• What is KOMISTUS?

KOMISTUS is a throat lozenge containing Cistus extract rich in polyphenols and gum arabic.

The lozenge forms a protective layer that emerges on the pharyngeal mucosa and this barrier provides physical (mechanical) protection against viruses and bacteria, preventing viruses and bacteria from entering and multiplying in the cells of our body. The active ingredient in gum arabic relieves itchy throat and dry cough.

• What does KOMISTUS contain?

Cistus Extract (*Cistus creticus*);
Propolis Powder Extract
Thyme Powder Extract (*Thymus sp.*);
Iceland Moss Extract (*Cetraria islandica*);
Rosehip Powder Extract (*Rosa canina*);
Pelargonium Extract (*Pelargonium sidoides*);
Gum Arabic; Natural Blackberry Aroma;
Honey Aroma; Menthol; Thymol; Stevia Powder (*Stevia rebaudiana*); Maltitol; Sorbitol.

Portion Size: 1,6g 1 Portion: 1 Lozenge	Portion Quantity: 12

• In which situations should KOMISTUS be used?

- To support the natural defense function of pharynx and oral mucosa, to create a physical barrier against viral and bacterial infections,
- From the first itching in the throat,
- In preventing infectious and inflammatory diseases, regardless of their origins, thanks to the formation of a physical (mechanical) barrier that occurs in the pharynx mucosa,
- Relief of sore throat and dry cough.

• Dosage instructions, application and duration

- For 11 year olds and up and adults;
- It is recommended to consume up to 6 lozenges per day.
- Consult your doctor in case of pregnancy and lactation, illness or drug use.
- Contains sweeteners. Excessive consumption can cause laxative effect.
- There are no known side effects or contraindications.

• Frequently Asked Questions

- **Does KOMISTUS have a protective effect against Coronavirus?**
Cistus extract operates by forming a protective layer on the surface of the mouth and pharynx. This layer, regardless of the type, helps prevent viruses through the human cell wall. Thanks to this obstacle, KOMISTUS may have a protective effect against viral infections regardless of the type of virus.
- **Is KOMISTUS used only to prevent flu?**
In addition to helping to prevent upper respiratory tract infections, it also helps relieve throat dryness and relieve dry cough.
- **Can diabetic patients use KOMISTUS?**
Since it is a sugar-free lozenge, diabetic patients can also use it safely.
- **Can chronic heart patients use KOMISTUS?**
It can be used by risk groups such as individuals over the age of 65, including chronic heart patients, those with a low immune system, and those with chronic respiratory diseases.

- It operates by forming a protective layer in the mucous membrane and pharynx;
- Creates a natural barrier to viruses and bacteria;
- Used as a preventive as soon as the first symptoms of itching in the throat are felt;
- Softens the throat, reduces cough;
- Does not participate in systemic circulation;
- Provides 6 hours of protection.
