Product list

Our company

ABC is an Italian pharmaceutical group established in 1925, committed to research, development, manufacturing and commercialisation of pharmaceutical products.

ABC Farmaceutici has made significant investments in order to enlarge production and respond to market and customer needs: our manufacturing facility is fully GMP certified and is an example of modern technology applied in the pharmaceutical production.

ABC Farmaceutici, as part of ICE Pharma, is able to follow the whole supply chain of the drug, from the active ingredient up to the manufacturing of the pharma dosage form, including marketing, promotion and sale. Ethicalness, competence and experience allowed ABC Farmaceutici to become the CDMO partner of the main pharmaceutical multinational Companies
