Food Supplement

Dermolivo Metabolico

Dermolivo Metabolico is a food supplement based on Myo-inositol, D-Chiro inositol, Morus Alba L., Zinc, Cinnamon, Vit. B6, B12, D3 and Quatrefolic®. Quatrefolic®, Vitamins B6 and B12 contribute to the normal metabolism of homocysteine. Zinc contributes to normal fertility and normal reproduction. Vitamin D is involved in the cell division process.

How to use: take 1 sachet per day, to be dissolved in a glass of water

Vitamin D3	mcg	5	100%
Vitamin B12	mcg	7,5	76%

Cinnamon is considered a good antioxidant and it contributes to the metabolism of carbohydrates. Morus alba leaf extract promotes functionality of the urinary tract. and contributes to the Metabolism of carbohydrates.

Dermolivo® Vaginal Gel

Dermolivo® Vaginal Gel is a medical device useful as an adjuvant for the treatment of vaginitis, helping to maintain the natural balance of vaginal microflora. The formula has a physiological pH level and it's based on Lactoferrin, Tyndalized lactobacillus and our registered blend EvoGold (Biologic Extra-virgin Olive Oil + Natural Vitamin E).

Mechanism of action

Dermolivo® Vaginal Gel is inserted into the vagina through a single use, pre-dosed applicator. Once inside it gets absorbed quickly, promoting a healthy vaginal flora thanks to the proliferation of good bacteria (Lactobacillus). Lactoferrin boosts the colonization of lactobacillus by creating a probiotic biofilm, making the environment inhospitable to pathogenic fungi bacteria. EvoGold helps to re-epithelialize and deeply moisturize the vulvo-vaginal mucosa, and thanks to its richness in squalene it reaches even the deeper layers of the mucosa with its properties.

Claims

- Helps to maintain a physiological vaginal environment, facilitating lactobacillus colonization.
- Decreases itching, redness and irritation caused by fungal or bacterial infections.
- Works as a lubricant and coadjuvant for vaginal mucosa restoration.
- Can be used during chemotherapy or radiotherapy treatments.
- Quickly relieves symptoms related to vaginal dryness and removes unpleasant odors.

USP'S

- 100% natural formula
- Innovative and very high quality ingredients
- Non-greasy, leaves no residue and does not stain
- Easy and hygienic application, single use and pre-dosed packaging

Dosage

1 application per day for the first 5 days. Then, 1 or 2 applications a week for at least 5 weeks. The treatment can be extended according to specific needs and/or under medical advice.

Dermolivo® Vaginal Ovules

Dermolivo® Vaginal Ovules is a medical device useful to moisturize, soothe and protect the vagina's mucosa. It can be used for the treatment of vaginitis symptoms, helping to maintain the natural balance of vaginal microflora. The formula is based on Lactoferrin, Tyndalized lactobacillus and our registered blend EvoGold.

Mechanism of action

When inserted, Dermolivo® Vaginal Ovules creates a lubricant-protective film, thanks to the combined action of EvoGold and Lactoferrin. That film prevents bacterial proliferation and helps to soothe the annoying symptoms associated with bacterial or fungal vaginosis such as: leakage, itching, vaginal burning and odors. It also helps to restore lactobacillus flora for a healthy vaginal environment.

Claims

- Moisturizes, soothes and protects vaginal mucosa
- Relieves the symptoms of bacterial or fungal vaginosis
- Contributes to the maintenance of a physiological vaginal environment favoring lactobacillar colonization
- Useful as a lubricant and adjuvant in the repair process of the vaginal mucosa

USP'S

- 100% natural formula
- Innovative and very high quality ingredients
- Immediate effect on symptoms

Dosage

Use one a day for 5-10 days or according to medical advice. Do not exceed the recommended dose without medical advice.

Dermolivo® Gynecological Foam

Dermolivo® Gynecological Foam is an intimate cleanser created for both daily intimate hygiene and for intimate hygiene with an ongoing infection. The presence of lactobacillus and Lactoferrin promotes the restoration of the physiological microbial flora, bringing the intimate area's pH back to its natural balance.

