OUR TEAM

Built to grow. Driven by purpose.

BUSINESS MODEL

01

OUT-LICENSING

Strategic Out-Licensing & Co-Development

01

Seamless Out-Licensing

Clinically proven formulations licensed through strong CMO & CDMO partnerships worldwide.

02

Market Intelligence & Strategy

In-depth market research and country-specific strategic insights to accelerate market entry.

03

Regulatory Excellence

Portfolio built for stringent markets — manufactured at USFDA, EU GMP, WHO GMP & TGA approved facilities.

04

End-to-End Support

From opportunity identification through to successful commercialization in new global markets.

FLEXIBLE OUT-LICENSING MODELS

Invex-Owned Brands

- ▶ Ready-to-commercialize portfolio with strong clinical backing
- ▶ Faster market entry with ready dossiers & documentation
- ▶ Established brand identity with scientific & real-world validation
- ▶ Comprehensive marketing support — visuals, digital & strategy
- ▶ Ongoing strategic guidance for growth and scale
- ▶ CME initiatives & KOL engagement to drive adoption

Partner-Owned Brands (Private Label)

- ▶ End-to-end dossier preparation & regulatory approvals
- ▶ Reliable & quality manufacturing and supply chain execution
- ▶ Flexibility to expand under your own brand name
- ▶ Strategic guidance on product selection & market positioning
- ▶ Market intelligence powered by AI for competitive advantage

BUSINESS MODEL

02

IN-LICENSING

Strategic In-Licensing & Co-Development

Science-led model identifying off-patent, high-potential molecules with strong clinical backing

Globally accredited manufacturing: USFDA • EU-GMP • TGA • WHO-GMP certified

Data-driven market research — epidemiological insights & competitive benchmarking

Asset-light approach enabling faster go-to-market & scalable global expansion

THERAPEUTICS CATEGORY

Blood Products & Biosimilars

Oncology

Cardiovascular

Other Pharma Generics

BUSINESS MODEL

03

GOVERNMENT TENDERS

*Direct Orders . Emergency
& Shortage funded Supplies*

End-to-End Procurement

Rapid sourcing, procurement & supply chain for government & institutional needs.

Tender Participation

Active in national & international tenders across emerging & regulated markets.

Regulatory Expertise

Strong dossier compliance, documentation & tender qualification processes.

Quality Validation

Third-party product testing to meet stringent international standards.

High Volume Contracts + Emergency Readiness

Time-bound, high-volume execution with consistent quality & reliability
Uninterrupted patient access in high-demand & short-supply scenarios.

WHO FUNDED EMERGENCY ORDERS supplied and executed in Angola and several other countries.

PRODUCTS LICENSED OUT

★ USFDA and EU-GMP Certified State of the art facilities
