STOP**

Swiss Quality

What is VIROSTOP ?

Effective Protection:

VIROSTOP helps shield you from viruses causing upper respiratory infections like cold and flu, providing a natural and effective defense for your respiratory health.

Patented Blend of Plant Extracts:

VIROSTOP features a unique blend of extracts derived from carefully selected plants, creating a durable, continuous film that protects the mucous membranes of the upper respiratory tract.

Rich in plant polyphenols, the extracts act as a physical barrier, preventing viruses and bacteria from entering the body and causing infections.

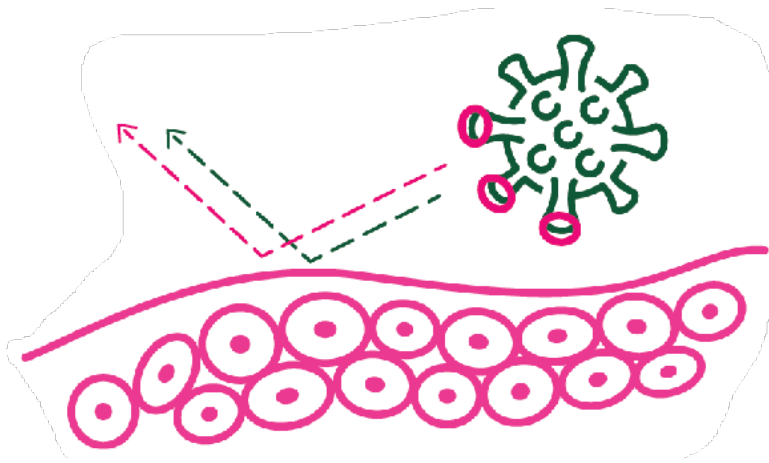

Swiss Quality

How does Virostop work?

The mucous membrane of the respiratory tract acts as a natural barrier against the entry of viruses and bacteria into our body's cells. However, when there is a high influx of attacking viruses and bacteria, its capabilities can be overwhelmed, allowing pathogens to cause an infection.

VIROSTOP solution enhances our natural defenses by delivering a blend of active plant-based substances to the surface of the upper respiratory tract's mucous membranes.

Special plant polyphenols, when attached to viral protein, mechanically inhibit the function of the protein and thus prevent the virus from entering the cell, preventing the development of infection.

How to use Virostop?

Preventatively

By preventing viruses from entering and multiplying within the cells, it can shorten recovery and reduce symptoms.

If we are in an environment with an elevated risk of infection, someone in our household, school, or workplace is ill, or if we ourselves are beginning to combat a viral infection, we can support our mucosal immunity with VIROSTOP solution.

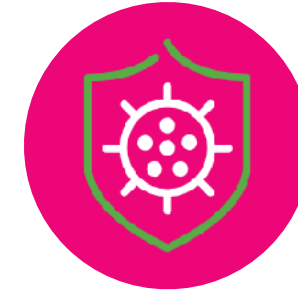

Relieves symptoms

Sore throat | Cough | Sneezing | Runny nose | Stuffy nose

In cases of an existing infection, these substances can prevent the virus from attacking nearby cells. They help slow the infection's progression and assist in restoring the function of the respiratory tract mucosa.

Family-friendly choice.

For adults and children from 6 years old.

In Vitro study

ANTIVIRAL EFFECT OF TRADITIONAL MEDICINAL PLANT EXTRACTS AGAINST SEASONAL INFLUENZA VIRUSES

The study aimed to determine the inhibitory effect of extracts from selected plants on the replication of various influenza virus strains, including type B, type A H2N2, and H1N1 viruses. Researchers evaluated the effects of each active substance both individually and in combination, specifically focusing on the formulation known as VIROSTOP Mixture.

