Sustainable Procurement

Integrate sustainability into sourcing and supplier management. Identify risks, support improvement plans, and embed ESG into procurement to drive business value.

Supply Chain Due Diligence

Enable compliance with due diligence laws like the EU Supply Chain Act by identifying ESG risks, engaging suppliers, and ensuring full supply chain transparency.

Forced Labor Prevention

Screen suppliers and trace materials to meet UFLPA and EU regulations. Take proactive steps to block forced labor-linked goods and protect human rights.

Supply Chain Visibility

Track ESG risks to the raw material level, uncover hidden vulnerabilities, and power smarter due diligence, product compliance, forced labor prevention, and more.

Carbon Emissions

Measure and reduce supply chain emissions with company- and product-level carbon data. Engage suppliers and ensure alignment with SBTi and CBAM.

Product Compliance

Comply with ESG and product-level rules like EUDR, ROHS, and conflict minerals. Automate supplier data collection and reporting to reduce manual effort.

Sustainability Reporting

Automate ESG disclosures with CSRD, GRI, and ISSB alignment. Deliver double materiality and value chain impact reporting with audit-ready data.

Why IntegrityNext?

Scaled to Your Needs

The most streamlined and unified cloud platform offering multiple solutions that grow with your business, adaptable to any need or stage of your journey.

Global Supplier Network

Join the largest supply chain sustainability network with over 2 million suppliers across 190 countries and all industries – free for suppliers, ensuring broad reach and engagement.

AI-Powered Insights

Harness AI across every solution for smarter decisionmaking and automation at every level of your compliance and sustainability workflows.

Built-in ESG Expertise

With over 40 topics embedded in the platform, our deep sustainability expertise guides your efforts, keeps you ahead of regulations, and frees up your resources.

360° Service & Support

Benefit from in-house sustainability experts, hands-on program management, and dedicated supplier onboarding, validation, and support.

Easy Integration

Access a robust ecosystem of partnerships and integrations to extend the value of your initiatives and bring data where it's needed.

Trusted by 500+ Industry Leaders

About IntegrityNext

IntegrityNext is a leading provider of supply chain sustainability solutions, designed to help businesses ensure compliance, drive impact, and maximize value with efficiency. Our scalable and unified cloud platform is designed to evolve with our customers' needs, helping them address complex supply chain challenges like due diligence obligations, decarbonization, deforestation, multi-tier transparency, sustainability reporting, and more, with powerful AI, smart automation, and in-house sustainability expertise. With the largest and fastest-growing global sustainability network in the world encompassing over 2 million suppliers across 190 countries, our vision is to empower businesses to drive positive environmental and social impact throughout their supply chains.
