**Growing together
for people's digestive
well-being**

Two ways of working together. One commitment: to be the partner that makes the difference.

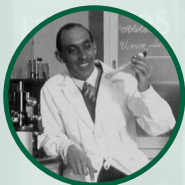

Digestive health is one of the pharmaceutical categories with the highest global demand, yet one of the least specialized. At Laboratorios Vilardell, we have made it our reason for being, building decades of expertise in the **development, manufacturing, and commercialization of digestive health solutions.**

We work with **distributors** looking to develop the digestive health category in their markets, **providing a comprehensive portfolio and a proven business model.** We also partner with **Marketing Authorization Holders** seeking a reliable and flexible manufacturer **specialized in glycerin suppositories**, with the technical expertise this product requires.

Our journey

1934

Founded by Dr. Joan Vilardell Garriga in the backroom of his pharmacy in Barcelona (Spain), our company was born with a deep understanding of the pharmacy channel.

1965

Relocation to Esplugues de Llobregat (Spain) marked the beginning of industrial-scale production of our flagship product: Vilardell Glycerin Suppositories.

1968

Following the passing of Dr. Joan Vilardell, leadership transitioned to his daughter, Clara Vilardell Albareda, who took over as General Manager and ensured the continuity of the company's values and long-term vision.

1984

Clara Oller Vilardell, third generation of the family, takes over as Technical Director, leading the implementation of GMP and the development of new production facilities.

1994

Opening of new headquarters and production facilities in Sant Feliu de Llobregat (Spain), marking a new phase of operational growth and modernization.

2004

Clara Vilardell retires and the original pharmacy closes. Clara Oller Vilardell becomes General Manager, continuing the family legacy.

2018

Launch of Vilardell Digest, a new brand that expands our digestive health portfolio.

2020

Implementation of a company-wide digitalization project to streamline all management processes.

2021

Vilardell products begin international commercialization, marking the start of our global expansion.

2023

Launch of Vilardell Farma, our e-commerce platform for pharmacy professionals, alongside the installation of a new blister-format suppository production line to increase manufacturing capacity.

2024

Laboratorios Vilardell celebrates 90 years of trusted partnership with pharmacies.

A background image showing two individuals in white lab coats shaking hands in front of a blurred city skyline. The person on the left is holding a tan folder, and the person on the right is holding a blue folder. The scene is brightly lit, suggesting an indoor setting near a large window.

INTERNATIONAL DISTRIBUTION

**Bring Spain's digestive
success to your market**

Why become a partner of Laboratorios Vilardell?

Digestive health specialists

We are a partner specialized in digestive health with solid experience in the pharmaceutical industry.

No. 1 brand in sales

You will be able to replicate our success with a No. 1 brand in sales in Spain.

European quality standards

Our manufacturing processes comply with GMP regulations, ensuring the excellence of our products.

Differentiated products

Our solutions include patented components and clinical studies that support their efficacy.

We grow alongside you

We establish long-term partnerships and support you throughout the development of the entire project.

We provide 360° support

We help you strengthen your portfolio by offering comprehensive support across all areas.

Our product lines

vilardell Glycerin Suppositories

Plant-based laxative for the relief
of occasional constipation

It is our flagship brand, with 90 years of history. Today, it is one of the best-selling laxatives in Spain and the leading brand of glycerin suppositories*.

Its formats for adults, children, and infants, available in both jars and blisters, cover the needs of the whole family.

*Source: IQVIA. No. 1 in sales (MAT August 2025) for glycerin suppositories in Spain.

vilardell digest

Natural digestive health solutions brand, scientifically
backed and exclusive to the pharmacy channel

Vilardell Digest is our natural digestive health brand, with scientifically proven quality and efficacy. It combines our philosophy with market trends: a range of products designed to improve and prevent digestive issues, made up of 6 natural solutions featuring patented ingredients and supported by scientific studies that demonstrate their efficacy.

Supports intestinal transit^{1,2}

Food supplement

Prebiotic
effect

Works
overnight

Bilayer
technology

30 bilayer
tablets

Supports intestinal transit^{1,2}. With a prebiotic effect^{3,4}.

Description

Biphasic double-action food supplement in tablet form. It contains a fast-acting laxative layer with cascara sagrada and frangula that supports normal intestinal transit^{1,2}, and a slow-release layer with fiber (inulin) providing a prebiotic effect^{3,4}.

Who is it intended for?

Adults aged 12 years and over who wish to maintain normal intestinal transit.
People undergoing treatment with other laxatives who experience abdominal pain and cramping.
People who are taking fiber and are not obtaining results.
People who need to restore their microbiota after episodes of constipation.

Composition

Ingredients	1 tablet
Inulin	100 mg
Cascara sagrada extract	80 mg
Frangula extract	71,4 mg

Directions for use

 x1 tablet before
bedtime.

For healthcare
professionals use only

Microenema for the relief of occasional constipation

Medical device

Unique
formula

Evacuating
and emollient
action

Releases
the bowel

Microenemas

Releases the bowel in cases of occasional constipation.