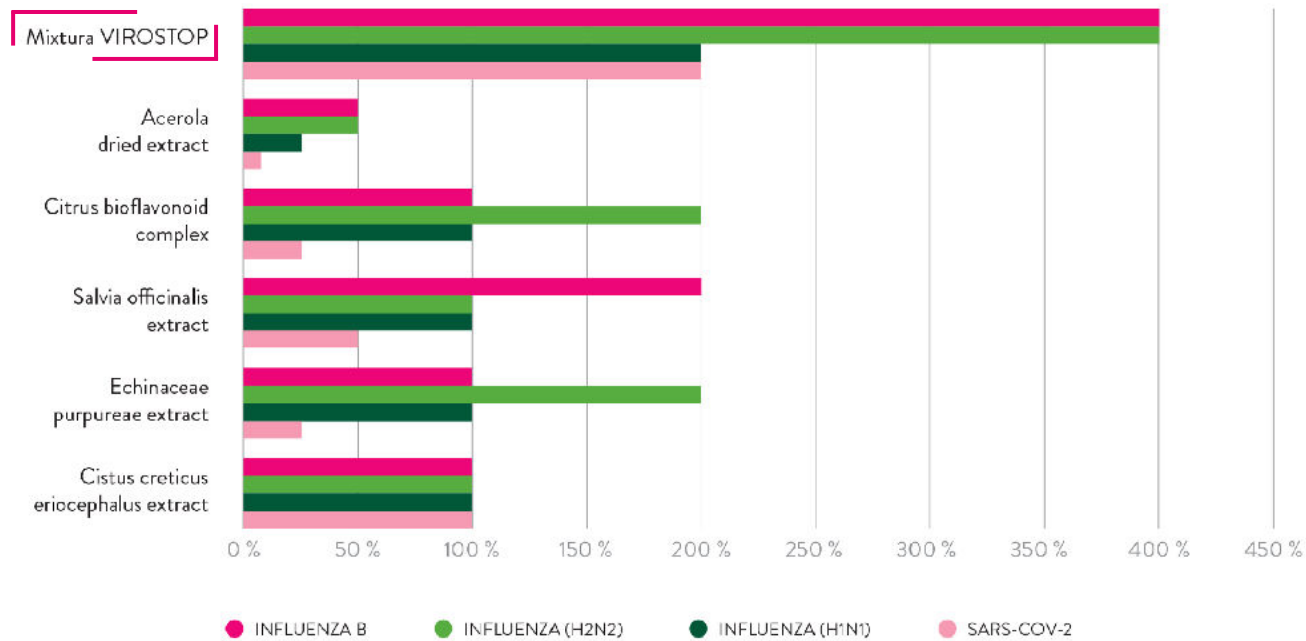

Key findings from the study are as follows:

Enhanced Effectiveness of Combined Extracts:

The combined extracts in VIROSTOP Mixture demonstrated up to twice the effectiveness against influenza virus strains compared to the individual extracts.

Synergistic Action:

The plant extracts contained polyphenols of various structures, the combined use of these extracts resulted in an enhanced inhibitory effect due to the synergistic interaction between the different polyphenols.

VIROSTOP Oral spray 30 ml

- This product forms a protective film in the oral cavity and throat.
- It prevents the development of, and alleviates symptoms associated with, acute upper respiratory infections (cold&flu).
- The spray ensures easy and uniform application of the solution across the entire mucosa.
- Only natural active substances, pleasant mint herbal taste.

Use

- Start using it as soon as you experience a scratchy throat, sneezing, or other early symptoms of flu or cold.
- It's also suitable for situations with an elevated risk of infection.

Key Advantages of VIROSTOP

Compared to Other Cold&Flu OTC Products on the market:

Natural Ingredients

Natural-based active ingredients with proven efficacy are missing from the flu and cold shelves. Safe for long-term use, free from harsh chemicals.

Provides a Comprehensive Solution

Addresses root causes rather than just suppressing symptoms.

Family-Friendly

Safe for children from age 6, making it ideal for the entire family.

Proven Market Success

High sales in Central Europe, where the product has an almost decade-long history, demonstrating reliability and effectiveness. Widely loved by parents, reflecting high satisfaction and trust.

Superior Regulatory Certification in the EU:

- Fully certified under the newest EU Medical Device Regulation (MDR), a distinction no other substance-based product in the cold and flu market has achieved.
- Most competitors still follow the older MDD regulations, which will soon be outdated, leaving many products without valid registration.

Regulatory Approval in the UK

Registered with the Medicines and Healthcare products Regulatory Agency (MHRA), ensuring adherence to stringent safety and efficacy standards.

