ITW REAGENTS

In 2010, the ITW Reagents division was formed through the integration of three companies: Panreac Química S.L.U. (Spain), Nova Chimica Srl (Italy, now ITW Reagents S.R.L.), and AppliChem GmbH (Germany). The division combines the experience and expertise of these three well-established companies to offer the highest quality and most innovative products for analysis, research, and production applications.
