For Children and Adults: A Convenient, Effective Way to Treat Diarrhea

Product overview:

Diarrhea depletes essential fluids and electrolytes, leaving you feeling weak and dehydrated. This innovative solution not only replenishes lost fluids but also supports your digestive system with *Saccharomyces boulardii*, a probiotic for a quicker recovery.

Our advanced formulation is designed to provide quick and effective relief from diarrhea. The sachets are easy to use – simply dissolve in water, and the solution is ready for consumption.

Key ingredients and benefits:

01

Sodium Chloride

RESTORES SODIUM LEVELS

Sodium is essential for maintaining fluid balance in the body. This helps to prevent dehydration, which is a common concern during diarrhea.

REPLENISHES POTASSIUM

Potassium helps maintain normal muscle and nerve function, especially after diarrhea.

Potassium Chloride

02

03

Trisodium Citrate Dihydrate

BALANCES ELECTROLYTES

Trisodium citrate is used in rehydration formulas to help balance the body's acid-base (pH) levels and to replenish lost electrolytes. By maintaining a balanced pH, it supports overall body function and electrolyte stability.

PROMOTES FLUID ABSORPTION

Glucose helps your intestines absorb fluids more effectively, promoting quicker hydration and faster recovery from diarrhea.

Glucose Anhydrous

04

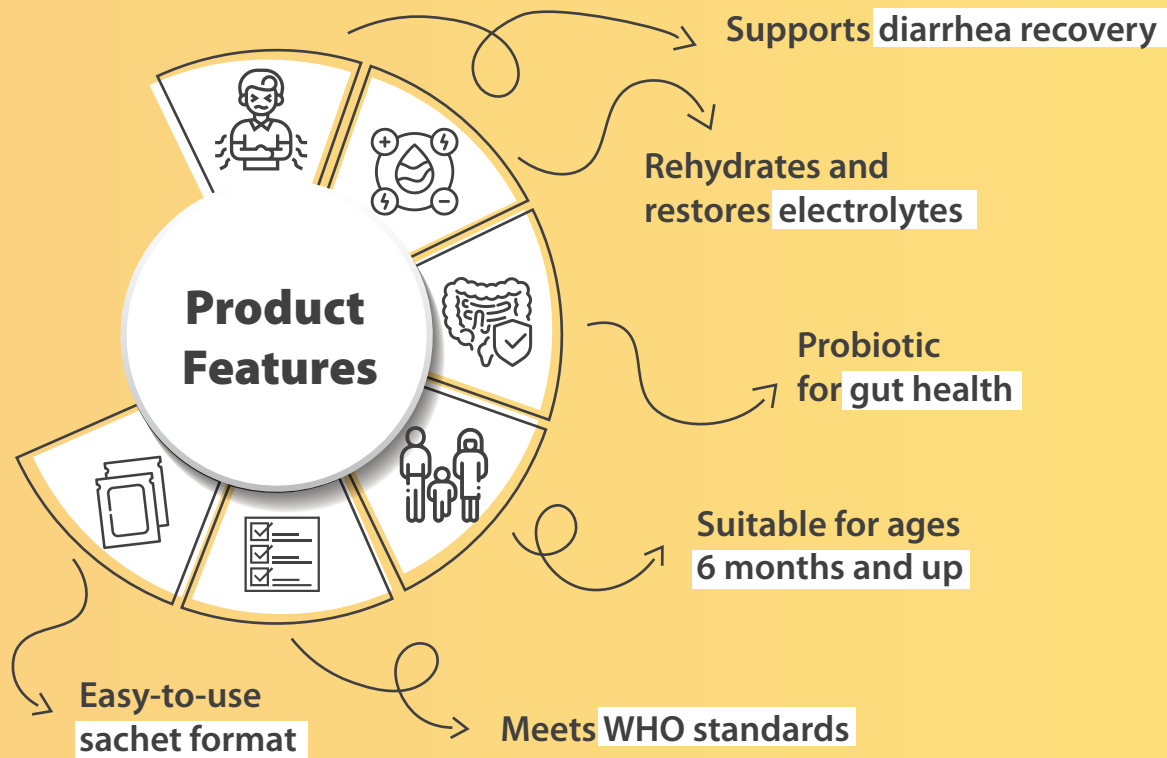

05

Saccharomyces boulardii

SUPPORTS GUT HEALTH

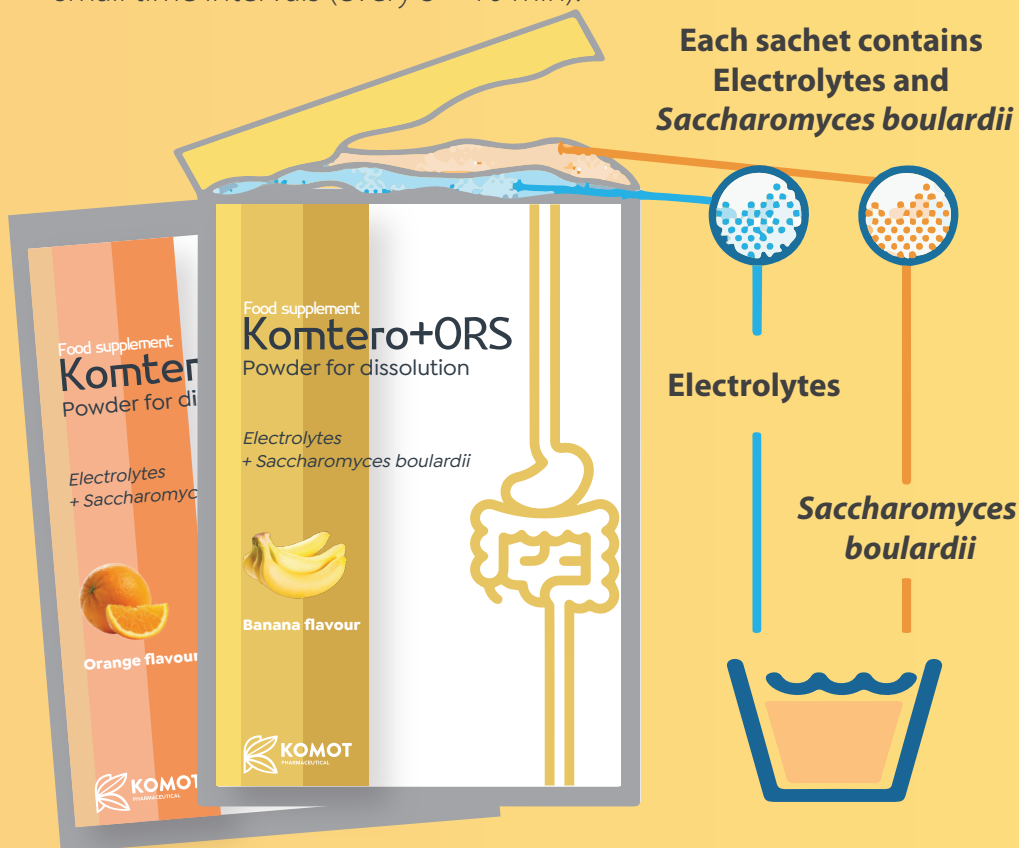

This probiotic yeast helps restore healthy bacteria in the gut, promoting digestive recovery and reducing the duration of diarrhea.

Direction for use:

Dissolve the content of the sachet in 200 ml of boiled, cooled water, mix thoroughly. Cool before consumption (cold drink is better tolerated). Consume after complete dissolution. The volume of water should not be lower than 200 ml. For infants and children, suspension could be administered by bottle with teat. Do not sweeten. In case of vomiting, administrate small portions in small time intervals (every 5 – 10 min).

1 box contains 20 sachets.

Directions for use: Take one to two sachets daily.