Description

Vilardell Digest Melax is a microenema laxative that provides a dual action: evacuating and emollient. Its unique formula with glycerol, honey, hyaluronic acid and other ingredients of natural origin: 1) lubricates and softens the stool^{1,2}; 2) protects the rectal and anal tissue³; 3) soothes, protects and repairs the mucosa^{4,5}.

Who is it intended for?

Adults aged 12 years and over with occasional constipation.
People with sensitive or irritated rectal mucosa.
People undergoing treatment with other fibers or laxatives who have not been able to have a bowel movement.

Composition

Adult microenema 9 g containing:
Glycerol and ingredients of natural origin: glycerol, honey, plant-based hyaluronic acid, chamomile, mallow, and purified water.

Directions for use

Apply one 9 g
microenema as needed.

For healthcare
professionals use only

Vilardell Digest Melax complies with current medical device regulations. Indicated for adults. Do not use in case of hypersensitivity or allergy to one or more of the ingredients. Do not use for more than seven consecutive days. Use for longer periods requires a medical prescription following an appropriate assessment of the individual case. Not recommended during pregnancy and breastfeeding due to the lack of studies.

vilardell *digest* **TRANSIT**

CONSTIPATION

Helps maintain intestinal regularity*

Food supplement

With prebiotics

Fast-dissolving and non-gelling

Neutral taste

Sachets

MONASH
UNIVERSITY
LOW FODMAP
CERTIFIED™

Fibersol® has been recognized as a low-FODMAP ingredient, suitable for people with irritable bowel syndrome (IBS)®.

*Aloe helps support intestinal function.

Food supplements should not be used as a substitute for a varied and balanced diet and a healthy lifestyle. Do not exceed the expressly recommended daily dose.

Improves intestinal regularity. With a prebiotic effect¹⁻³.

Description

Food supplement to regulate intestinal transit with soluble plant fibers (Fibersol® and Actilight®) that dissolve quickly, have a neutral taste, and do not gel.

It is supported by scientific studies showing that it helps increase bowel movement frequency^{4,6} and offers better tolerance by producing fewer gases than other fibers^{5,7}.

Who is it intended for?

Adults aged 12 years and over with chronic constipation.

People undergoing treatment with other fibers (gas, unpleasant taste, gelling).

People experiencing a sensation of incomplete evacuation after bowel movements.

People with a low-fiber diet or high-protein diets.

People with constipation associated with chronic medical treatments (opioids, iron, calcium, etc.).

vilardell *digest* **PROBISEC**

Probiotics & zinc

Intestinal balance and immune support*

Food supplement

Fast-dissolving, no water needed

Clinically studied strains

Supports the immune system

10 orodispersible sticks

From 3 years of age

*Zinc contributes to the normal function of the immune system.

Food supplements should not be used as a substitute for a varied and balanced diet and a healthy lifestyle. Do not exceed the expressly recommended daily dose.

DIARRHEA

Food supplement based on three probiotic strains, supported by scientific studies demonstrating their efficacy in diarrhea¹⁻³.

Description

Lactobacillus acidophilus (BIFOLACTM5), *Bifidobacterium animalis ssp. lactis* (BIFOLACTM12), y *Lactobacillus rhamnosus* (BIFOLACTMGG) together with zinc, which supports the immune system, have been shown to reduce the duration and severity of diarrhea¹⁻³.

Who is it intended for?

Adults and children aged 3 years and over.

Indicated for use in situations of intestinal microbiota imbalance, such as antibiotic treatments, viral and bacterial infections, or travel.

Composition

Nutritional information	Per daily dose (1 stick)	%NRV*
<i>Lactobacillus acidophilus</i> (BIFOLAC TM 5)	≥ 2,1×10 ⁹ UFC/g**	-
<i>Bifidobacterium animalis ssp. lactis</i> (BIFOLAC TM 12)		-
<i>Lactobacillus rhamnosus</i> (BIFOLAC TM GG)		-
Zinc	2 mg	20%

* NRV – Nutrient Reference Values

** Total content equal to or greater than 2.1 × 10⁹ CFU (colony-forming units per gram)

Directions for use

x1 stick per day for 10 days.

For healthcare professionals use only

vilardell *digest* **DIGESBEN**

Well digested, life feels better

Food supplement

DigeZyme®
Enzymes of
microbial origin
(vegan)

Heavy
digestion

Bloating
and gas

30 vegetable
capsules

Helps with heavy digestion^{1,2} and prevents gas³.

Description

Food supplement supported by scientific studies that helps with heavy digestion. Its unique formulation with the multi-enzyme complex Digezyme® and plant extracts provides a triple action: digestive^{1,2}, anti-gas³ and antacid¹.

Who is it intended for?

Adults aged 12 years and over with heavy digestion and gas.
People with digestive discomfort (heavy digestion, acidity, gas, bloating...) after meals or when expecting large meals.
People with slow and incomplete digestion caused by stress or difficulty falling asleep

Composition

Nutritional information 2 capsules

Digezyme® (amylase, lactase, cellulase, lipase and protease)	70 mg
Chamomile	55,3 mg
Fennel	55,3 mg

Nutritional information 2 capsules

Peppermint	55,3 mg
Magnesium oxide	414,6 mg
Fructooligosaccharides	180 mg

Directions for use

 **x1** capsule after
the main meals.

It can be taken occasionally
or on a regular basis.

