

Custom Model Development Service

Biology first. Evolve your device!

● Adaptive Customization

Rapid design-to-prototype workflows that drastically shorten R&D cycles.

● Versatile Portfolio

Application-centric platform capturing maximum market demand across organ types.

● Scalable Manufacturing

Fully integrated in-house production ensuring industrial-scale supply and IP security.

● Pharma-Led Expertise

Specialized biology team meeting rigorous regulatory and industry benchmarks.

ORGAN MODELS SUPPORTED

Liver

Lung

Brain
(BBB)

Kidney

Intestine

Heart

Skin

Tumor

New: Proof-of-Concept Program