Mechanism of action

Dermolivo® Gynecological Foam is particularly suited to help treat the main skin sensitivities characterized by inflammation and often infections too, contributing to diminish irritation and reddening. The product does not contain chemicals, and irritating substances nor hormones or parabens. It helps to revitalize the intimate mucous membrane, carrying out a calming and soothing action. Lactobacillus and Lactoferrin promote the restoration of the physiological microbial flora, bringing the intimate area's pH back to its natural balance. Vitamin E and Extra Virgin Olive Oil (EvoGold) help to maintain the natural elasticity and softness of the intimate area's skin

Claims

- Soothes inflamed, irritated, sensitive skin
- Stops itching and odors caused by fungal or bacterial infections.
- Helps to restore the mucous membrane and microbial flora
- Can be used during chemotherapy or radiotherapy treatments.
- Balances the intimate area's pH

USP'S

- 100% natural formula
- Innovative and very high quality ingredients
- Suitable for both daily intimate hygiene and while there are ongoing infections
- Foam form that appeals to customers

Dermolivo® Vaginal Douche

Dermolivo® Vaginal Douche is a vaginal solution with an acid pH formulated to allow an effective cleansing of the vulvo-vaginal mucosa useful to counteract vaginal dryness. The formula is based on Lactoferrin, Tyndalized lactobacillus and our registered blend EvoGold® (Biologic Extra-virgin Olive Oil + Natural Vitamin E).

Mechanism of action

Dermolivo® Vaginal Douche is applied through a mobile anti-shock vaginal cannula, to facilitate the use of the device and eliminate the risk of internal vaginal trauma during use. Thanks to the formation of a lubricant-protective film given by the presence of Extra Virgin Olive Oil and Vitamin E (EvoGold®), it protects the vaginal mucosa, contributing to the maintenance of the physiological state of hydration. The presence of tyndalized probiotics (DuoLact) guarantees a balancing action of the vaginal bacterial microflora. Lactoferrin allows the formation of a mechanical barrier that prevents bacterial proliferation and helps to soothe the annoying symptoms associated with bacterial vaginosis

Claims

- Cleanses, soothes and protects vaginal mucosa
- Relieves the symptoms of bacterial or fungal vaginosis
- Contributes to the maintenance of a physiological vaginal environment favoring lactobacillar colonization
- Useful as a lubricant and adjuvant in the repair process of the vaginal mucosa

USP'S

- 100% natural formula
- Innovative and very high quality ingredients
- Immediate effect on symptoms
- Safe and easy to use single use and pre-dosed packaging

Dosage

One douche a day or according to the doctor's advice.

Product information:

Dermolivo® Vaginal Gel

- Outer box
- 5 pre dosed single use applicators
- Instruction for use/leaflet
- Medical device class I

Composition

- DuoLact: Lactoferrin, L. casei, L. acidophilus tyndalized, FOS e GOS, β-fructooligosaccharides (FOS), α-glucooligosaccharides (GOS);
- EvoGold®: Extra-virgin Olive Oil and natural Vitamin E.

Dermolivo® Gynecological foam

- 150 ml bottle
- Cosmetic

Composition

Aqua, Butane, Isobutane, Polysorbate 20, Propane, Decyl glucoside, Glycerin, Sodium lauryl sarcosinate, Hydroxyacetophenone, Cocamidopropyl betaine, Olea europea oil, Allergen free parfum, 1,2-Hexanediol, Caprylyl glicol, Sodium chloride, Lactic acid, Lactoferrin, Alpha glucan oligosaccharide, Menthol, Undecylenamidopropyl betaine, Polymnia sonchifolia root juice, Maltodextrin, Lactobacillus

Dermolivo® Vaginal Ovules

- Outer box
- Blister with 10 ovules
- Instruction for use/leaflet
- Medical Device class I

Composition

- DuoLact: Lactoferrin, L. casei, L. acidophilus tyndalized, FOS e GOS, β-fructooligosaccharides (FOS), α-glucooligosaccharides (GOS);
- EvoGold®: Extra-virgin Olive Oil and natural Vitamin E.

Dermolivo® Vaginal Douche

- Outer box
- 3 pre-dosed single use douches
- 3 mobile anti-shock cannulas
- Instruction for use/leaflet
- Medical Device class I

Composition

- DuoLact: Lactoferrin, L. casei, L. acidophilus tyndalized, FOS e GOS, β-fructooligosaccharides (FOS), α-glucooligosaccharides (GOS);
- EvoGold®: Extra-virgin Olive Oil and natural Vitamin E.
