SILVER SPRAY

20 ml

ACTIVE INGREDIENTS:

Icelandic lichen extract (Cetraria Islandica), spearmint, benzalkonium chloride, colloidal silver.

INDICATIONS:

The mouth and throat spray contains Icelandic lichen extract, which coats the throat with a protective film, protecting it from the influence of harmful pathogens and ensuring an adequate level of hydration. Thanks to its action, it relieves inflammation of the throat, accompanied by inflammation, manifested with burning, dryness, pain and difficulty in swallowing. An additional component such as colloidal silver prevents the growth of microorganisms. One of the mechanisms of silver is the deactivation of the enzyme, which unicellular organisms use in aerobic metabolism. As a result, pathogenic micro-organisms die.

PROPERTIES:

• colloidal silver

- ✓ The colloidal form is so small that they can penetrate most pathogens.
- ✓ The therapeutic value of colloidal silver is that it is a natural substance that exhibits antimicrobial activity by impairing the bacterial enzyme system that all single-celled pathogens use in their aerobic metabolism.

• **Icelandic lichen** extract coats the mucosa with a film, protecting it from the influence of harmful pathogens and ensuring an adequate level of hydration

- does not contain sugar (can be used by diabetics), contains sweeteners (sorbitol)

AVAILABLE:

20 ml presentation

TARGET GROUPS:

adults and children from 6 years of age

CLASS:

I according to MDD
