Ingredient
Calcium
Vitamin D3
Vitamin K2

Key Ingredients:

Calcium: Builds and maintains bone structure and density

Vitamin D3 (Cholecalciferol): Boosts calcium absorption and supports skeletal formation

Vitamin K2 (MK-7): Guides calcium into bones and teeth; supports muscular development

Magnesium: Enhances calcium utilization and contributes to bone flexibility

Indication:

- Improves bone health and growth in children
- Helps prevent calcium deficiency and posture-related fatigue
- Supports strong teeth and skeletal muscle development

Age Range:

Children aged above 3 years

Dosage & Direction:

Take 10 ml once daily, or as directed by a healthcare professional

Fer

CROCO

The **Croco Fer Group** presents a pediatric-friendly iron series tailored to support healthy development in growing children, while addressing iron deficiency with maximum efficacy and minimal side effects.

Crafted with **SunActive® Iron**, each product in the group delivers enhanced bioavailability, taste tolerance, and gastrointestinal comfort—making iron supplementation a more welcome part of every child's wellness journey. From red blood cell formation to mental clarity and muscle strength

What Makes Croco Fer Unique?

SunActive® Iron Technology: Microencapsulated iron for superior absorption and reduced GI irritation

Child-Centric Formulation: Designed for taste, texture, and easy digestion

Flexible Delivery Formats: Drops, syrup, and gummies to suit varied ages and preferences

Clinical Focus: Addresses iron deficiency anemia with improved compliance and minimal side effects

Who It's For

Children with diagnosed or at-risk iron deficiency anemia.

Kids with low energy, pale complexion, or poor appetite.

Caregivers seeking gentle and effective iron supplements.

Pediatricians and nutritionists aligned with progressive supplementation practices.

Key Ingredients

SunActive® Iron: Supports red blood cell formation; minimizes GI discomfort

Vitamin C: Boosts iron absorption for maximum bioavailability

Indications:

- 🌿 Supports rapid growth and development in early childhood
- 🌿 Treats and prevents iron deficiency anemia

Age Range:

From 3 months to 5 years

Dosage & Direction:

3M to 6M: 1 ml once daily

7M to 5Y: 2 ml once daily Or
as directed by a pediatrician

CROCO

CROCO
Colic

CROCO

Croco Colic is a common condition affecting many infants, typically characterized by prolonged, intense periods of crying and discomfort, often without any apparent cause.

Colic is believed to result from factors such as digestive discomfort, gas, or sensitivity in the developing digestive system. While it is not harmful to the baby's long-term health, it can cause considerable stress for both the infants and their parents.

Dietary supplements designed for infants with colic can play a supportive role by targeting digestive comfort and promoting a calm environment.

Key ingredients in these supplements may aid in digestion, alleviate gas, and soothe the gut, providing relief from the common symptoms of colic.

Key Ingredients

Linden: Gentle sedative and calming agent.

Chamomile: Anti-inflammatory, antispasmodic, carminative.

Elderberry: Antioxidant, immune support, mild relaxant.

Indications:

- 🌿 Promotes digestive comfort and gut tranquility
- 🌿 Alleviates gas and bloating caused by air swallowing or food sensitivity
- 🌿 Helps break up intestinal gas bubbles to ease fussiness

Age Range:

From birth to 2 years

Dosage & Direction:

3 ml once indicated,
or as advised by a pediatrician

Packaging Format:

Oral Drops 30 ML

Ingredient
Glycerinated Elderberry Extract
Glycerinated Chamomile Extract

CROCO

Croco Royal is a premium pediatric wellness formula based on the natural strength of Royal Jelly—a nutrient-rich compound traditionally known for its energizing and immune-boosting properties. From infancy through early school years, **Croco Royal** supports holistic growth by enhancing appetite, accelerating cognitive development, and reinforcing the immune system.

Royal Jelly Benefits

For Infants (0M+):

Encourages weight gain and healthy appetite
Helps develop immune system resilience during early stages

For School-Age Children:

Boosts brainpower, cognition, focus, and memory function
Elevates energy levels for learning and play
Continues to strengthen immune defense

Indications

- 🍯 Low appetite or sluggish weight gain
- 🍯 Fatigue or poor concentration in early childhood
- 🍯 Nutritional reinforcement during high-growth periods

CROCO

Key Ingredients

Royal Jelly : Enhances immunity, supports appetite and energy

Caffeine : Stimulates alertness and mental energy

Choline : Supports memory and brain development

Vitamin B complex : supports nerve function, energy metabolism and brain development

Indications:

- Improve memory & cognition
- Natural Appetizer
- Immune support

CROCO

Child's immune system is a dynamic defense network—protecting them against germs, toxins, and daily challenges.

But this natural shield needs daily fuel. A balanced diet with essential nutrients like proteins, omega-3 fats, and immune-supporting vitamins is key to keeping the system strong and responsive.

Croco's Immunity Health line is designed to fill the nutritional gaps that real life often creates. Whether it's **picky eating, frequent illness, or rapid growth**, our formulas deliver targeted support to help children stay active, resilient, and ready to thrive.