GYNTIMA for your intimate wellbeing

It's time we address our intimate health with a gentle touch: harnessing the power of nature, yet swiftly and effectively, ensuring lasting results.

Gyntima, Your solution for intimate well-being.

[Gyntima.com](https://www.gyntima.com)

Treatment and prevention of vaginal infections

If you are experiencing burning, itching, discharge, vaginal dryness, or even a vaginal infection, you can find the solution among GYNTIMA vaginal suppositories.

GYNTIMA, with the help of natural active ingredients, helps alleviate these symptoms and restore a long-lasting feeling of intimate comfort and health.

The effect of GYNTIMA is not based on aggressively eliminating infections with antibiotics or antifungals but rather on effectively and sustainably restoring the natural microbial balance in the vagina.

Each product is designed to specifically support the growth of beneficial vaginal bacteria while effectively suppressing the proliferation of pathogenic ones.

Prebiotic complex

The effectiveness of GYNTIMA is not based solely on delivering lactic acid to the vaginal environment but on **providing a complete prebiotic complex.**

The combination of **lactic acid** with **lactose** and **fermented milk proteins** creates the optimal conditions for the long-term, sustainable growth, reproduction, and survival of lactobacilli.

At the same time, it prevents pathogenic **bacteria and yeasts** from surviving, causing them to naturally disappear in most cases without the need for antibiotics or antifungals.

GYNTIMA products also help restore the proper vaginal balance after **vaginal surgeries, childbirth, vaginal mucosal injuries, or vaginal atrophy** associated with dryness and discomfort.

Swiss Quality

Treatment and prevention of vaginal infections

Active Ingredients in GYNTIMA Vaginal Suppositories

Prebiotic complex

A unique combination of lactic acid, lactose, and fermented milk proteins creates an ideal environment for the proliferation and survival of lactobacilli in the vagina. They maintain an ideal pH value and microbial balance over the long term, significantly protecting against infections.

Folic acid

Vitamin B9, which plays an important role in cell division and contributes to the renewal of vaginal mucosa. Its proper level supports the division and survival of lactobacilli in the vaginal environment.

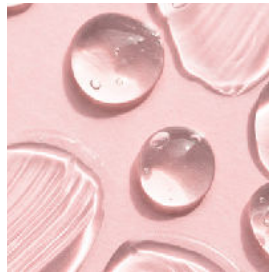

Sage

Extract from this traditional medicinal plant has anti-inflammatory, antimicrobial, and disinfectant properties. The components of sage support the natural functions of the vaginal mucosa.

Tea tree oil

A natural antiseptic oil that acts against harmful bacteria and fungi. It removes excessive discharge, alleviates feelings of burning and itching.

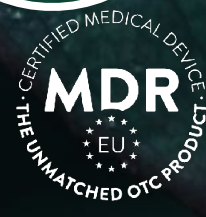

Hyaluronic acid

High-quality hyaluronic acid is utilized in two molecular sizes: larger molecules form a protective film on the skin's surface to maintain moisture, while smaller molecules penetrate deeper layers to bind and lock in hydration.

Soy extract

Derived from soybeans, this plant-based ingredient is rich in phytoestrogens, which mimic the effects of female sex hormones naturally. It effectively restores the health of the vaginal mucosa, promoting optimal hydration, pH balance, and resilience against infections.

Swiss Quality

Treatment and prevention of vaginal infections

GYNTIMA Probiotica Forte

Vaginal suppositories 10 pcs
Medical device

Helps to prevent and treat thrush and Bacterial Vaginosis (BV)

In order to enhance the efficiency of Probiotica Forte, the vaginal suppositories contain Tea tree oil that is **significantly effective against bacteria and fungi causing infections. It relieves symptoms of vaginal discharge, burning and itching.**

The suppositories create a breeding-ground for lactobacilli that are naturally found in the vaginal flora and ensure their optimal multiplication.

These natural milk cultures protect against harmful bacteria and infections and ensure the natural biological balance of the vagina.

Probiotica Forte is made from **natural substances.**

Ingredients:

PEG 32, Lactosum, Polysorbatum 20, PEG 20, Natrii chloridum, Acidum lacticum, Magnesii sulphas, Proteose pepton, Sage extract, Acidum folicum, Melaleuca alternifolia.

