

Targeted.
Tailor made.
Backed by science.

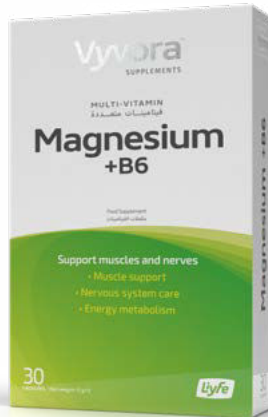

An outcome-led portfolio of
probiotics, nutritional solutions, and
selected medical devices designed to
support defined health needs across
life stages and body systems.

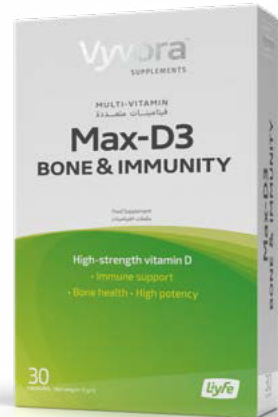

Daily Foundations & Preventive Health

Gentle iron support
Supports red blood cell formation

Support muscles and nerves
Helps reduce tiredness and fatigue

High-strength vitamin D
Supports bones and immune function

Beauty from within
Nutrients for skin, hair and nails

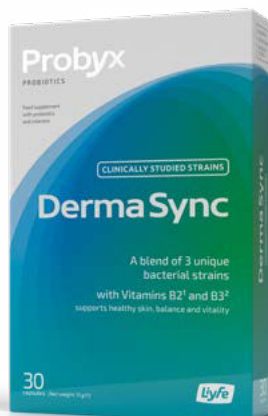

Daily eye nutrition
Supports visual function in modern life

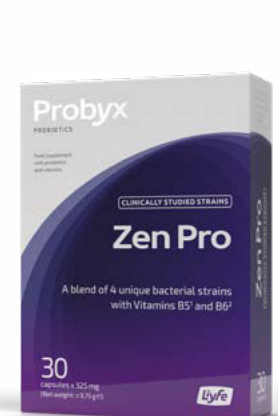

Plant-based omega balance
Supports heart and brain health

Metabolic balance starts in the gut
Supports insulin sensitivity and metabolic health

Skin health starts in the gut
Microbiome support for skin balance and barrier integrity

