Company overview

ICE Pharma is a multinational company providing products and services to the pharmaceutical and healthcare markets.

Founded more than 70 years ago, the Company has a network of manufacturing facilities and subsidiaries in North and South America, Europe, Asia and Oceania. We commercialise our products and services in all the major global markets and serve customers in over 50 countries.

We are a key supplier to the pharmaceutical industry providing a range of active pharmaceutical ingredients (APIs) including Ursodeoxycholic acid (UDCA) and Inosine Pranobex. We also supply excipients, cell culture media for diagnostics, GMP intermediates and research chemicals. Our services business provides contract manufacturing for solid and liquid finished dosage forms.

We manufacture and commercialise branded products in the pharmaceutical, nutraceutical and cosmetics markets.
