

EXPERIENCE YOU CAN TRUST

Achieving your goals more
easily, safely and rapidly.

APIs

for Generic
Market

With you every step of the way, bringing innovation

What we offer

We develop **proprietary chemical processes and alternative solutions** to support the generic API industry.

You can rely on a true turnkey service where **commercially competitive products** are promptly conceived and manufactured in full compliance with third-party intellectual property rights.

Along with **quality, confidentiality, safety** and the ability to meet deadlines, **we ensure a well-established and reliable supply chain for your peace of mind.**

Our talent

Our collaboration extends beyond technical skills with **more than 75 years of experience** in the field. We realise how valuable it is for you **to rely on a trusted partner** to propose the right solution and support your formulation team for a **successful launch that respects the timeline.**

This talent is, for us, a matter of pride. **We are with you every step of the way**, from the first gram in the Lab until the commercial launch.

Why you can trust us

As part of the global pharmaceutical industry, we serve human health and, therefore, operate under **the highest standards of safety and quality.** This is confirmed by an extensive list of **successful inspections run by EU and US Health Authorities** certifying the cGMP level of our production sites.

We have the right dimensions and several scale capabilities **to manage processes efficiently:** sizable and experienced enough to be solid, but flexible and agile enough **to promptly solve any challenge** in the life of the project.

Taking the API supply further

More than 40 commercially APIs

A history of more than **75 years** of constant **reliability**

All four sites governed by the strictest **cGMP Quality System**

Extensive positive track record of **inspections** by the main **Regulatory Agencies**

Experience in **filing DMF** worldwide

More than 250 patents filed to protect our innovation rights

Specializing in the **handling of hazardous process**

Customizing particle size to match your formulation requirements

Providing pre-formulation and solubility data to enhance the API proposal

Core Technologies

- ✓ High-pressure hydrogenation*
- ✓ Nitration*
- ✓ Nitroesterification*
- ✓ Azide chemistry
- ✓ Borane reductions
- ✓ Cholane derivatives chemistry
- ✓ Carbohydrate chemistry
- ✓ Cross-coupling reactions
- ✓ Curtius reaction reduction
- ✓ Dissolving metal
- ✓ Enantioselective reactions
- ✓ Enzymatic chemistry
- ✓ Epichlorohydrin chemistry
- ✓ Hoffman reaction
- ✓ Hydrogen peroxide oxidations
- ✓ Use of nitroalkanes (Henry reaction)
- ✓ Wolff-Kishner reduction

* Strategic cooperation with Biazzi SA, engineering sister company specializing in hazardous chemistry

Our products

Commercial products

- ◇ AMINOCAPROIC ACID
- ◇ AMITRIPTYLINE HCl
- ◇ BIPERIDEN HCl
- ◇ BUPROPION HCl
- ◇ CANDESARTAN CILEXETIL
- ◇ CHENODEOXYCHOLIC ACID*
- ◇ CYCLOBENZAPRINE HCl
- ◇ DAPSONE
- ◇ DEXLANSOPRAZOLE ANHYDROUS CRYSTALLINE
- ◇ DICLOFENAC POTASSIUM
- ◇ DICLOFENAC SODIUM
- ◇ DOTHIEPIN HCl (DOSULEPIN HCl)
- ◇ DOXEPIN HCl
- ◇ FESOTERODINE FUMARATE
- ◇ FEXOFENADINE HCl
- ◇ GLIBENCLAMIDE (GLYBURIDE)
- ◇ GLYCOCHOLIC ACID
- ◇ IBUPROFEN LYSINE SALT
- ◇ ISOSORBIDE DINITRATE
- ◇ ISOSORBIDE-5-MONONITRATE
- ◇ METARAMINOL*
- ◇ MINODRONIC ACID
- ◇ MODAFINIL
- ◇ NIFEDIPINE
- ◇ NITROGLYCERINE
- ◇ NORTRIPTYLINE HCl
- ◇ PIRFENIDONE
- ◇ PIROXICAM
- ◇ RUFINAMIDE
- ◇ SELEGILINE BASE*
- ◇ SELEGILINE HCl
- ◇ SODIUM PHENYL BUTYRATE
- ◇ TAUROURSODEOXYCHOLIC ACID
- ◇ TOLBUTAMIDE
- ◇ TRIAMTERENE
- ◇ URSODEOXYCHOLIC ACID
- ◇ ZONISAMIDE

New products

Already validated/under validation

- ◇ BENSERAZIDE HCl
- ◇ CHOLIC ACID
- ◇ CRISABOROLE
- ◇ DICLOFENAC EPOLAMINE
- ◇ EFINACONAZOLE
- ◇ VORTIOXETINE HBr

* only for specific markets

The information contained herein is the proprietary and confidential information of Dipharma Francis S.r.l. and its affiliates ("Dipharma"). Products protected by valid patents held by third parties are neither manufactured, nor offered for sale, nor marketed in jurisdictions where such activities would constitute patent infringing activity. Any references to such a product merely constitute an example of our technical manufacturing capabilities for Dipharma's exclusive synthesis services relating to the development of chemical processes for new and complex molecules and their exclusive manufacturing and, in any case, they should solely be intended for the purpose of carrying out studies, experimentation, manufacturing, and uses in order to obtain, also in foreign jurisdictions, marketing authorization relating to such products, with the exclusion of any uses for any other purposes. Accordingly, no information provided herein, including any references to any product or service, constitutes an offer of sale or should be construed as representing an offer of sale for any product. Specifically, nothing herein should be construed as promoting or advertising the sale or use of any product, if such sale or use infringes valid patents or is not authorized under applicable laws and regulations.

Our team in action

How to develop an innovative, successful and cost-competitive API for Generic

PROCESS RESEARCH

Selecting a non-infringing and cost-effective process by **combining technological innovation with our experience.**

PROCESS DEVELOPMENT

Defining and investigating key process parameters including a **complete safety** and **calorimetric assessment**. Securing the **protection of IP rights.**

SUPPLY CHAIN EVALUATION

Suppliers for the main raw materials are identified and selected based on **reliability, quality, geographical risk mitigation and cost competitiveness.**

ANALYTICAL RESEARCH

In order to guarantee the highest quality, **dedicated analytical methods are developed in-house** to characterize products and intermediates.

PROCESS INDUSTRIALIZATION

R&D coordinates process scaling-up to commercial scale batch validation, **ensuring a complete and smooth transfer** to the production teams.

REGULATORY SUPPORT

Full regulatory support is available, including CEP or DMF filing in almost all countries worldwide.

A STEP FORWARD

Pre-formulation trial with excipient, solubility studies in different solvents and particle size adjustment, move our API a step forward.