Prevention and treatment of stretch marks

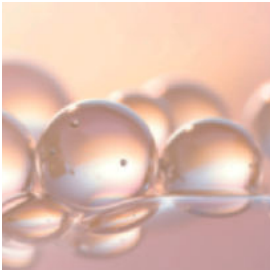

With **GYNTIMA Anti-Stretch Mark Emulsion**, we can protect **collagen and elastin fibers** in the skin using **natural ingredients** and a **complex of active peptides**, thereby increasing **skin firmness and elasticity**.

The active ingredients are formulated in a **special liposomal form**, which allows for **better absorption** and penetration into the **deep layers of the skin**.

Regular use helps to **prevent the formation of stretch marks**, and if some have already appeared, it contributes to the **visible reduction of fresh stretch marks and scars**.

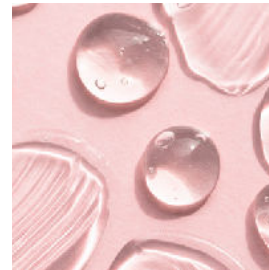

Active Ingredients in GYNTIMA Stretch mark emulsion

Active Peptide Complex

The Active Peptide Complex combines Tripeptide-30 Citrulline and Pentapeptide-18, two potent peptides known for their beneficial effects on skin health. These peptides work together to address stretch marks by stimulating collagen production, improving skin elasticity, and reducing the appearance of fine lines and wrinkles.

Hyaluronic acid

High-quality hyaluronic acid is utilized in two molecular sizes: larger molecules form a protective film on the skin's surface to maintain moisture, while smaller molecules penetrate deeper layers to bind and lock in hydration.

Vitamin E

Vitamin E has soothing and calming properties, making it ideal for alleviating discomfort and irritation. It helps maintain skin health and moisture, providing gentle care and comfort.

Panthenol

Known for its hydrating and soothing properties, panthenol helps to moisturize and calm sensitive skin, promoting comfort and reducing irritation.

Swiss Quality

Prevention and treatment of stretch marks

GYNTIMA Stretch mark emulsion

Cosmetic product, 100 ml

Regenerating emulsion to reduce stretch marks and prevent their formation

The emulsion is designed to target the needs of skin while pregnant.

The active ingredients, encapsulated in liposomes for better skin penetration, reduce the appearance of stretch marks, while restore the elasticity and firmness of the skin.

The regenerating emulsion not only helps in prevention, but can remove already formed stretch marks, especially in the process until they are still pink to purple color.

Ingredients:

Water (Aqua), Paraffinum Liquidum, Helianthus Annuus (Sunflower) Seed Oil, Panthenol, Caprylyl/Capryl Glucoside, Lecithin, Glycerin, Pseudoalteromonas Ferment Extrakt, Acetyl Tripeptide-30 Citrulline, Pentapeptide-18, Xanthan Gum, Caprylyl Glycol, Potassium Sorbate, Prunus Dulcis (Almond) Oil, Polyacrylamide, C13-14 Isoparaffin, Laureth-7, Cetearyl Alcohol, Palmitoyl Pentapeptide, Dimethicon, Phenoxyethanol, Ethylhexylglycerin, C12-14 Pareth 30, Glyceryl Stearate, Tocopheryl Acetate, Parfum, Sodium Hyaluronate, Aloe Barbardensis

GYNTIMA Intimate Whitening cream

Cosmetic product, 50 ml

Brightening of highly pigmented intimate areas

The combination of biotechnology peptides and plant substances gently brightens and nourishes the deeply pigmented genital and anal areas.

The correction mainly focuses on heavily pigmented areas - vagina, skin of labia, anus, armpits, nipples, penis and scrotum at males.

Ingredients:

Aqua, Glycerin, Prunus Dulcis (Almond) Oil, Olea Europaea (Olive) Fruit Oil, Lanolin, Boerhavia Diffusa Extract, Propanediol, Oligopeptide 34, Calendula, Sorbitan Isostearate, PEG-2 Hydrogenated Castor Oil, Ozokerite, Hydrogenated Castor Oil, Caprylic/Capric Triglyceride, Glycerylstearate, Cetearyl Alcohol, Polysorbate 20, Phenoxyethanol, Ethylhexylglycerin, Tocopheryl Acetate, Cera Flava, Carbomer, Triethanolamine, Panthenol, Dimethylmethoxy Chromanyl Palmitate, Aloe Barbadensis

GYNTIMA Intimate Lifting cream

Cosmetic product, 50 ml

Rejuvenation and firming of intimate skin at any age

The unique composition of biotechnological peptides and active substances of plant origin, gently **regenerates, rejuvenates and strengthens the skin** of the intimate area.