Calm the gut, support the mind
Psychobiotic support for stress and mood

Daily microbiome balance
Broad-spectrum probiotic
for gut resilience

Topical anti-viral barrier
Medical device for skin protection

High-strength antioxidant
Supports immune health

Triple immune support
Supports immune defence

Immune and antioxidant support
Triple micronutrient synergy

Daily nutritional foundation
Broad-spectrum micronutrient support

Digestive Comfort, Gut Barrier & Recovery

Daily microbiome balance
Broad-spectrum probiotic
for gut resilience

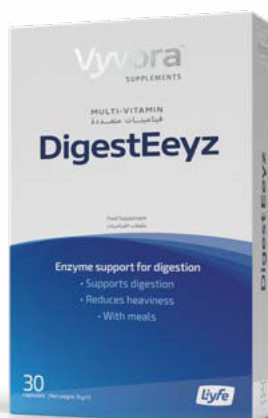

Gut protection on the move
Supports digestive resilience
during travel

Rebuild the gut after disruption
Supports microbiome
recovery post antibiotics

Comfort for sensitive digestion
Supports bloating, gas and
IBS-type discomfort

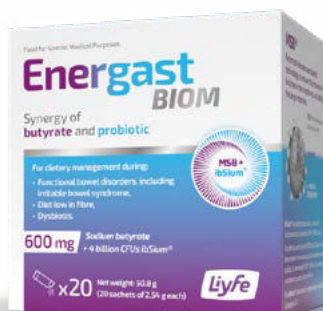

Enjoy meals without discomfort
Enzyme support for digestion

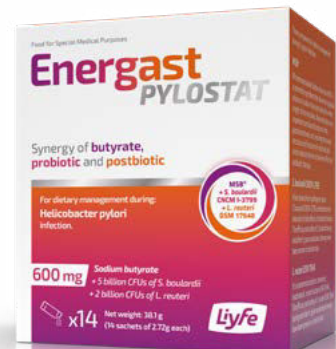

Gentle regularity support
Fibre support for bowel movement

Targeted butyrate support
Sodium butyrate for gut health

Gut repair support
Butyrate-based microbiome support

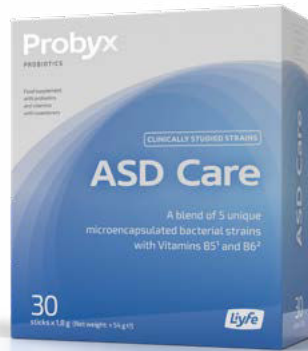

Gastric microbiome support
Supports gastric balance

Gut-Brain, Mood & Neuro-Resilience

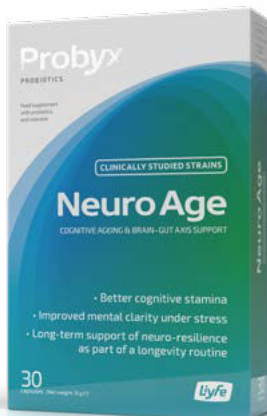

Calm the gut, support the mind
Psychobiotic support for stress and mood

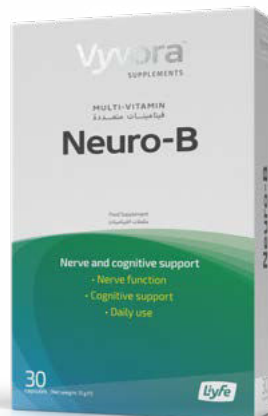

Clinically studied microbiome support
Developed from ASD clinical research

Healthy ageing from the inside out
Inspired by longevity and healthy ageing research

Cognitive ageing & brain-axis support
Long term support of neuro-resilience as part of a longevity routine

Nerve and cognitive support
B-vitamin complex for nervous system

Night-time recovery support
Supports relaxation and sleep quality

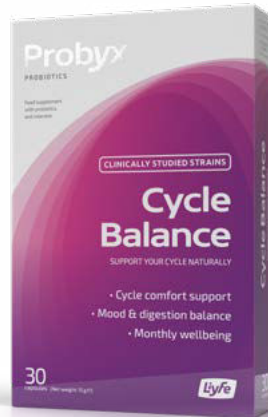

Tremor support device
Non-pharma mechanical support

Women's Lifecycle & Hormonal Health

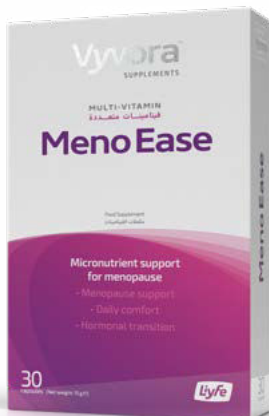

Support through menopause
Microbiome support for metabolic and inflammatory balance

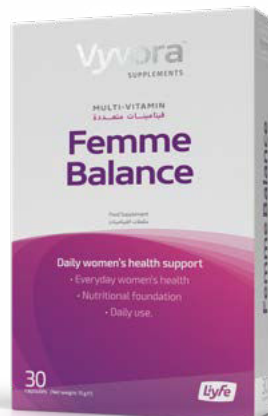

Cycle comfort from within
Supports gut-hormone interaction linked to PMS

Support from fertility to motherhood
Maternal microbiome support across life stages

Menopause symptom support
Micronutrient support for menopause

Daily women's health support
Broad women's micronutrient care

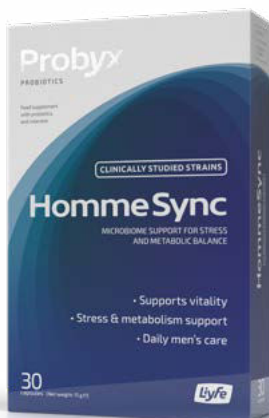

Supports general health
Vitality, immunity and hormone support for a teenager's lifestyle.

