Applications

- AAV  mRNA 
- Advanced Therapies 
- Gene Therapy 

GMP-Compliant Gene Synthesis

Why nagene?

Production in ~5 days

GMP-compliant processes

ISO9001-certified

Complex Gene Constructs

Animal Origin Free (AOF) and TSE/BSE Free

Endotoxin ≤ 0.1 EU/ μ g

BUILT FOR COMPLEX GENE SYNTHESIS

Our Capabilities

Designed to support regulated and advanced therapeutic applications.

Technical Features

- Full Plasmid Sequencing (NGS)
- Batch Documentation
- Linearization Available
- Custom Project Support
- Full Traceability

Products

- Custom Plasmid DNA
- Gene Fragments
- Glycerol Stocks

Production Scale:

μ g to mg
