

Dastex

The Cleanroom Contamination Control Experts.

Our look into the future

After decades at the forefront of cleanroom solutions, we are taking the next step under the umbrella of Riverside Europe Partners GmbH: Together with **pure11, Vita Verita, AET and CRTM**, we are creating Europe's most innovative platform for cleanroom contamination control experts. Our synergies set new standards and shape the future of cleanroom contamination control.

Our goal: Innovative solutions that meet the highest requirements for quality, safety and sustainability.

With passion and expertise, we offer standard and custom-made cleanroom products and support our customers in the most effective way to do an excellent work.

Mission, Vision & Values

Dastex is a European platform of cleanroom experts. We aim to be the leading expert in cleanroom contamination control. We want to deliver best in class, sustainable, and innovative solutions to our clients, providing them with high-quality products being their trusted partner. We strive to offer unique solutions that empower our clients to achieve excellence.

Quality: We stand for the highest standards.

Passion: Innovation drives us.

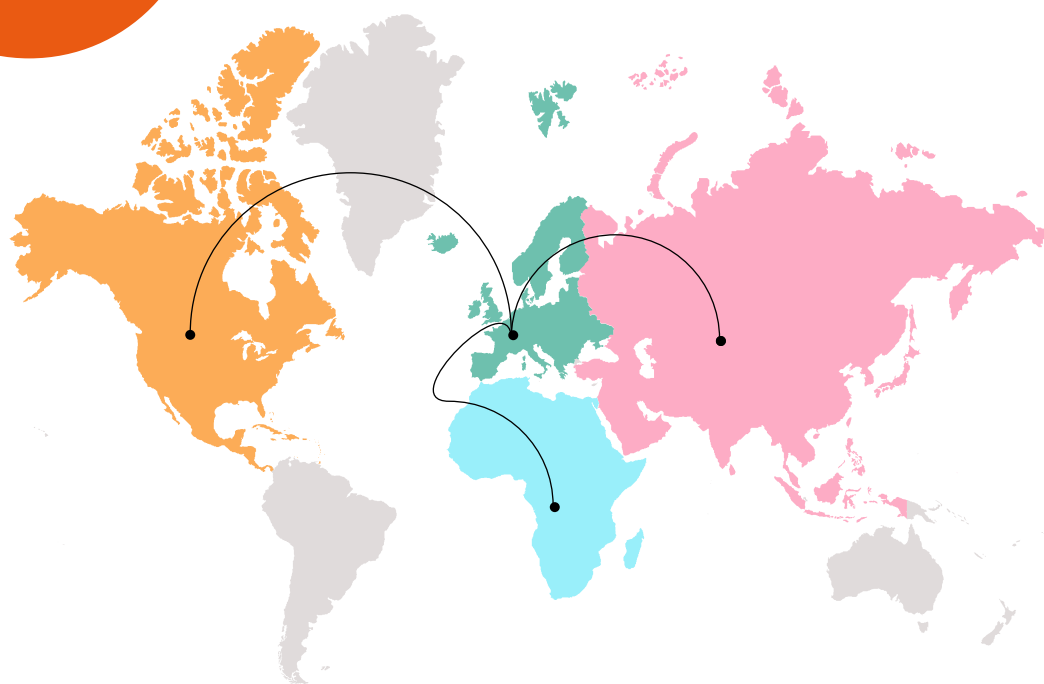

Respect: The focus is on people and the environment.

Integrity: Our actions are based on reliability and responsibility.

Sustainability: We are shaping the future in a way that conserves resources.

Dastex, the Cleanroom Contamination Control Experts

Why Choose Dastex?

With over 45 years of experience, we possess the highest level of professional expertise and knowledge in cleanroom contamination control technology. Our strong international network makes us a reliable partner in this field. As a service-oriented company, we offer a wide range of solutions, products, and services. We are working closely with our clients from concept to completion.

Our values:

- **Quality:** We adhere to the highest standards. Our products are designed to minimize risks in sensitive environments such as pharmaceutical and biotech facilities. Strict quality controls ensure durability, which helps reduce maintenance and replacement costs.
- **Passion:** Innovation is at the heart of what we do. We integrate the latest technologies and collaborate with our customers to develop cutting-edge solutions. Our commitment to continuous research ensures that our technologies are future-proof.
- **Respect:** We prioritize the well-being of people and the environment. We value respectful partnerships and focus on sustainable, resource-saving production practices.
- **Integrity:** Reliability and responsibility are our guiding principles. We are committed to providing high-quality products, on-time delivery, and ethical business practices to ensure effective solutions.
- **Sustainability:** We are dedicated to shaping a sustainable future. Our eco-friendly products save resources, reduce costs, and extend lifespans, benefiting both our customers and the environment.

Experience the future of cleanroom contamination control technology with Dastex at your side!