Key Ingredients:

Vitamin D3: Regulates immune cells, enhances antiviral responses, and supports bone development

Lactoferrin: A natural defense protein that helps protect against harmful bacteria, viruses, and fungi while supporting gut and immune health

Zinc: A vital mineral for healthy growth, tissue repair, and immune regulation

Indications:

- 👉 Promotes immune system development in infants
- 👉 Supports general wellness during neonatal and early infancy stages

Age Range:

From birth (0 M) to 1 year

CROCO Respiratory

CROCO

The Croco Respiratory Range is a specialized group of products designed to support respiratory health for children and infants.

This range harnesses the power of natural extracts and advanced formulations to provide relief from common respiratory issues such as throat irritation, nasal congestion, dryness, and cough.

Each product in the range is carefully crafted to meet the unique needs of young children, offering effective solutions while ensuring safety and comfort.

Key Ingredients

N-Acetyl L-Cysteine: Breaks down mucus, improves airway clarity

Ivy Dry Extract: Soothes cough, facilitates expectoration.

Zinc: Enhances immune function, fights respiratory pathogens.

Indications

- Treats cough with phlegm and chest tightness
- Acts as a powerful mucolytic to relieve respiratory congestion
- Supports immune health during respiratory challenges

Age Range

Children & Adult

Dosage & Direction:

0.5 ml / day by max 20 ml /day

CROCO Good Night Family

CROCO

Croco Good Night

Sleep is essential for infants' rapid development, fueling everything from brain maturation to physical growth. In the earliest months of life, sleep patterns are often irregular.

Why Infant Sleep Matters

Brain Development: Extended REM sleep supports learning, memory, and behavioral regulation

Physical Growth: Sleep fuels cellular repair and hormonal balance critical for growth

Behavioral Regulation: Good sleep promotes reduced fussiness, improved feeding, and general wellness

Sleep Irregularities: Frequent awakenings, noisy breathing, and posture-related issues may signal underlying sleep concerns, such as mild apnea

Croco Good Night Objectives

Promote restful sleep and relaxation in newborns and infants

Support neural and physical development through regulated sleep cycles

Provide gentle botanical and nutritional support for nighttime comfort

Assist parents in managing irregular infant sleep with safe, natural support

Croco Good Night Spray delivers a gentle, scientifically backed blend of calming nutrients and botanicals designed to improve sleep quality in infants during their most rapid growth phase.

Indications:

- Help the body to be more relaxed.
- Improves sleep quality Acts as a sedative.

Age Range:

0 months to 2 years.

Mint Oil

CROCO

Croco Good Night Gel +2 is a topical aromatic blend formulated for children aged 2 years and above. Harnessing the natural benefits of essential oils, it delivers a refreshing and gently warming experience that supports clear breathing and relaxation—ideal for use during colds, congestion, or restless evenings.

Indications:

- 🌿 Supports breathing comfort during upper respiratory challenges
- 🌿 Provides gentle warmth and relaxation at bedtime or during seasonal changes
- 🌿 Helps create a calming environment through soothing scents.

Age Range:

From 2 years and older

Dosage & Direction:

Apply a thin layer on the chest and nape of the neck

Use 2 to 3 times daily, especially before sleep or during congestion episodes

Avoid direct contact with mucous membranes or broken skin

Packaging Format

Gel | 50 g tube

Topical application only

Ingredient

Eucalyptus Oil

Lavender Oil

Menthol

Mint Oil

Croco Bath Oil is a soothing aromatic blend formulated for newborns and infants from the first day of life. Designed to transform bath time into a calming ritual, its natural oils gently cleanse, moisturize, and relax while strengthening the skin's protective barrier.

Indications:

- Can be used from birth onward (excluding premature babies)
- Delivers a cleansing and relaxing aroma for bedtime calm
- Non-irritating and dermatologically gentle on infant skin
- Spreads easily in warm water for even, safe distribution
- Free from terpenes (camphor, menthol, eucalyptol)
- Composition

Age Range:

From 0 months (excluding premature babies)

Dosage & Direction:

Add 1–2 screw-caps to a warm bath
Stir well by hand to distribute evenly
Avoid contact with eyes; rinse with clean water if needed
Use caution—bath surface may become slippery

Packaging Format:

Bath Oil 125 ml bottle

Ingredient
Sunflower Oil
Soybean Oil
Grape Seed Oil
Olive Oil
Vitamin E
Vitamin A & C
Natural Scents

Croco Zinc is formulated to support the foundational health needs of growing children. Zinc plays an essential role in immune defense, cellular development, bone formation, and appetite regulation.

Why Zinc Matters

Gut Health : Zinc is used to treat diarrhea in children because it helps repair the intestinal barrier, and reduce fluid loss, which shortens the duration and severity

Immune Protection: Supports the immune system and reduce the frequency of mild upper respiratory infections

Cellular Growth & Differentiation: Zinc enables cell division and maturation, fueling healthy tissue and organ development

Cartilage & Bone Development: Promotes collagen formation for strong bones and healthy joints

Nutrient Metabolism: Vital for digesting and absorbing carbohydrates, fats, and proteins

Healthy Appetite: Maintains appetite and nutritional intake during crucial growth phases

Target Users

Those prone to frequent colds or mild infections

Growing toddlers needing extra bone and immune support

Post-illness recovery where appetite and healing are priorities

CROCO

Key Ingredients

Zinc: Has anti-diarrheal effect.

Vitamin C: has anti-diarrheal activity via its antioxidant property.

Indications:

- 📍 In Cases of Diarrhea.
- 📍 It has immune functions so it is used in cases of the common cold for children.