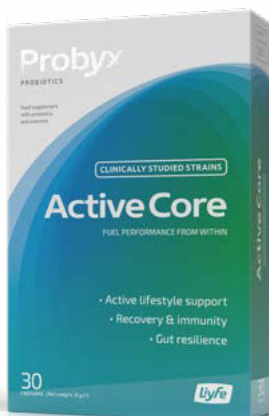

Men's Health & Vitality

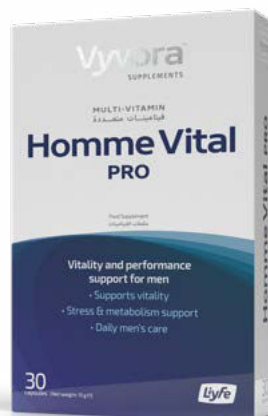

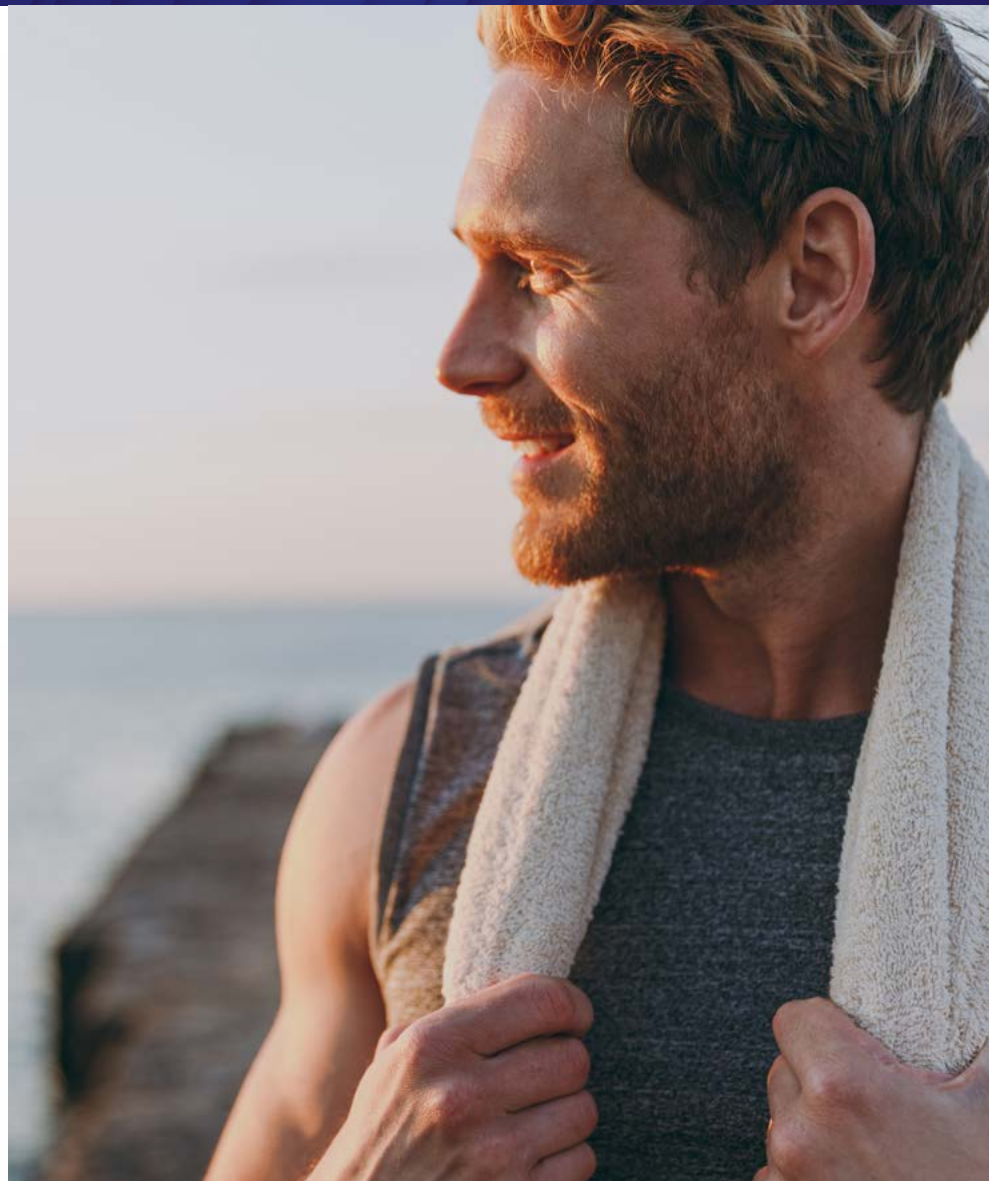

Metabolic balance starts in the gut
Supports insulin sensitivity and metabolic health