HEAVY DIGESTIONS

For healthcare
professionals use only

Food supplements should not be used as a substitute for a varied and balanced diet and a healthy lifestyle. Do not exceed the expressly recommended daily dose.

vilardell **ACIDEX**
digest

Rapid protection against acidity and heartburn

Medical device

Protects
the mucosa

Mint
flavor

From 6 years
of age

24 chewable
tablets

Combats acidity^{1,2}, prevents reflux³ and protects and repairs the gastric mucosa⁴.

Description

Vilardell Digest Acidex is a medical device recommended for the prevention and treatment of gastroesophageal reflux, hyperacidity, and the protection of the gastric mucosa¹⁻⁴.

Who is it intended for?

Adults and children aged 6 years and over.

People who wish to prevent and treat gastroesophageal reflux, gastric hyperacidity, and protect the mucosa.

People suffering from chronic or occasional acidity associated with medical treatments (NSAIDs, aspirin, omeprazole).

Composition

Calcium carbonate, potassium bicarbonate, sodium alginate, and tamarind seed extract.

Directions for use

x2 Tablets after the
main meals.

A maximum of 6 chewable tablets can be taken per day. Children aged 6 to 12 years: reduce the dose by half.

For healthcare
professionals use only

Vilardell Digest Acidex complies with current medical device regulations. Indicated for individuals aged 6 years and over. In children and adolescents (6-18 years), use under medical supervision. Do not use in case of intolerance or known hypersensitivity to any of its components. No known adverse effects, except for mild and transient nausea or constipation. In case of undesirable effects or if symptoms persist, consult a doctor. Do not use for more than 30 consecutive days.

CMO SERVICES

**Manufacturing certainty
starts here**

How we support your manufacturing success

Dedicated manufacturing facility

We manufacture glycerin suppositories in our own specialized facility, backed by more than 90 years of expertise.

GMP quality standards

Our manufacturing processes comply with European GMP standards, ensuring consistent quality, safety and regulatory compliance.

Reliable supply continuity

Robust planning and manufacturing processes help ensure a stable and uninterrupted product supply.

End-to-end technology transfer support

We support you throughout the transfer and manufacturing process, helping ensure a smooth transition into production.

Flexible collaboration approach

We adapt our manufacturing services to the specific requirements of each project, providing tailored solutions.

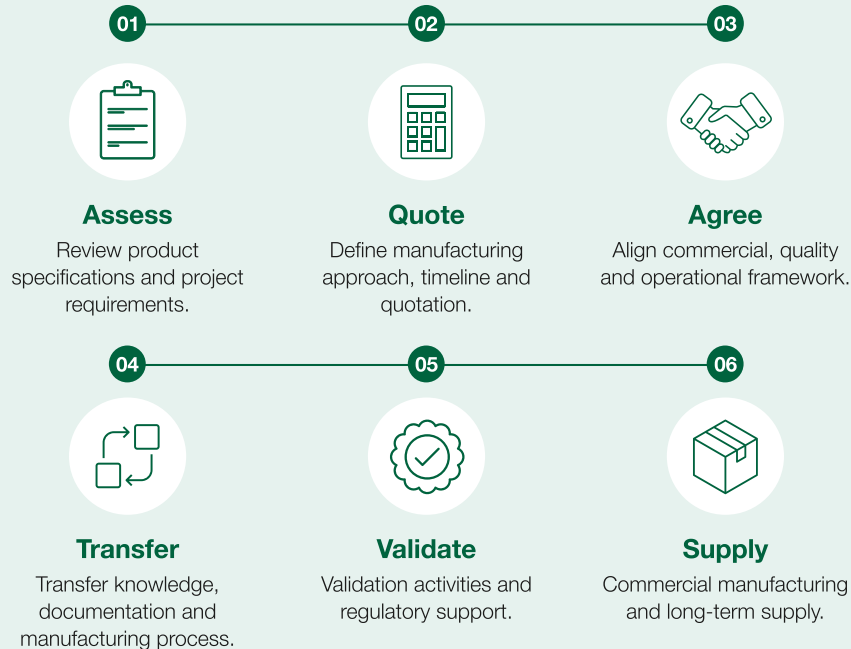

Responsive project management

Direct communication and a proactive approach help address challenges quickly and keep projects moving forward.

Your seamless transition to Laboratorios Vilardell

A structured technology transfer process designed to ensure continuity, compliance and reliable supply.

A complete range of formats for different needs

We adapt our manufacturing approach to your existing glycerine suppository, preserving the key features that define your product.

01

Packaging format

Blister or bottle

02

Glycerol strength

Adapted for adults,
children or infants

03

Formulation

We analyze your product
to ensure you can maintain
your existing formulation

04

Pack size & Volumes

Unit count and MOQ
aligned with the project

Let's grow your digestive health business together

From finished products for distribution to tailored glycerin suppository manufacturing, we offer solutions adapted to your needs.

Contact us and we will prepare a proposal tailored to your project.
