Discover More

Contact us to discover more about our services and how we can give you confidence in knowing that our expertise will help attain your goals.

Based in Cambridgeshire, UK, with additional offices in Dublin, Ireland and Pune, India, Key Pharmaceuticals has been involved in the development, manufacture and regulatory support of generic pharmaceuticals for 20 years.

We have successfully developed, registered and launched over 86 products in the UK.

We have achieved this through our technical knowledge and regulatory expertise, with many more in the pipeline.

Key Pharmaceuticals is proud to be part of Bestway Healthcare, a vertically integrated UK based pharmaceutical group with retail, wholesale and manufacturing businesses totalling over **£1bn** of sales and **6000** employees. Bestway Healthcare is part of the Bestway Group, a diversified multinational business with turnover in excess of **£4.5bn** and activities in wholesale, healthcare, real estate, cement and banking.

These products are now being prescribed across the country and delivered through our wide distribution network. Our products are used in hospitals, clinics and pharmacies up and down the UK.

UK SUPPLY

Key Pharmaceuticals products contain both niche and high-volume products of varying complexity.

Every single one of our products has Marketing Authorisation (MA) granted in the UK as a benchmark. Most have Marketing Authorisation granted in multiple territories. Our products are high-quality and respected by regulatory authorities.

Within the UK, through our distribution partners, our products reach hospitals, clinics and pharmacies up and down the country with reliability and speed. We pride ourselves on our products reaching the dispenser and patient with efficiency.

RESEARCH AND DEVELOPMENT

Let us do the work to bring your product idea to market.

Our comprehensive knowledge and experience of formulation & development of solid dose generic drugs has evolved as we continue to expand our portfolio of projects and manage the product life cycle with many established organizations.

We can facilitate the design of strategic solutions tailored to meet specific needs and development goals. We can leverage from years of professional experience to help move theory into action and commercial success.

OUTLICENSE AND SUPPLY

Our products are developed and manufactured to UK Medicines and Healthcare products Regulatory Agency (MHRA) GMP standards

All of our molecules have Marketing Authorisations issued by the MHRA with Certificate of Pharmaceutical Product (CPP) available.

Our products are already being marketed across all six continents and we are currently looking for reliable partners who wish to take license and supply for their markets. We can provide high quality dossiers and competitively priced product with a robust supply chain to those who can successfully distribute to their home market.

REGULATORY CONSULTANCY

We offer the full suite of consultancy services to businesses aiming to do things the right way.
