Promote Public Health Worldwide

- We are committed to patient-centered innovation, ensuring that patients receive the best possible treatment in a safe environment.
- We have pioneered an all-in-one KIT (UK injection kit) in Korea that innovatively reduces the risk of in-house infections that can occur during the mixing of injections and fluids.
- We are committed to leading the market in providing high-quality medicines that ensure the best possible outcome for every patient.

Finished Product

UK Inj. Kit(UK Full Kit)

UK Inj. KIT is the first safety injection device(RTU: Ready-To-Use) developed to minimize the risk of infection through aseptic preparation with a closed-system formulation in south Korea

- **[Safety]** Prevention of bacterial contamination and contamination of foreign substances during preparation
- **[Convenience]** Reduced dispensing time by up to 50% compared to conventional IV injection method.

UK Half Kit

UK Half Kit is a kit-type injection product developed to enhance safety and convenience when preparing injections.

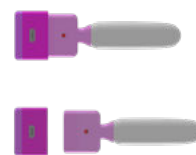

- **[Convenience]** Applicable to various types of vial injections

Medical Device

We develop and supply innovative personal medical devices for the qualitative improvement of daily human life, especially for the treatment and improvement of urogenital diseases in women and men of the middle age. All functions are operated through mobile device, and personal information is safely managed in mobile device.

KEGEL-Q prevents and improves urinary incontinence, and enhances sexual vitality through voluntary and involuntary exercise of uterine muscles. It can be utilized to maintain a healthy uterus through ultraviolet irradiation and special drug spraying into uterus as needed.

R&D pipeline

Ozanimod	S1P receptor modulator - MS(Multifol Sclerosis)
Tigecycline	Glycylcycline Antibiotics
Upadacitinib	Janus kinase (JAK) inhibitors
Antibody-Drug Conjugates (ADC)	Targeted Anti-cancer drug
GalNAc-Drug Conjugates (GDC)	Liver Targeted Anti-cancer drug

Formulation development pipeline

Pipeline	Formulations	Products
Injection KIT	IR-IV	Pain/Inflammation
	IR-IV complexes	Total Parenteral Nutrition / NSAID complexes
Oral Solid Dosage Form	ER-GI	Extended-release NSAIDs
	Generic & Modified-release drug	Gastrointestinal Disease / Obesity / Others
Prefilled Syringe (PFS)	LA-SC	Dermal booster / Skin lightening