Due to the high amount of active ingredients, with regular use, the skin becomes soft, smooth and flexible.

Ingredients:

Water (Aqua), Paraffinum Liquidum, Pueraria Mirifica Root Extract, Glycerin, Palmitoyl Pentapeptide, Caprylic/Capric triglyceride, Lanolin oil, Sorbitan Isostearate, PEG-2 Hydrogenated Castor Oil, Ozokerite, Hydrogenated Castor Oil, Glycerylstearate, Cetearyl Alcohol, Acetyl Tetrapeptide-2, Caprylyl Glycol, Polysorbate 20, Phenoxyethanol, Ethylhexylglycerin, Aloe Barbadensis, Cera Flava, Carbomer, Triethanolamine, Parfum

GYNTIMA Intimate wash gel

Cosmetic product, 200 ml

Intimate hygiene for women supporting the health of female organs.

Gyntima Washing Gel is effective, gentle, refreshing and made for a Woman's everyday hygiene, helping to prevent vaginal infections.

Thanks to its optimal ingredients and selected natural substances, the gel is very well tolerated by the skin.

Ingredients:

Aqua, Sodium Laureth Sulfate, Cocamide DEA, Lauramidopropyl Betaine, Sodium Chloride, Phenoxyethanol, Ethylhexylglycerin, Picea Excelsa Extract, Propylene Glycol, Acidum Lacticum, Parfum, Aloe Barbadensis.

GYNTIMA Intimate children's wash gel

Cosmetic produkt, 100 ml

Intimate hygiene for girls from 3 years old.

Gyntima children's intimate wash is a very gentle and safe washing gel, developed specifically for intimate hygiene, for girls from age 3, when the vaginal immunity is not sufficient yet.

Regular and careful intimate hygiene and proper combination of active substances in the children's intimate wash can efficiently help to prevent infections.

Ingredients:

Aqua, Sodium Laureth Sulfate, Cocamide DEA, Lauramidopropyl Betaine, Sodium Chloride, Phenoxyethanol, Ethylhexylglycerin, Acidum Lacticum, Allantoin, Bisabolol, Sage extract, Parfum

GYNTIMA Intimate foam

Cosmetic product, 150 ml

Intimate hygiene enriched with antiseptic effects.

Intimate Foam is an effective, refreshing and mild wash with optimal pH, developed especially for feminine intimate hygiene.

The foam helps to prevent vaginal infections. Aloe Vera in particular promotes antibacterial, antimycotic and anti-inflammatory effects.

The foam is enhanced by sage extract, for its antibacterial, anti-inflammatory effects and for its pleasant herbal scent.

Ingredients:

Aqua, Sodium Laureth Sulphate, Lauramidopropyl Betaine, Phenoxyethanol, Ethylhexylglycerin, Glycerin, Panthenol, Benzalkonium Chloride, Parfum, Citrus Paradisi (Grapefruit) Extract, Sage extract, Aloe Barbadensis

GYNTIMA Lubricating gel

Medical device, 50 ml

Effective lubrication for insufficient vaginal mucosa hydration.

Active substances help to eliminate physiological problems arising from insufficient lubrication, increase lubricity and reduce the risk of occurrence of minor injuries to the vaginal mucosa.

Antimicrobial substances limit the potential development of bacterial and yeast infections and Panthenol soothes irritated areas.

Ingredients:

Aqua, Glycerin, Polysorbate 20, Phenoxyethanol, Ethylhexylglycerin, Carbomer, Triethanolamine, Panthenol, Tocopheryl Acetate

HEMORRELAX Cream 30 g / medical device HEMORRELAX suppositories 10 pcs / medical device

Thanks to the unique combination of herbal ingredients, biotechnological peptides, hyaluronic acid and lubricating component, it has antimicrobial, antiseptic, hemostatic, anti-inflammatory and anesthetic effects.