Men's vitality from the gut
Microbiome support for stress and metabolic balance

Performance starts in the gut
Supports recovery and immune resilience

Vitality and performance support
Supports energy and stress resilience

Daily men's foundation
Micronutrient support for men

Healthy Ageing, Longevity & Resilience

Advanced microbiome longevity science

Akkermansia-based gut barrier support

Healthy ageing from the inside out

Inspired by longevity and healthy ageing research

Cognitive ageing & brain-axis support

Long term support of neuro-resilience as part of a longevity routine

Metabolic balance starts in the gut

Supports insulin sensitivity and metabolic health

Satiety and fibre support

Supports fullness and digestive comfort

Night-time recovery support

Supports relaxation and sleep quality

Cellular energy support

Supports mitochondrial function

Support glucose and cravings

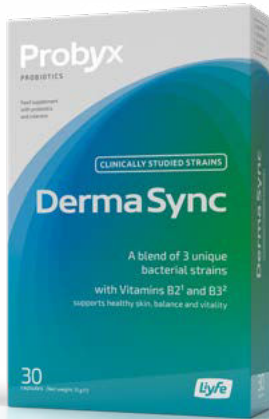

Helps manage appetite and glucose balance

Support modern weight management

Designed to complement GLP-1 approaches

Barrier & Interface Health

Skin health starts in the gut
Microbiome support for skin balance and barrier integrity

Oral health starts with the microbiome
Probiotic lozenge for breath and gums

Next-generation oral care
Postbiotic support for oral ecosystem balance

Daily gum and breath support
Non-probiotic oral care

Topical anti-viral barrier
Medical device for skin protection

Performance, Energy & Physical Recovery

Hydration made simple
Supports fluid and mineral balance

Post-exercise replenishment
Supports recovery after activity

Performance starts in the gut
Supports recovery and immune resilience

Joint comfort and mobility
Supports joint function

Advanced daily nutrition
Professional-grade micronutrients

Immune Defence & Seasonal Resilience

High-strength antioxidant

Supports immune health

Triple immune support

Supports immune defence

Immune and antioxidant support

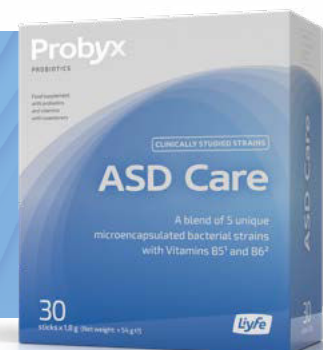

Triple micronutrient
synergy

Immune and skin support

Supports immune and skin health

Paediatric & Early-Life Microbiome

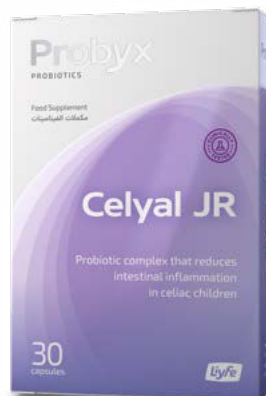

Clinically studied microbiome support

Developed from ASD clinical research

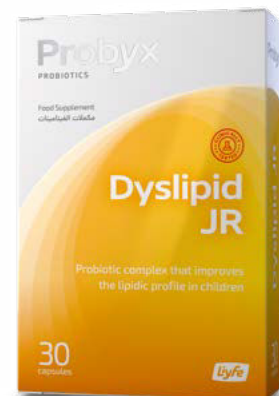

Microbiome support from day one

Gentle probiotic for
early-life development

Intestinal balance for sensitive young guts

Targeted probiotic support for children
with increased intestinal sensitivity

Early cardiometabolic balance support

Probiotic and nutritional support for
healthy lipid metabolism in children