Description of active substances:

Peptides

Relax the sphincter muscles of the rectum, significantly improving chronic cases and reducing pain associated with defecation, while accelerating the healing process.

Dimethicone

Forms a protective layer on the skin, preventing the formation of wounds or aiding in the healing of existing wounds. It softens, moisturizes, and protects the skin, preventing irritation.

Hyaluronic acid

Provides moisturizing and regenerative effects, maintaining the natural moisture content of healthy skin and mucous membranes. It intensively hydrates, regenerates damaged epithelial cells, and supports wound healing.

Oak bark

It is known for its strong astringent effect; it promotes healing.

Horse chestnut

Important for its anti-inflammatory properties, it helps strengthen blood vessels and has regenerative and contracting effects.

Calendula

Has anti-inflammatory, healing, and soothing effects on the skin.

Chamomile

Calms, moisturizes, cools, and fights inflammation.

Hemorrelax cream also contains:

PANTHENOL (B5-provitamin)

Relieves inflammation, soothes and regenerates the skin.

ZINC

Quickly reduces inflammatory symptoms and supports wound healing. It has antiseptic and anti-inflammatory properties.

ALOE VERA

Heals and regenerates the skin.

Comprehensive ear hygiene

The Aurecon range with its wide selection offers solution for various ear problems for every member of the family. With these gentle and effective ear care products the users can prevent and treat ear blockage and ear infections.

Aurecon

Swiss Quality

AURECON Main active ingredients

Aurecon contains **natural substances without chemical additives**. The products facilitate the cleaning of the external auditory canal, has an antibacterial effect on mild ear inflammations and may reduce the painful symptoms of an inflammation.

OLIVE OIL

- Reduces the risk of infection
- Rich in polyphenols
- Contains natural vitamin E
- Prevents skin irritation

POLIDOCANOL (LAURETH-9)

- A fatty alcohol
- Relieves itching
- Has a numbing effect (pain relief)

HYDROGEN PEROXIDE

- Gently releases oxygen
- Softens earwax
- Breaks down earwax into flakes

BEESWAX

- Antibacterial effects
- Binds heavy metals and impurities from the body
- Prolongs burning time

DEAD SEA SALT

- Cleans the auditory system in a non-aggressive way
- Rich in active trace elements (minerals)
- Helps prevent middle ear infections

COMMON HOUSELEEK

- Strong healing and antibacterial effects
- Prevents middle ear infections and earwax buildup
- Helps reduce ear pain

KUDZU ROOT

- Antioxidant
- Supports hormone production (affects the nervous system)
- Calming effects
- Reduces the likelihood of hearing loss

ALOE VERA

- Anti-inflammatory effects
- Has antibacterial, anesthetic, and regenerative properties

AURECON Drops

Aurecon contains **natural substances without chemical additives**. The products facilitate the cleaning of the external auditory canal, has an antibacterial effect on mild ear inflammations and may reduce the painful symptoms of an inflammation.

AURECON Drops

Natural ear drops for ear care & hygiene

10 ml / Medical Device

- Facilitates and enhances the efficiency of ear cleaning.
- Prevents the buildup of hardened earwax.
- Inhibits the reproduction of microorganisms.
- Contains only natural substances.
- Does not contain any chemical additives.

AURECON Drops Forte

Natural ear drops to prevent ear inflammation

10 ml / Medical Device

- Aurecon Drops Forte may help with **minor inflammation** of the **external auditory canal, middle ear, and eardrum**, especially in the early stages.
- It is composed of **natural substances – oils**.
- Lavender oil may **reduce pain** and provides **protection against unwanted microorganisms**.
- The active ingredient **Laureth-9** improves **product-to-skin contact** and has a **local anesthetic effect**.
- Aurecon Drops Forte does not contain any chemical additives.

AURECON Drops

Aurecon contains **natural substances without chemical additives**. The products facilitate the cleaning of the external auditory canal, has an antibacterial effect on mild ear inflammations and may reduce the painful symptoms of an inflammation.

AURECON Drops Forte Junior

Natural ear drops to prevent ear inflammation from 6 months

10 ml / Medical Device

- Aurecon Drops Forte is intended for children from 6 months and does not contain any chemical additives.
- It may help with minor inflammation of the external auditory canal, middle ear, and eardrum, especially in the early stages.
- It is composed of natural substances – oils.
- Lavender oil may reduce unpleasant symptoms and also provides protection against unwanted microorganisms.

AURECON Peroxid Drops

Peroxide drops to help remove earwax

10 ml / Medical Device

- Aurecon Peroxide Ear Drops is a clear, thick solution with a unique dual-action formula.
- Softens caked-on earwax while gently releasing oxygen, which facilitates the removal of earwax.
- The drops contain 5% urea hydrogen peroxide as an active ingredient, which softens earwax and breaks it down into small pieces.
- Also contains sodium hydroxide and glycerol.

AURECON Sprays

Aurecon contains **natural substances without chemical additives**. The products facilitate the cleaning of the external auditory canal, has an antibacterial effect on mild ear inflammations and may reduce the painful symptoms of an inflammation.

AURECON Spray

Natural ear spray for ear care & hygiene

50 ml / Medical Device

- Aurecon Ear Spray – Dead Sea Solution with Aloe Vera is a natural, non-aggressive ionic solution that decomposes earwax without irritating the eardrum or the external ear canal.
- Specially designed for routine hygiene, it serves as prevention against auditory canal congestion and effectively reduces excess earwax.
- Aurecon Ear Spray is a mild, safe, and effective solution for ear hygiene.

AURECON Spray Junior

Natural ear spray for ear care & hygiene from age 3

50 ml / Medical Device

- Aurecon Junior Ear Spray is a natural solution containing plant extracts, recommended for children from age 3.
- This unique combination of plants has a beneficial effect on ear health and reduces the risk of inflammation.
- The Junior Ear Spray dilutes and dissolves earwax, eliminates dust and other impurities, and prevents ear blockages.

AURECON Sprays & capsules

Aurecon contains **natural substances without chemical additives**. The products facilitate the cleaning of the external auditory canal, has an antibacterial effect on mild ear inflammations and may reduce the painful symptoms of an inflammation.

AURECON Dry Spray

Ear spray to remove water from the ear

50 ml / Medical Device

- Due to the **physical properties of denatured alcohol** present in the preparation, it **accelerates the evaporation of water** from the ear and **dries out the outer ear canal**.
- **Denatured alcohol removes excess moisture** in just a few minutes, making it an **effective aid in preventing ear inflammation or infection**.

AURECON RingStop

Food supplement recommended for people with tinnitus

30 cps / Food supplement

- A food supplement containing **herbal extracts** that **combines the effects of circulatory enhancers, antioxidants, vitamins, and sedatives** in a single capsule.
- **Hops calms**, while **vitamin B1 supports the nervous system**.
- **Ginkgo biloba is beneficial for mental functions**.
- **Vitamins B6 and C help maintain normal psychological function**.

ADENOL Drops and spray

Adenol contains a blend of precious natural oils, that alleviate snoring in a natural way. The application is pleasant – there remains a fresh, balsamic scent in the bedroom. Herb oils blended with soya lecithin extract cause strong blood circulation and tissue surface tension, and thus the air flowing through cannot excite loud noises.

ADENOL Drops

Anti-snore drops

10 ml / Medical Device

- Adenol – a combination of essential oils that prevents snoring naturally.
- Snoring occurs when air flows through the nasal or oral sinuses, causing loose tissues to vibrate and oscillate. This air then passes through the epiglottis into the windpipe.
- The scent of natural oils, in a special proportion, promotes strong perfusion and tissue tension, preventing the airflow from producing noisy sounds.
- Clinically proven effect.

ADENOL Spray

Anti-snore throat spray

50 ml / Medical Device

- Adenol – a combination of essential oils that prevents snoring naturally.
- Snoring is caused by the vibration of respiratory structures and the resulting sound due to obstructed airflow during sleep.
- Herbal oils blended with soy lecithin extract, in a specific ratio, promote strong blood circulation and tissue surface tension, preventing airflow from producing loud noises.
- The oils and lecithin coat the throat tissue and provide moisturization to the pharynx's epithelial lining, reducing the occurrence of vibrations.
